### Couldn't Find It.

A German anatomist has dissected many a human body and declares that he has never found the soul. Astonishing! If there is a soul he surely would discover it. Did he find any life in the dead body? No. Of course; then there was none before the body died. Did he find any mind, any thought, any affection? No. Therefore there is no mind, no thought, no affection. The following reply has been given to the anatomist:—A cat listened with admiration to the song of a nightingale. Ambitious to learn the secret of such charms and to acquire them himself, he caught the sweet singer, tore it to pieces, and found to his astonishment no music.—J. H. W. SLUKENBERG, D.D.
