T. EATON CO.
190 YONGE STREET, TORONTO, ONTARIO.

WHAT DO YOU THINK OF IT?

Read!
Tell us what you think of it!
Saginaw, Mich., Feb. 14.—The Georgian Bay district will supply Michigan with three hundred and twenty-eight million feet of logs this spring!

Workmen of Toronto, read, for this means work for 5000 men in Michigan.

The Hardy Government not only rob you out of your timber, but take work out of your hands.

Can you support these people who rob you?

While hundreds of workmen in this town are out of work, the Reform Party fee thousands in Michigan.

If robbery is justice, then The Globe is correct. It is not time for a change.

Farmers of Ontario, read!

This large army our Government keep employed in Michigan sawmills. What is there in it for you?

Everybody read!

For this question affects everybody.

We are allowing \$120,000 dollars a month to be earned and spent in Michigan, all next summer, cutting Canadian logs.

Is it not time for a change?

Ask Caldwell, ask Dewar, ask Spence, ask Rogers, if this is true.

For they are all honorable men!

Ask these gentlemen if half the Cana-

SIR CHARLES AND THE YUKON DEAL.

Sir Charles Tupper was more than in line with public opinion and the opinion of his party in the admirable and vigorous criticism which he passed in the House last night on the Government's Yukon Railway proposition. Sir Charles, in substance, withdrew the approval of the project which he passed when it first came out, and then proceeded to expose all the weaknesses and mis-policy which characterized the contract. The incompetence of the Minister of Railways, as exhibited in his own speeches on the bill, was denounced by Sir Charles. The monopoly terms, the enormous and extravagant concessions made to the contractors, the unfair treatment to be given the miners as against the contractors, the violation of all the former professions of the Liberals that public works should go by public tender, all these were put in pointed fashion, and gave the supporters of the Government a disagreeable sensation. Sir Charles Tupper's criticism alone, not to count on the others that are to follow, justify Parliament in defeating the bill.

'TIS TIME FOR A CHANGE.

For over 25 years no Conservative has been appointed by the Mount-Edwards Club of St. It seems a long time, too, when we reflect that this particular quarter of a century has produced good honest Conservatives who were thought worthy of occupying Government House and of administering on the Bench the laws that Ontario made. Yes, it has been a long cold snap and we are all anxious for warmer weather.

If there is anything in party government, and we think there is, it is to be without saying that turn about is fair play, if for no other reason than to give the other a lesson in governing, so that they may be expert critics of their opponents when the next change comes. Nothing but the indifference of the Conservatives, born largely in their absorption of the larger share of the Dominion, has let the Liberal Party remain in power for such an abnormal and unhealthy period. With that pleasant occupation gone, let us turn our attention to the smaller but, at present, very important concerns of Ontario.

Sir Oliver Mowat succeeded the fighting line composed of Blake and Mackenzie. His weapons were a bland smile and a steady eye. He is an extraordinary power of creating and filling offices, small and great, with his henchmen. He has simply filled the province with an army of feed or salaried officials, not necessarily part of the government of the country, but all pawns on his chessboard. This solid substratum of bought and paid for support he has erected a structure, the financial part of which would be ludicrous were it not so stuporously and so harmful.

Let us see what the Provincial Government really means. It receives a large income from the Dominion subsidy, large enough for its ordinary wants. Its finance is therefore as simple as that of a man on a stated salary. The Provincial Treasurer is not needed, except to explain or before the despatch with a chamber and timber limits and to convince his followers that Crown lands may be denuded of timber and left bare and worthless, while the timber dues are income and may be safely spent. It needs a great financial head to show the country that a farmer would be a man of great sense if he sold his timber and spent the proceeds as part of his income, and that timber is just like wheat, because it grows again. The timber may grow again, and if the Liberal party stay in 300 years they may prove their theory to their own satisfaction. Yet this is their financial defence year by year, and the country lets them stay in and juggle the figures as they like.

DOYLE SHOT CONNORS DEAD.

An Unprovoked Murder at Kuskokwim in the Mining District of British Columbia.

Nelson, B. C., Feb. 15.—(Special).—The steamer Nelson, brought in the body of Dennis Connors, murdered Sunday night at Kuskokwim. Connors was sitting in Erickson's Hotel, when a man named Doyle, known in Rossland as J. Sullivan, came in, walked up to Connors, and said: "Dig up, or I'll shoot you." Connors smiled and said: "Fire away." Doyle immediately fired, the bullet entering Connors' left breast without a groan. Constable Forbes, acting in the absence of Constable Jarvis on special duty at Nelson, arrived on the scene five minutes later, but the murderer had fled. Search was made, but no trace of the murderer could be found. The body was placed aboard the steamer and brought to Nelson, accompanied by Forbes and Byron, who Erickson, Tom Smith, a chum of Doyle, and Kyle, who was in the bar at the time of the shooting, as witnesses for the inquest to be held Tuesday at 10 o'clock. Connors was a miner and worked last summer in the California mine at Nelson. Doyle came here from Rossland a short time ago. Both were Americans.

Provincial Fat Stock Show.

The Provincial Winter Fat Stock Show will take place at Brantford on Dec. 6, 7 and 8 next.

of course, his dairy and milk inspectors, all over the land. The Provincial Secretary has his asylums, jails, the Central Prison and its beef-making and boot-making attachments, and his army of doctors, inspectors, purchasing agents and officers. The Attorney-General has his Crown Counsel, Crown Attorneys, Clerks of the Peace, Sheriffs, Registrars, County Court Clerks, Division Court Bailiffs and Detectives, all you cannot see land beneath them. And then the Licensing Branch, with its inspectors, the game wardens and their deputies, leave no room in the waters beneath or the air we breathe.

