

ONLY DILUTED ACID SHOULD BE SOLD

O. C. P. President Calls Attention to Death Toll From Carbolic Poisoning.

In his address presented at the semi-annual meeting of the Ontario College of Pharmacy Monday afternoon, President Alex. Stewart of Guelph expressed the opinion that more stringent legislation was necessary in regard to the sale of carbolic acid.

"During 1912," he said, "no less than 34 fatal cases in Ontario have been recorded that were directly the result of poisoning from this drug. I would recommend that council should take action at this session with a view of amending the act and making it legal to sell only carbolic acid of 5 per cent strength, which will meet practically every purpose for which the acid may be required."

Commenting on the work of the college during the year, Mr. Stewart called attention to the fact that at the senior examinations only two had failed out of a class of 102 students. Forty-eight had passed with honors.

Only one report was presented at the afternoon session—that of the presiding examiner, H. Waters of Ottawa, which was referred to the committee for approval. One of the recommendations made by Mr. Waters was that instead of the present system of four years' apprenticeship and one year's work at college for pharmacy students, the apprenticeship should be for two years, followed by the same length of time at the college. This would enable candidates to qualify in four years instead of five at the present time. It is likely that the proposed innovation will create considerable discussion. A session of the council will be held this morning.

FAULTY RAILING COSTLY.

GALT June 3.—(Special.)—It transpires that the recent collapse of the railing on the city hall stairway, which resulted in serious injury to two young men, cost the corporation \$500, claims of the injured parties having been settled without litigation. Today work began on the new stairway, to be built on modern lines.

INAUGURATION OF GRAND TRUNK LAKES AND SEASIDE RAILWAY. The Grand Trunk Railway will operate a special train leaving Toronto at 10:45 a.m. stopping at Hamilton, Brantford, Paris, Woodstock, Iroquois, London and Stratford, arriving in Sarnia at 4:00 p.m., making direct connection with the Northern Navigation Company's palatial steamers leaving Sarnia at 4:15 p.m. for Port Arthur. The Grand Trunk Pacific Railway will also inaugurate a new fast express service, leaving Port William 4:45 p.m. Mondays, Wednesdays and Fridays, arriving in Winnipeg 7:45 a.m. next morning. Parlor-car and dining cars and first-class coaches between Toronto and Sarnia wharf. Standard sleeping cars electric lights in lower and upper berths, colonist sleeping cars (berths free), dining car and coaches between Port William and Winnipeg. Full particulars, reservations on steamers or trains may be obtained on application to Grand Trunk agents, Toronto city office, northwest corner King and Yonge streets. Phone Main 4209, or write C. E. Horning, D.P.A., Union Station, Toronto, Ont.

ALDERMEN ALMOST FIGHT. KINGSTON, June 3.—(Special.)—The contract for street paving was awarded to the Windsor Asphalt Paving Co., at \$275 per square yard, after several weeks' discussion over the matter by the city council, there being much opposition on part of some aldermen. Two of the aldermen came within an ace of coming to blows after the meeting. They got arguing on Market Square and blows would have been struck had not some of their friends pulled them apart.

CATERPILLARS BLOCKED TRAIN. KINGSTON, June 3.—(Special.)—Caterpillars swarmed on C.P.R. tracks for a stretch about three miles near Callabogie, and were the means of holding up the special train conveying members of the Royal Canadian Horse Artillery to Canada. The train was held up for two hours. Section men had to go over the tracks with brooms and clear the rails of caterpillars.

FRIENDS TO MEET. The Canada half-yearly meeting of Friends will be held at Forum Hall, corner Yonge and Gerrard, tomorrow, Thursday, at 2 p.m. Public meeting for worship and exposition at 8 p.m. Jeanne Wilson and Elizabeth Lynde of Philadelphia will attend.

BANS MCCARTY-PELKY PICTURES. BOSTON, June 3.—(Can. Press.)—The moving pictures of the Luther McCarty-Pelky fight at Calgary, which resulted in McCarty's death, cannot be exhibited in Boston, Mayor Fitzgerald ruled today.

The mayor said that because of the tragic end of the match, the pictures would have a depressing and perhaps even a more harmful effect.

