Mr. Brock maintains that his company gives no rebates, although bonuses are paid agents to induce the best work in the off seasons. The company has no anthorized investments, the funds being placed almost entirely on first more constant. Bonuses.

As a natural result of the scarcity of fruit the market is high. This is especially true of oranges and lemons which are further skyward this year, by about ten per cent—at a rough estimate—than they were this time last season. California are just beginning to come in and command \$4 a box. This figure will probably hold firm until next week, when it is expected to be somewhat easier. California peaches and plums are fully twenty per cent. higher than last year, while new Amjudge McTavish took his ceat as chairman, with afthe other commissioners, J. W. Langmuir and A. L. Kent.

W. N. Thley examined the witnesses, and the counsel present representing the provinces were: G. R. Geary, for Ontario; C. Lebbeuf, K. C., for Quebec, and N. Patterson. Deputy Attorneg General for Munitoba.

LIVING WITH HIS CALVES

There were also present George Edwards, accountant of the commission, and A. E. Ham, inspecter of insurance for Manitoba. J. H. Brock, managing director, was the first witness.

His examination occupied almost the entire time of the commission up tall six o'clock.

Mr. Brock explained details of organization of the company and the difficulties currounding its early years. He is now receiving a salary of \$12,000, and this year he also received a bonus of \$1,000. However, no payments were made to directors during the first seven years of the company's existence.

the worked on a low salary while building up the business.

Mr. Tilley asked if the \$12,000 salary could not be considered a pretty fair compensation for the low salary of other years. Mr. Brock explained that he would have been \$75,000 better off today if he had stayed with the Barrouthers & Brock business.

Special interest is attached to the state visit of the lord mayor, sheriffs, and members of the city corporation to Christ Hospital, Horsham, England, on June 16, from the fact that the lord mayor was educated at the school, and for fifteen years has acted as treasurer of the foundation. During the afternoon a glove was handed

thorized investments, the funds being placed almost entirely on first mortgages on improved property and yield an average of 7 1-2 per cent.

The company put in a table showing that the original premiums had been reduced to less than the rate in the dominion government schedule.