And it is this cloud of witnesses that has been silently working, managing and influencing public opinion for 25 years. A great Grit army like the sands of the sea for multitude, doing its work for the party. And not a Conservative in it! They are not wanted, because they don't help along the party. No one who hasn't actually encountered it can estimate the tremendous mass of overcasters which has to be overcome to turn the (1-4) Government out. The first effect of the contemptuous disregard of public morality indulged in by the Laurier Government is to open the eyes of the electorate to the results of this bought and paid for Liberalism when it gets a hand in a big game.

To sum it all up. It is easy to receive a large subsidy, to turn the timber lands into money, to receive in fees and indirect taxes much income, and to spend it in paying off the debt. That is the short history of the Mowat regime. The money all goes in that way, doing good, of course, in some ways, but paying the premiums at the same time to keep the Grit policy up. Let the Conservatives have a chance to do better if they can. If not, let them have a turn at the same wheel.

THE AUDITORS TO BLAME.

The disastrous collapse of the Farmers' Loan and Savings Company can be traced directly to the auditors, who are charged by the liquidator, Mr. Langmuir, as being guilty of gross neglect of the duties and responsibilities resting upon them. The auditors were apparently working under the instructions of the directors and manager instead of in the interests of the shareholders. Practically the only safeguard that shareholders have against conspiracy on the part of the directors and the management of any concern is the appointment of independent and reliable auditors. The remuneration of these latter should not come through the manager or any officer of a company. The shareholders should insist on appointing the auditors themselves, and, furthermore, they should pay them liberally, and the payment should be made directly by the shareholders. The appointment of auditors is the one duty that the shareholders cannot easily delay, and their executive officers, although it is the latter in nine cases out of ten who nominate these officials and pay them. A man generally follows the instructions of his paymaster. The fact that the auditors of the Farmers' Loan and Savings Company were nominated and paid by the directors and manager forms a satisfactory explanation of the company's collapse.

LET THE CITY RETAIN THE FRANCHISE.

Before the Property Committee decides to make any change in the management of the Cattle Market it ought to consider the question in all its bearings. In Montreal, we understand, the Cattle Market is conducted by a private corporation, and this fact is given as the reason why the business at that centre has not progressed in the same ratio as it has in Toronto. The fees in Montreal are as follows: Weighing, ten cents per head; market fees, twenty cents per head; hay, \$1.25 per hundred. Here in Toronto the charges are: Weighing, three cents; market fees, ten cents, and hay \$1 per hundred. It is said that the favorable rates have been a great deal to do with making Toronto the principal centre of the cattle industry in Canada instead of Montreal.

Free Trial To Any Honest Man.

The Foremost Medical Company in the World in the Cure of Weak Men Makes this Offer.

HEALTH AND ENERGY ASSURED. HAPPY MARRIAGE, GOOD TEMPER, LONG LIFE.

In all the world to-day—in all the history of the world—no doctor nor institution has treated and relieved so many men as has the famous ERIC MEDICAL COMPANY of Buffalo, N.Y.

ten cents per head; market fees, twenty cents per head; hay, \$1.25 per hundred. Here in Toronto the charges are: Weighing, three cents; market fees, ten cents, and hay \$1 per hundred. It is said that the favorable rates have been a great deal to do with making Toronto the principal centre of the cattle industry in Canada instead of Montreal.

Ten years ago the income derived from the sale of the fees and privileges of storing and selling hay amounted to about seven thousand dollars. The rate of increase were to prevail during the next ten years the revenue in that time would amount to ninety thousand dollars a year, and there is no reason why it should not grow in the future as it has in the past. As far as the live stock and dead meat trade is concerned, the best judges are of the opinion that the industry is in its infancy, and that with the erection of new factories that are now in contemplation the business will develop very rapidly. The progress that is now being made is quite satisfactory. Choice of Canada's Cultured Citizens.

It is very gratifying to the old and well-known firm of Holmstrom & Co. that while there was a time when musical critics and people of culture were disposed to select a piano of foreign manufacture, this is not the case to-day. The new scale grand piano of this firm measures up completely to the highest expectations of art and culture, and it is to be found in the homes of leading citizens in all parts of the Dominion. Spending a few minutes in the warehouse at 117 King-street west, the other day, we were witness to a magnificent grand piano that was then being made ready for shipment to another section of the Dominion—a piano that could easily stand on a level with the instruments of any manufacture the world over. There is reason in the commendation of Madame Albani, who said of these instruments: "They excel any piano I have ever used."

Another Drowned Baby.

Mrs. Morrison, 268 Parry-avenue, found a female infant wrapped in rags lying on her doorstep. Policeman Young took the babe to the Infants' Home.

FARMERS' LOAN

Mr. Langmuir Tells of the management, Deception and

Disbanded Practices—Falsehood—Failure Inevitable—Creditors Lose \$300,000—holders \$1,000,000 Now Stand—Committee Appointed—Directors' Position—Absentee Officials?

A meeting of the shareholders of the Farmers' Loan and Savings was held yesterday afternoon at the Federation Life Building, an advisory committee to assist the directors in the winding up of the company's affairs. Several hundred were present, and Langmuir, manager of the central Trusts Company, presided.

Mr. Langmuir, presented which showed that after amounting to \$445,980 has there would not be sufficient to satisfy the creditors, who were in a state of great alarm.

The meeting was very unanimous, but a strong demand to compel the directors to resign, in part at least, the shareholders.

Management and Disbanded Practices—Falsehood—Failure Inevitable—Creditors Lose \$300,000—holders \$1,000,000 Now Stand—Committee Appointed—Directors' Position—Absentee Officials?

With all these grave defects, irregularities in the conduct of the business, and the fact that the company was in a state of great alarm, the meeting was very unanimous, but a strong demand to compel the directors to resign, in part at least, the shareholders.