THE SEASHORE. The time is now opportune to plan for your summer outing, and to those who have enjoyed the seaside the reality of New London, Conn., offers many attractions. King for those who have not experienced the delights of a stay at the seaside, we recommend territory for the vacation this year. A new booklet dealing with the district mentioned and entitled "The Seashore" has been issued by the Grand Trunk Railway System and copies may be had for the asking. The descriptive matter in the booklet is interesting and profusely illustrated with scenes from direct photographs. Hotel accommodations is available to suit all pockets, the rates running from \$10 per week to \$10 per day. The special features are warm sea bathing and deep sea fishing. This district is within a night's ride from Montreal. Reduced fares are offered and first class train equipment will be at your service. Ask the Grand Trunk Agent in your city for a copy of the book.

44 x 90 FEET—Close to York Street, excellent building now on this site; price is very reasonable for this neighborhood.

OFFER BEING MADE FOR NORMAL SCHOOL

Options on Small Surrounding Properties Being Taken Up—Big Move Mooted.

Officials of the Monarch Realty and Securities Corporation yesterday announced that an offer of about half a million dollars was being made to the Ontario Government for the normal school grounds. While not stated, it is expected that the company intends, if the offer is accepted, to hold awaiting early developments in the district that will make the property valuable for store or railway purposes, which is similar to what inspired the purchase of the Bishop Strachan School property.

Options on some nearby properties on Victoria and Gerrard streets have been taken by the agents of the company. Tanager & Gates, and this has given rise to reports that the tenders do not expect that the developments will be belated, and firms that might bid the site a good one are already being mentioned.

The school grounds are 570 feet square, with a frontage on Church, Victoria, Gould and Gerrard streets.

FRONTAGE ON ALTON AVENUE PURCHASED

G. Frank Beer has sold to Meen & Meen, realty agents, part of the Russell block property on the north side of Queen street and south of Doel avenue.

Alton avenue is being run by the buyers thru the property, which contains about 2500 ft. About \$70,000 was the consideration.

LARGE RESIDENCE ON DUNVEGAN RD. SOLD

No. 90 Dunvegan road, which is a large 11-roomed brick house, with grounds 50 feet by 155, has been sold to T. H. Best by J. A. McAllister, thru M. S. Boehm & Co., at about \$20,000.

TO HOLD CLASSES IN LIBRARY INSTRUCTION

Lectures Will Be Given by Hester Young in University Library.

The students no longer crowd the library accommodation at the University of Toronto, the building will not remain idle even until after convocation. For four weeks from now, the library instruction will be held daily in the women's reading room of the university library in Queen's Park.

Instruction will be in charge of Miss Hester Young, B.A., under the direction of the inspector of public libraries. It will embrace lectures in literature, library administration, book selection, cataloging and classification according to the Dewey decimal system, reference work, bookbinding, children's work, fines and accounts, travelling libraries, and a course of lectures on the Public Library Act. Well known library experts will do the lecturing.

No entrance or tuition fee is required from those desiring to attend lectures, but the number of applicants admitted is necessarily limited by the extent of accommodation available. Candidates are required to have received an education equivalent to a high school course. All the books and supplies needed are provided free of charge by the department of education.

Two summer sessions for librarians have already been held, in 1911 and 1912. Several librarians and novices who passed the examinations at these sessions have since been promoted to more advanced work and are earning bigger salaries than formerly.

Practical work for beginners will be instituted in an attempt to duplicate the daily routine of an average library. The course is based upon the assumption that the student has had little or no experience in library work. The reality of the instruction is expected that in the near future a longer session will be organized.

Certificates will be granted at the end of the session to those students who pass the examination.

TO MAKE A MAP OF GREATER TORONTO

City Officials Will Survey Districts Outside of City Boundaries.

Watch Toronto grow! Big and little lights in the city administration are busy to day in big and little automobiles to make a map of a still greater Toronto. They will study the topography of the territory northeast and northwest of the city limits, and will get an idea where the boundaries should be moved out.

This will not be an invasion for an aggressive city, but a move to cover the movement of civil forces into proposed annexes is impelled by the need for more room for the industries and population that are centralizing in Toronto with increasing persistence. Even the doubting Thomases in the city council find themselves swimming along with the tide of advancement. They must sink or swim.

Out in the northwest district, where the population is reaching upwards from St. Clair avenue to Eglinton avenue, and where manufacturers want sites for new plants, the city council find themselves swimming along with the tide of advancement. They must sink or swim.

In the northeast district, where the Don ravine makes the question of map construction a grave problem, and where the population is overrunning old landmarks between Danforth and Mt. Pleasant, the city council find themselves swimming along with the tide of advancement. They must sink or swim.

In the northeast district, where the Don ravine makes the question of map construction a grave problem, and where the population is overrunning old landmarks between Danforth and Mt. Pleasant, the city council find themselves swimming along with the tide of advancement. They must sink or swim.
