Big Nip Takes a Turn for the Better----Gold Stocks Easier

Further Selling of Porcupines And Prices Go Still Lower

Hollinger Gets Down Below Eleven Dollars, and Other Stocks Follow Its Lead—Nipissing Makes a Sharp Turn.

World Office,
Tuesday Evening, July 25.

There was further selling of the Porcupine stocks on the local mining market to-day, and prices in numerous instances got below yesterday's levels. The realizing movement was most pronounced on the morning board, heavy selling being in order from the very opening of business, and prices proving vulnerable with apparently little resistance.

There was nothing new in the situation which could be assigned as a reason for the further decline in prices, and the movement was set down as wholly due to the throwing away of stocks on a weak market.

Hollinger led in the decline, and during the morning session the shares got down as low as 10.75, a drop of some 65 points for the day. It was again reported that English interests were putting out stock, and considerable selling was engendered here on account of this rumor. At the close the shares were offered at 10.90, with the price bid 10.75.

The other Porcupines followed the lead of the issue above mentioned. Rea was off 12 points at 5.33 here, and in New York the shares sold as low as 5.25.

The cheaper Porcupines were generally lower. Preston East Dome opened two points down at 40, and lost another point before the liquidation was disposed of. Dome Extension got a point below yesterday's low, and Swastika was also easier around 52. Vipond was a firm spot, the shares being well taken between 55 and a point higher.

A sharp recovery in Nipissing was the feature of the Cobalts. Sellers in this issue had apparently overstepped themselves, and the price advanced in short order when shorts attempted to cover their commitments. The price got as high as 8.50 for a ten-share lot, and at the close bids were put in at 8.25. This represented an advance of about 70 points for the session.

The other Cobalts showed little vivacity, and were in the main unchanged. Wettlaufer and McKinley-Darragh were the weak spots, the latter dropping seven points at 1.55, when forced selling took place.

Traders were disposed to treat the further reaction to-day as a purely natural event, and no apprehension was felt at the continued selling movement.

RESUMING OPERATIONS AT THE ELDORADO

Camps Rebuilt and Shaft Work Will Be Continued—Vein is Widening.

The Eldorado Mining Co., which owns three claims in Whitney south and east of Porcupine Lake, and whose camp was wiped out during the recent conflagration, will be one of the first concerns to get back to active work again, according to despatches received yesterday at the offices of Messrs. A. J. Barr and Co.

A private wire from the superintendent in charge at the Eldorado reported that the camps were being rebuilt, and that shaft work would be started again by Monday next.

The main shaft on the Eldorado had reached a depth of about 20 feet up to the time of the fire. It was put down on a quartz vein which was about 18 inches wide on the surface, and which has since widened to 6 feet in the shaft. It is probable that the vein will be larger than this. It entirely fills the shaft and shows signs of further extending as depth is attained.

Extremely favorable assays have been made from the ore taken out in the shaft work, and the management is confident that a large body of good paying ore will be reached at depth. A second shaft is going down on what is thought to be a continuation of the main vein, and this will be pushed to the 100 foot level with all possible despatch.

Eldorado suffered very little in the recent fires, the total damage entailed being less than $500. The stock has been decidedly firm during the last few days, and shows no appreciable decline as a result of the wiping out of the camps.

Shaw Township Coming to the Front.

One of the most promising properties in the Porcupine district is owned by the Eleanore Mines Co., Limited, and is located in the southwest part of Shaw Township.

This property, consisting of three claims, is looked upon by old mining men and two prominent engineers, who have been over the property, as one of the best propositions in the four townships. The work done on the property has been principally of a prospecting nature, and has disclosed some very rich showings, and the surface assays, which have been taken from different parts of the property, have surpassed the expectations of all the interested parties.

The personnel of the company is composed of some of the most reputable business men of Toronto and with the showing as one that has so far been discovered there should be no difficulty in making this a winner.

There will be a small amount of this stock placed on the market at par, most of which has already been subscribed for.

New York Curb.

Chas. Head & Co. report the following prices on the New York curb:

CHRIST CLAIMS SOLD TO ENGLISH INTERESTS

Well-Known Properties in Tisdale Township Change Hands For $235,000.

One of the biggest deals in Porcupine claims ever put thru was consummated yesterday with the purchase of the two Christ claims in Tisdale Township. These properties are situated south of the Hollinger and just west of the Vipond, and are considered to be among the most promising in the mining camp, being right in the known mineralized belt.

