"Free or Powerless."

Whenever things look unexpectedly gloomy for Germany we hear proposals of peace from some quarter. The gloomier things look for Germany the more urgent are the proposals and the higher the moral indignation of those who resent their rejection. Germany made war, but it is not her prerogative to make peace. That privilege is in the hands of the allies, of whom China is the latest, and China may be of some importance when the peace delegates gather in

It is true the military authorities are preparing for much more war, and this is wise and prudent. The Washington Government is making preparations for three years more. But men like Mr. Charles Barron, an eminent financial authority, and not biased by military prepossessions, endorse the prodic tions of a British authority that this year will end the war, with victory, of wreck today on the railroad between course, for the allies. He bases his views on the economic conditions in sermany. The Germans can fight on, ut the longer they fight the heavier vill be their losses They have been carrying long stock on a falling market, and common sense says they should close out the deal and take their loss before it is worse. There is nothing they can gain or get from the allies by fighting. It is not unnatural, perhaps, for some to suppose that Austria, which is very close to the Vatican, has inspired the peace proposals now made. However this may be. Austria would not act in such a matter without the knowledge and consent of Prussia. If it be possible that the Vatican represents the wishes of Austria, and the view has much to commend it, then it will be generally felt that the head of the great Christian body, representing a third part of Christendom, has hardly done justice to the spirit and ideals of Christianity in taking any step that would help to bring about the rehabilitation of the inhuman author and exponent of the policy of frightfulness. The Political Situation

Ottawa, Aug. 14. — The political situation is not likely to clear until parliament is prorogued; and the indications tonight are that the C. N. R. debate will hold along for most of this week. That being the case Sir Robert Borden will make no announcement as to the reconstruction of the government until the session is over. That may be two weeks off. But in the meantime negotiations are going on as to the formation of a new cabinet to include conscriptionist. going on as to the formation of a new cabinet to include conscriptionist Liberals and representative graingrowers. Sir Wilfrid Laurier is busy carrying on his organization both for the balance of the session and for an election campaign. He has a lot of his friends here to see him, some from the west. The Winnipeg convention has brought to him a lot of difficulties to be smoothed out if possible.

but another section of the party states that there is not, as far as it is concerned, any reorganization of the Liberal forces or Reform Associ-

ation under consideration.

A number of prominent Liberals had a conference with the Liberal had a conference with the Liberal chief in Ottawa recently, and invited him to Toronto for the purpose of meeting a number of citizens outside meeting a number of citizens outside the organization who were anxious to know his position. Sir Wilfrid agreed and it is stated that he will come to Toronto Saturday. He, however, wished to make it known that he would not take part in any reorganization, but that he would give a definite statement to those who had refrained from any reactionary move-

CAUCUS AT WINNIPEG.

Winnipeg, Aug. 14.-A caucus of the Liberal members of the Manitoba legislature to discuss the vital ques-tions of war policy and the impending federal election has been called. The caucus will be held this week, it is said, probably Thursday even-ing. The results of the recent convention are not satisfactory to of the members, it is stated.

This decision means that the Can-adian Northern Railway bill will be opposed most strenuously. Hon. A. G. MacKay of Laurier's Toronto Visit.

From present indications in Toronto there appears to be a difference among Liberals regarding policy and organization in the city. Yesterday afternoon W. H. Adams, secretary of the Ontario Reform Association, statistical Liberals and the Contario Reform Association, statistical Liberals are still in Ottawa, and have been in frequent conference with Sir Wilfrid Laurier and other Liberal leaders. They are actively preparing for the campaign. It is said that an effort was made by them to secure from Sir Wilfrid something stronger on the question of conscience with Sir Wilfrid Something at the Contarion of and Hon. J. A. Calder of Saskatch-ewan, are still in Ottawa, and have the Ontario Reform Association, stated that a meeting of the local Liberals would be called at the week-end to reorganize the central Liberal body, formerly the Toronto Reform Association. The object in view, he said, was to reorganize the entire city and to consider the selection of candidates to contest the federal ridings, but another section of the parts.

Kaleidoscopic Changes.

An Ottawa special to The Toronto Telegram says in part: With Hon. "Jim" Calder of Saskatchewan and Hon. A. G. Mackay of Alberta, occupying large space on the Ottaws political horizon, a section of the Conservative party still manceuvring for union government, and the anti-

pontical horizon, a section of the Conservative party still manoeuvring for union government, and the anticonscription Grits preparing to fight parliament into a nameless grave, the situation here continues to underso kaleidoscopic changes that make it dangerous to predict what will happen an hour hence.

Messrs, Calder and MacKay spent yesterday with Sir Wilfrid Laurier, and Hon. Geo. P. Graham is said to have added his jocular counsel to the evening session. There are varying reports as to what the western pair are after. Their profession of conscription principles leads some people to believe that they are trying to secure from Sir Wilfrid Laurier a piedge that if a last voluntary appeal fails he will agree to some modified form of compulsory service. Wiser folks who realize the political trickiness of all concerned say that the meeting is giving its entire attention to the preparation of an announcement by Sir Wilfrid that will please Quebec without offending the west. The latter guess bears all the earmarks of truth.
