

Special Cable to The Toronto World. PETROGRAD, May 25.—The Rus-sians continue attacking over the whole front in Galicia with the egception of one small section southeast of Per-emysl. Here the Germans continue to make fruitless attempts to force their way to the main line of the railway in the hope of cutting the Russian com-munications behind the fortress. Everywhere else the enemy is now definitely on the defensive. This has now lasted 48 hours, a period, which should have fully sufficed to refill their complements and stores. If the Ger-mans do not immediately resume the mans do not immediately resume the offensive, we are justified by similar experiences on several occasions on the Warsaw and the Niemen fronts in feeling assured that the tremendous German onslaught from Cracow is yet another blow that has missed its mark nd left a good opening for a return stroke

Strong Advance Southward. Having satisfactorily scotched the arman attack on the west and south, the Russians are developing a strong advance in the eastern section of the front. Moving along the left bank of the Dniester in the early hours of Sat-urday, the Russians have now stormed and taken a number of points, cap-turning 2200 men, 40 officers, scores of maxims and a quantity of various military stores. This successful move-ment continues to develop, while be-yond the Dhiester the enemy has been almost entirely reduced to gulescence. The Baltic provinces' raid continues to be slowly liquidated. Meanwhile the Russians have occupied a line of rivers, the Vindava, Venta and Du-bussa, and have forced the Germans back a considerable way to the west of the last named stream, over several hundred miles of front, namely the Niemen, Narew, Bzura and Rawka, as far as the upper reaches of the Vis-

Germans Quieter. Nothing has occurred during the past 24 hours since the Germans made a series of reconnaissances and at-tacks over the whole lines. They must Germans Believe Attacks on have quite satisfied themselves on one point, namely that the costly onslaught into Galicia has not caused the Rus-sians to reel in their power of offense upon what must always be the main preoccupation of the Germans, the Warsaw-Berlin direct route. Another day or two must suffice to indicate whether the Germans accept failure of their rush into Galicia or have been recuperated and reinforced with the Mighty Methods of War Way Describes Ten ntention of tempting fate yet fur-

W. H. Cross, president of the Run-nymede Ratepayers' Association, writes to The World as follows: May I trespass on your valuable space to reply to some statements which appeared in your paper on Sat-urday last, which, in justice to the truth, need correction. In Saturday's issue Mr. I. C. Woolner makes an at-tempt to get from under a most untempt to get from under a most untempt to get from under a most un-enviable responsibility (and no won-der), and in the effort has not scrupl-ed to misrepresent a whole lot of facts. Since I myself have been misrepre-sented in this regard, I am the more sented in this regard, I am the more anxious to straighten matters out. At a meeting of the Runnymede Rate-payers' Association, held some two months ago. Mr. Woolner introduced

months ago. Mr. Woolner introduced a resolution calling upon the York Township Council to do something with regard to the insurance of the men who have gone from the town-ship to the firing line. Mr. Woolner's first error in regard to matter of fact is in stating that Mr. W. Sims was the seconder of his motion. Mr. Sims is not a member of our association, but is president of the Baby Point as-sociation, and at the meeting in ques-tion he played the role of visitor, and sociation, and at the meeting in ques-tion he played the role of visitor, and seconded nothing. We know and can verify the fact, who did second the re-solution, but we have not the gentleman's permission to use his name, so we refrain. Next, Mr. Woolner insinuates there was not a representa-tive attendance. As a matter of fact, there were 40 or more members at the meeting. Your readers will know how to judge this point. Then Mr. Wool-ner makes an attempt to torture cer-tain expressions which he used into something totally different in mean-