The Christ claims were purchased by Baron G. von Polenz of Berlin, Germany, who is acting for English capital, and the consideration paid was $235,000. The deal was put thru by Mr. A. C. Goudie, the well-known Porcupine operator, who has been connected with the camp ever since its inception.

The acquirement of the Christ properties by English capitalists was commented on very favorably by Porcupine interests in the city yesterday. Considerable old country money has already gone into the northern mining camp and it is stated that the more English capital which can be attracted the better for everybody concerned.

Great Britain has acquired an enviable name as regards gold mining operations, and the big interest taken in the new gold camp is the best earnest that can be obtained of its importance as a world-wide mining field.

ENGINEER'S REPORT ON PIKE LAKE CLAIMS

Large Body of Ore Indicated—Contract Let For Core Drilling.

The Pike Lake Gold Mining Company, whose holdings consist of four claims in the Swastika district, within a mile of the T. and N. O. Railway, have had a detailed geological report made of their properties by Mr. F. W. Philips, a well-known mining engineer of the north country. The report is very favorable.

Mr. Philips states that the work of trenching and the natural outcropping of the big vein on the properties would indicate that it traverses the entire four claims, and that it has an average width of about 40 feet. A recent assay obtained from two 70-foot cross section samples of the ore from this vein ran up to $43.40 in gold to the ton, so its great value will be readily realized.

Development work to date has comprised a great deal of cross-cutting on the main vein. Thus four crosscuts have been made, each about 20 feet wide for 70 feet across the quartz outcropping, and each being from 2 to 6 feet in depth. This work, says Mr. Philips, has revealed native gold in places, while excellent values have been obtained at all points in the work.

A core-drill contract for 1000 feet of prospecting to depth has been let, and this work will start at an early date. It is expected that this will show a large body of ore.

Mr. Philips concludes his report as follows:

"In view of the great length and breadth of the vein extending across these four claims and the occurrence of native gold therein, it is reasonable to anticipate the production of a large tonnage of profitable milling ore. It is my candid opinion that, with the advance of development work and with the results of the diamond drill contract just let for 1000 feet of drilling, this property will rapidly pass from its present position of a promising prospect to one of great worth."

INSIDERS IN BIG NIP ARE NOT SELLING OUT

So Says Director Fasken—Brokerage House Threw Away Clients' Stock.

Regarding the break in Nipissing, Charles A. Stoneham & Co. send out the following notice:

Mr. David Fasken, a director of the company, has communicated by despatch to the office of Ellis P. Earle, in New York City, from Mine Manager Watson, that there has been absolutely no change in conditions at the Nipissing Mines property. In fact, the mine is steadily improving. The initial decline in price was brought about by a brokerage house having membership in the Toronto Stock Exchange and wire connections in New York, together with a Toronto and Montreal brokerage house, for no apparent reason than that they desired to get their clients out of Nipissing and into Porcupine prospects. The market, lacking support, responded readily to the sale of a few thousand shares coming from scattered interests. We are able to assert positively that none of the insiders of Nipissing have sold a share of stock and, in fact, there is already good absorption of it at the low level. This break has been wholly of a market character and absolutely unwarranted by property conditions, and we believe Nipissing at present prices is one of the choicest investment issues on the Cobalt list.

Hollinger in London.

Playfair, Martens & Co.'s London cable to-day quoted Hollinger at $11 to $11.50.

Miss Cresswell's Estate.

The will of Miss Charlotte Cresswell, spinster, of 30 St. Mary-street, Toronto, with bequests amounting in all to $22,503.02, has been filed for probate. The estate consists of $21,508.02 cash in the bank, and $1099 personal property.

HON. MR. BECK HERE SATURDAY.

Latest reports received by the hydro-electric officials state that Hon. Adam Beck will arrive in Montreal on Friday.

"I expect he will reach Toronto Saturday morning," said the secretary, Mr. Pope.

It was at first understood that Mr. Beck would not make a stopover anywhere, but would go straight home after landing.

"Now, I expect he will stop at Toronto," said Mr. Pope, "and he may remain in the city till Saturday evening."

Artificial Rubber.

