## HARD FACTS

Are crushing things. You have to  
"lay down" to them at times. It is a fact  
that the . . . . .

E. & D.

has come to stay. Another fact that it's  
universally popular and a winner. It's a  
bicycle built to last a lifetime. Its im-  
provements in bearings make it the per-  
fect wheel. Its every joint is suggestive  
of the thoroughbred, and its riders are the  
aristocrats of the tourist roads. . . .

Plenty more facts could be added.  
Drop us a line for them.
