

ISSUED MONTHLY IN THE INTERESTS
OF THE

Civil, Mechanical, Electrical, Locomotive, Stationary,
Marine, Mining and Sanitary Engineer; the
Machinist and Founder; the Manufacturer and Contractor.

THE CANADIAN ENGINEER was first issued in May, 1893, as a 28-page paper. Each issue now contains 52 to 56 pages. The increase in its circulation is still more remarkable, as is shown by the affidavit of our printing contractors. THE CANADIAN ENGINEER stands unrivalled among Canadian trade papers for the wide distribution and character of its circulation. Its subscription list is a bona fide paid one (the only free copies being to advertisers and contributors), and it is the only paper which reaches both the men who own the industrial and engineering establishments of Canada, and the men who operate them.

*The following shows the steady
progress of its circulation:*

| | | | | |
|--------------|---|---|---|-------|
| August, 1895 | - | - | - | 2,200 |
| August, 1896 | - | - | - | 3,450 |
| August, 1897 | - | - | - | 4,400 |
| August, 1898 | - | - | - | 4,400 |
| August, 1899 | - | - | - | 5,004 |

Our books and mail sheets are always open for the inspection of advertisers.
