

17th July 1933.

My dear Mr. Ward:

Upon the question being raised by Dr. Snell as to differential rates of pay between the clerks and stenographers in the different departments of Macdonald College and those employed in the administrative offices, I have informed him that I am writing to you to say that cuts recently put in force should have uniform application, and this means that all wage earners at the College will be treated in the same way.

Yours faithfully,

Principal.
