

laboring under and other peculiarities. He must also see that the prescriptions of the attending physicians and surgeons are carefully prepared, and if necessary, must attend personally to the compounding of medicines.

The house-surgeon and his assistants are not allowed to take charge of patients outside the Hospital, nor even in the private wards of the Hospital; all their time and care must be devoted to the poor patients of the institution.

Those desirous of becoming candidates for the positions of House Surgeons must address a written request to that effect to the Superintendent or to the Secretary of the Medical Board; an application blank will then be furnished the applicant.

* * *

No medical student is allowed to attend the hospital unless he has previously taken his admission ticket.

Under no pretence whatever are medical students allowed to go into the wards in the absence of or without special permission from the attending physician.

During the daily visit, the medical students must follow the professor, as it were, *step by step*; that is to say, they must not examine or talk to any other patient than the one who is, at that moment, the subject of the clinical lecture.

Unless they are especially authorized to do so by the *chef de clinique*, students are forbidden to enter into conversation with patients.

The following positions are open to the students as non-resident assistants in each department: 1° Two in Surgery; 2° Two in Medecine; 3° One in Gynecology; 4° Two in Minor Surgery; 5° Two in the Eye and Ear department; 6° Two in the Histological, Pathological & Chemical laboratories; 7° One in the Electrical department; 8° One in the General Dispensary; 9° One in the Children's Dispensary. Those positions, so important practically, may be obtained by writing to the Chief House-Surgeon who will submit the applicant's name to the approval of the professor in each department. Each clerkship gives two month's service and a certificate of attendance is delivered at the end of the term.

The ambulance calls number 344 this year.

The call is made by telephone, directly to the Hospital, and in less than two minutes the vehicle, accompanied by a house-surgeon, is on its way to the scene of the accident.
