FUNERAL OF DR. MCGLYNN.

Large Attendance of Clergy, Both Catholic and Protestant, at the Impressive Service.

Newburgh, N.Y., Jan. 10.—The funeral of Dr. Edward McGlynn was held to-day in St. Mary's Church, which was crowded to the doors, and many could not obtain admission. The services were exceedingly impressive, and were presided over by most Rev. Archbishop Corrigan, head of the Diocese of New York. About one hundred priests of the diocese were present. Occupying seats in the church were all the Protestant clergymen of the city, who had been specially invited to attend the services. The city officials were also present by invitation. The musical part of the service was elaborate.

After the sermon the service was concluded by singing and the pronouncing of absolution by the archbishop.

After the service the remains were viewed by the people, and were then taken to the West Shore Station, where the coffin was put aboard the train.

BOODLE AND BOODLERS.

The revelations of corruption, bribery, ballot-box stuffing, ballot-stealing, etc., in connection with the holding of elections in this country ought to turn the stomach of every decent Canadian. Where does the money come from? Not from the pockets of the candidates themselves, not from the ministers. Our belief is that it comes from the subsidies voted to railways, a large portion of it at all events. And this boodle money, at times finds its way into the campaign funds of both political parties.

The new way of booting is to buy up the dominant party which originates the grants and carries them through Parliament or the Legislature with a large sum of money, and to hush up the Opposition with a small contribution!

Every man connected with these disgraceful things, whether Liberal or Conservative, must, when exposed, go into retirement. It was a high crime for Mr. McNish to run again in Elgin, and on his own confession Mr. William Smith must be put down as an impossibility. This is the reason why is one way of stopping the business. But what about the men who supply the hundreds of thousands for these corrupt funds and the politicians who make the deals? Can't these men be made to answer and get out of public life? And men in the public service like Preston and Thompson ought to be hustled out of it the moment they are exposed.

If every man was discredited as fast as he was proven guilty of bribery the business would become too risky to follow. No mercy to the corruptors would soon change the situation.

THE MAYOR TACKLES THE GAS CASE.

The disclosures made before the Board of Control yesterday fully justify Mayor Macdonald in retaining independent counsel to advise him in the city's case against the Consumers' Gas Company. The recent administration appears to have stood in the way of the gas company. This is the reason why a new case was not entered against the company in conformity with the finding of the Judicial Committee of the Privy Council. This is the reason why no action was made of the Gas Company's affairs in the city. And it also accounts for the negligence of the late administration in regard to the audit for 1899. It was only recently that an auditor was appointed for that year, and it was only through the intervention of the Board of Control that an appointment of an auditor was made at all. Under these circumstances we are not surprised that the Mayor has expressed his lack of confidence in the city's own legal staff by retaining independent counsel. It looks as if the Mayor had made a start in earnest against the Consumers' Gas Company. We trust he will fight it out on the same lines, even if it takes all summer.

WHEAT AT 58 DGS. NORTH LATH.

Mr. Ogilvie, the great Canadian miller, has just received a sample of wheat grown at Fort Vermilion, on the Peace River, Territory of Athabasca. Fort Vermilion is in latitude N. 58, longitude W. 116—one thousand miles north of Calgary, and 3184 miles west of Montreal. The wheat is hard and plump, and a very fair milling sample.

Why this wonderful activity on the part of the Department of Education, and why these sweeping changes? Are old friends being rewarded and old enemies placated by the appointments? Are friendly publishers now reaping the rich harvest of anti-bye-elections?

Has Mr. Ross paved his way to the Premiership with promises now in course of rapid fulfillment, for which the people must pay, or what is still more probable, is this the new policy of the new Minister of Education, Mr. Harcourt?

Premier Ross has stated that he has a plan to pay, or what is still more probable, is this the new policy of the new Minister of Education, Mr. Harcourt?

He has visited a specialist in Toronto, but was told his case was a hopeless one. He quit the doctors, went to taking South American Kidney Cure, and today he is the best of health and has been for twelve months.

league with the Metropolitan Railway and

that by the silence are helping that com-

pany to win its case at Ottawa, and there-

by obtain jurisdiction over Yonge-street as

against the city. As for Mayor Macdonald,

we do not know what he has done in the

way of advising counsel. There is no evi-

dence, however, that he has not consulted

with the legal gentlemen who went to Ot-

tawa to represent the city's side of the

controversy. The deputations left Toronto

on the night of the first day of the new

Mayor's accession to office. It would be

hardly fair to condemn him for not taking

this matter in hand on such short notice.

But, as we have said, there is no evidence

that he did not consult with Mr. Drayton

and the city's special counsel. Even if he

did not specially advise the counsel who

represented the city, the latter, one of

whom was Mr. Drayton of the City Soli-

citor's Department, fully understand the

city's position. The case has been argued

inside out during the past few weeks. If

the city's counsel did not get a grasp of

the case themselves no amount of advice

from the Mayor could have helped them.

Should the city lose its case it will not be

because of Mayor Macdonald's failure to

coach Mr. Drayton and Mr. Osler.

If it is any negligence at all we think

it will be found to attach to the Ontario

Government, which was not represented

by counsel at the hearing of this case in

Ottawa on Tuesday. Premier Ross recent-

ly made a brave defence of the rights of

the municipalities, and he gave the public

to understand that he intended to main-

tain the sovereignty of the municipalities

over their highways at all hazards. His

failure to have a representative before the

Privy Council, when this principle was at

issue, does not tally with his former atti-

tude on the question. Has the Premier

gone back on his principles and does he in-

tend to let the Railway Committee usurp

a power which is vested absolutely in the

city of Toronto? It looks very much like it.

It is for the charge that the World is

silent on the case, it is hardly necessary

to us to notice this. We have done all we

can to maintain the principle that the city

has an absolute jurisdiction over the streets

within its limits. That is the kernel of the

controversy, and if we have not already

made this point clear, we confess that we

will be unable to do so in the future. The

Liberal party are in power at Ottawa and

Toronto. It is they who are responsible for

the settlement of this question. The On-

tario Government is vitally interested in

defending the rights of the municipalities,

or at least it ought to be. The Dominion

Government, through its Railway Commit-

tee, has the sanction of the principle in its

own keeping. If the city is despoiled of

its ownership in Yonge-street it will not be

the World or Mayor Macdonald who will

be held responsible, but the Liberals, as

represented by the Governments at Ottawa

and Toronto.
