Wool Market. London, Jan. 30.—The first series of the 1907 wool auction sales closed to-day. The feature of the auctions was the active competition in which American buyers were competition in which American buyers were prominent, especially when cross-bred and merinos of good style were offered. Final quetations compared with those of the December sales were unchanged to 5 per cent. higher, with the exception of coarse, heavy cross-breds, which declined ½d. During the sales 77,000 bales were taken by home buyers, 60,000 for the continent, 13,000 for America, and 3000 were held over for the next series. To-day 5800 bales were ofered. They were eagerly absorbed at unchanged rates.

## COLEMAN TOWNSHIP RICH

Be Centre for Operations During the Spring-Edison Mines Are Valuable.

> It is reported on reliable authority that the Thomas A. Edison Mines on the Montreal River have about as big and rich bodies of silver ore in the bottom of their the Cobalt district.

The Edison people will not give out any reports, altho this has been rumored for about a week and the knowledge has be

higher than last night. Outside markets shawed more strength than we did, particularly the Northwest, where receipts and increasing cash premiums were the chief influence. Strong tone of the coarse grain markets was also a help. There is every indication of another decrease in the visible supply for this week as the movement is so supply for this week as the movement is anxious to further at country stations. There is more outside buying in the market and we be lieve wheat is shaping for a big buil market and it should be beight on all reactions.

Corn and Oats—The market ruled strong all day and closed at an advance of a half current over last night. In spite of the very favorable weather, receipts are not increasing as expected. The cash market showed a strong tone, being ½c to ½c high-showed a strong tone of the scale in the social transport of the stallons that will be used in the scale in the social transport of the stallons that will be used in the scale in the social transport of the stallons that will be used in the scale in the sca
