NO DEFENCE TO OFFER.

### Celebrated Grain Case in West is Concluded.

WINNIPEG, Man., May 13.—(Special.)—At the conclusion of the celebrated grain case to-day the attorneys for the defence declined to offer any defence. The judge thought there was not only a case against the three men, but a test of the way in which business had been carried on. That was why he allowed such a wide scope. The judge held that if these men closed the market between 9.30 a.m. and 1.15 p.m. for their own ends then they were punishable, but if they found it was best to keep it closed between these hours owing to conditions over which they had no control, then the offence would not be punishable. If they were acting without lawful cause and there was a restraint of trade then they would come under the code.

The judge thought the evidence showed the rules were for the purpose of sheltering off all undue expenses so that the producer could receive as high a price as possible. He could not disbelieve all the witnesses called for the crown. But section 2 of the code was a very fair margin and the highest price possible was paid. He believed that the track loading was a benefit to the farmers that they would never fully appreciate.

Judge Phippen said he considered the commission bylaw was in restraint of trade, but section 2 of the code contained the word "unduly," and it was to say whether this restraint was unduly or not, if they agreed and complied to further their business, and if that was the object of their agreement, as long as in doing it a person did not unduly restrain trade. He understood that if himself and someone else were in business at a certain point and it was found that it was expensive to get along that way, and a union was met for the furtherance of their business, that would be not in restraint of trade.

### BISHOP KINGDON ILL

Fears Are Entertained as to His Lordship's Recovery.

FREDERICTON, N.B., May 13.—(Special.)—Bishop Kingdon suffered a recurrence last night of the illness which almost caused his death a year ago. His lordship was in a precarious condition as a result of a severe attack of acute heart failure, and for weeks his physicians felt he was hovering between life and death. He rallied and gradually recovered, although he has since been unable to pursue active work. For several hours last night he was unconscious. To-night the bishop will be lying in bed, but there is little hope of his recovery.

### MAD DOG ATTACKS DOCTOR.

MONTREAL, May 13.—(Special.)—Dr. D. A. Shiras was to-day attacked by a mad bulldog, which inflicted terrible injuries to his leg and feet. The animal first attacked Dr. Shiras' horse and the doctor went to the rescue. The dog turned on him. Dr. Shiras was powerless to defend himself. His cries brought assistance from some men, who drove off the brute, which was later killed.

Do You Want Your Walls Cleaned? If you have it, your house cleaned, done yet, send for E. F. Farrow, 22 St. Lawrence Avenue, and he will clean your walls, ceilings, pictures, etc., at such a low price that it will not cost you to do it yourself.

## THE WEATHER

Meteorological Office, Toronto, May 13.—(9 p.m.)—The weather has turned warm to-day in the lower lake region and east as far as Montreal. It has also been warmer in Alberta; elsewhere cool conditions have still obtained. A few showers have occurred in the St. Lawrence Valley, and local thunderstorms in the Upper Lake region. ## \$50,000 FIRE AT FINCH.

Two Churches, Store and Other Buildings Destroyed.

OTTAWA, May 13.—A threatening fire broke out at the Village of Finch, the junction of the C.P.R. and the York and Ottawa line, an important dairy centre, this afternoon.

At 6 o'clock a small rubbish pile, burning, set fire to some coal oil casks and then to the general store of A. F. Day in the McNaughton block. This whole building was burned. With it went the library of the Merchants' Bank, which saved the books and bills alone; the armory and full equipment of a new issue of rifles and uniforms of No. 4 Company of the 59th Regiment; the paraphernalia of the Orange Lodge, and a branch of the Independent Order of Odd Fellows, and the public library and 800 books.

A blacksmith's shop of A. F. Dingwall also was burned, as well as the old Presbyterian Church and the Methodist Church. Out of the latter the organ had been saved. Then the work of the bucket and pump brigade began to tell and at 5 o'clock the chief danger was over.

At night a big wind sprang up and sparks were flying over the village again, but the whole neighborhood has turned out. The loss will exceed \$50,000.

## TELEPHONE ENQUIRY

Continued From Page 1.

Mr. Sise: "I don't see it in that light. If we had not done this, we should have had to increase our capital, and so reduce our dividends. It was to the benefit of the shareholders to get the money in the plant as we did. It is really a reserve fund that can be used for any purpose."

Mr. Shepley: "Then you have accumulated nearly \$3,000,000 in this fund, of which \$850,000 has been taken out of the pockets of your shareholders—or, at any rate, retained? The rest was premiums on bonds and stocks, and did not these premiums come because of the large earning power of your company?"

Mr. Sise: "If we had distributed that money amongst our shareholders we could not have paid the dividends we did."

Mr. Shepley: "Why not have regular days for collecting the rentals all over the country?"

Mr. Sise: "The public would not consent to a charge."

Mr. Shepley: "Oh, they would have to take your telephones on your own terms?"

OLD CUSTOMS, OLD SYSTEMS, MUST GIVE WAY TO NEW.

The man who conducts his business on the methods that were in vogue twenty years ago is bound to fail. The physician who prescribes according to the formulas and teachings of the old school is bound to fail. The doctor who prescribes salicylic acid, colchicum, or who fills the system with opium to relieve pain, ought to have his license taken from him. Salicylic acid is a splendid article, but a few years ago ought to go into partnership with the undertaker. No one is capable of doing more good than an up-to-date doctor who prescribes salicylic acid, colchicum, or who fills the system with opium to relieve pain, ought to have his license taken from him.