M. Haller announced at yesterday's meeting of the Academy of Sciences that M. Richard had, by treating isoprene with essence of turpentine, succeeded in manufacturing artificial rubber. The learned professor went into full details of the operation. This rubber is, however, very costly to manufacture.—Le Temps.

BUY ELDORADO

Porcupine stocks in general have been suffering from a realizing movement during the last few days, and in numerous instances prices have recorded declines. Eldorado has been the prominent exception and we take this to mean that the public are apprised of the fact that this stock offers an exceptional opportunity at its present low price. Our reports indicate that development work will be resumed next week, and we believe the stock will record a sharp advance. Eldorado was a good purchase when first issued. It is decidedly a better buy now. Write or phone us your order.

NEW FIRE ALARM BOXES

City to Purchase One Hundred—Twenty for Ward Seven.

The board of control yesterday voted for the purchase of one hundred new fire alarm boxes for the city.

The Northern Electric and Manufacturing Company get the contract for eighty boxes at $110 each, while the Star Electric Company will supply twenty at $121.13 each.

The city has had no experience with the Star Electric boxes, which differ from those at present in use, in not requiring the use of a key and the opening of a door. The alarm is rung in by breaking the glass and pulling a lever.

"For or against the open door?" asked Mayor Geary, in submitting tenders to the board of control yesterday.

The open door won.

The Star Electric boxes will be installed in Ward Seven to replace those now in use there.

NEW PARK IN THE EAST END.

Ald. Phelan waited on the board of control yesterday and advocated the purchase for park purposes of 40 acres of wooded land at the east end of the city, between Gerrard-street and Kingston-road.

Park Commissioner Wilson reported in favor of the scheme, but the controllers expressed no opinion on the matter—they first want to get a figure on the property.

All and singular that certain parcel of land situate in the City of Toronto and known as lot number thirty-seven (37), corner Yonge and Gerrard-streets, on the plan or survey made by John Lynn, a Deputy Provincial Land Surveyor, for Peter McGill, having a frontage of fifty (50) feet on Yonge-street, by one hundred and ten (110) feet deep on Gerrard-street.

This is a very desirable property situate at the northeast corner of Yonge and Gerrard-streets. On the Yonge-street frontage are erected frame buildings now known as numbers 397, 397½, 399 and 399½ Yonge-street, and in the rear, fronting on Gerrard-street is a brick and frame building, now known as numbers 4, 6, 8 and 10 Gerrard-street East.

All tenders shall be sealed and shall be endorsed "Tenders for John Phipps Estate property."

Tenders will be opened by the Master-in-Ordinary at his Chambers at Osgoode Hall, at the City of Toronto, on Tuesday, the fifth day of September, 1911, at the hour of eleven o'clock in the forenoon.

All persons who have tendered and all other persons interested in the estate are at liberty to be then present.

The highest or any tender not necessarily accepted.

A certified cheque for ten per cent. of the purchase money, payable to the accountant of the Supreme Court of Judicature for Ontario, shall accompany each tender as a deposit, and the balance of the purchase money shall be paid within thirty days after acceptance of title without interest, into the court by the purchaser to the credit of this matter, or if desired by the purchaser the purchaser shall have the option of paying an amount, which, with the deposit, will be sufficient to make one-third of the purchase money within said thirty days; the balance to be secured by a mortgage repayable in half-yearly instalments of $2000 each, for four and a half years, and the balance at the end of five years, with interest at six per cent. payable half-yearly.

The purchaser is to search the title at his own expense and fifteen days from the date of acceptance of tender are allowed for such purpose, and the vendors will not be required or be bound to produce any abstract of title or any title deeds or proofs or evidence of title other than those in their own possession.

The frontage and depth are assumed to be as stated in the description, but in the event of the frontage being more or less than as stated above, a proportionate increase or deduction, as the case may be, will be made in the purchase price, to cover any variation in the frontage. No allowance will be made for any variation in the depth of the said parcel of land.

The purchaser is to take the property subject to the existing tenancies and all adjustments are to be made as of the date fixed for completion of the purchase.

In all other respects, in so far as they can be applicable, the terms and conditions of sale will be the standing conditions of sale of the court.

Further particulars and conditions of sale may be had from F. W. Harcourt, Esquire, K.C., Official Guardian, and from Messrs. Urquhart, Urquhart & Page of No. 12 Richmond-street East, Toronto, solicitors for the vendors.
