February Furniture Sale Ends Saturday

This is the short month, so we will be forgiven if we borrow a day from March, just to have the last family day at this sale, when husband and wife can meet and pleasantly devote the day to the furniture sale. The getting of good, low-priced furniture is about as difficult as anything home-makers undertake., There is more cheap furniture made than any other kind, and some cheap furniture is very cheap, indeed. We inspect the furniture of many factories, but our choice is made from very few. We think the best. It is certainly more substantial and dependable than

any we have seen. Newly-married couples-all who are interested in good home and economy-will find in the February sale the best at prices as low as quality will permit. Two days only. Sale closes Saturday at 6 o'clock.
