"I do."

"How did the negotiations open?"

"It originated in a letter from Mr. Pope early in October, 1902."

"The correspondence was produced and gone over by Mr. Shepley. The next letter was from Mr. Pope to Sir Thomas Shaughnessy, telling him that he, together with G. W. Fowler, M.P., and W. H. Bennett, M.P., had applied for the lands when the price was \$3.50, and had been told that the price was \$3.50, and had been told that the price was \$3.50. He asked for an interview on the matter. This interview was arranged.

After this interview witness said Messrs, Pope and Fowler came to Winnipeg and stayed some days. They enquired about the character of the different parts of the Saskatchewan Valley and named certain townships out of which they wanted to take 200,000 acres. Not Fixed.

1000 Pairs of Boots and Shoes for a Half-Day Sale

Men's, Women's, Boys', Girls' and Babies' Footwear of All Kinds to Be Thrown Upon the Mercy of Fractional Prices.

IRST of all we must impress you with this fact—the sale to-merrew will be something in the nature of a sensation. 1000 pairs of boots, Oxfords, Slippers for men, wemen and children of all ages will be positively cleared out inside three hours !

We say that because we are so confident of the power of attraction which insignificant prices generate. About one-half our retail price will be charged for a shipment of footwear larger than ever offered in a one-day sale at this store before.

Here is the explanation of this phenomenal occasion. score or more cases have turned up in our stock room which have been side-tracked for two years! That is the literal truth, and we take the courage of frankness when we tell you. They were stowed away when we changed our stock room from the fifth floor of the main building two years ago.

Through clerical error they were not identified on the stock sheets, and in the shuffle of much coming and going, changing and renewing, they have been overlooked all that time, It's a thing that mightn't happen again in fifty years.

What difference does two years make in the style of a pair of boots or slippers?

Figure out just how much you care about that difference, if any, and then look at these reductions!
