McKNIGHT IS OUT OF CONTEST

Edwin T. McKnight of Medford, Mass., formerly of Kings county, N. B., now president of the state senate, who has been a candidate for delegate from the eighth congressional district to the Republican national convention, has withdrawn from the contest and left the field open to Lewis Parkhurst of Winchester and Philip R. Ammidon of Cambridge. The time has long since expired for official withdrawal, and Mr. McKnight's

name, therefore, will be on the ballot at the primary, but his announcement that he is no longer a candidate practically takes him out of the field. Mr. McKnight states in the last paragraph of the letter which he sent to Messrs. Parkhurst and Ammidon announcing his withdrawal: "I have been pledged to our illustrious governor for president, and I sincerely trust that present-day conditions in our nation may emphasize to you why you should support and work for the nomination of Calvin Coolidge, our beloved

governor, the great expounder of law and order." It was only a few weeks ago that Mr. McKnight sent out word of his retirement from politics, but at that time he said he should remain a candidate for delegate to the national convention. He now states that his business affairs have so developed that he cannot go to the convention. The understanding of the political leaders is that Messrs. Parkhurst and Ammidon will vote for Governor Coolidge in their first ballots in the national

convention, but that if it appears that Governor Coolidge has not great strength they will then turn to General Wood. Neither of the two candidates for delegate is, however, pledged to any candidate for the presidency. **GIVES \$25 A WEEK TO GET PHONE NUMBER IN HURRY.** Jersey City, N. J., April 20.—A Jersey City business man is frank and admits that he's doing something which is entirely original in so far as the giving

ing of tips is concerned, for he is paying a central office 'phone girl a weekly stipend to see that he gets a certain number on the jump. He admits he sends this girl a check for \$25 every week and that he considers the money well spent. He uses the telephone but once or twice a day. He was surprised one day when he got his number in record time. He says the operator who connected him was so pleasant and efficient that he went to much trouble to learn her name.

CIRCLE WORLD IN 4 DAYS. **FRENCH FLIER'S PREDICTION** Paris, April 20.—Andrew Michélin predicts that within the next few years it will be possible to circle the world in four days. He is the newly-elected president of the Aero Club of France. "We are only in the infancy of aviation," said he. "In a few years 200 miles an hour will be the normal rate of travel. Any aviator of average ability will be able to travel 8,000 or 7,000 miles without a stop. New York will be twelve hours from Paris. A

Frenchman may set out in the morning, lunch at Naples, sleep the sat night at Cairo, and can go around the world in four days." **To Remit Veterans' Fees.** Toronto, April 20.—Hon. Mann Doherty, Ontario minister of agriculture, has announced that the government has decided on the remission of all fees returned soldiers taking courses at the Ontario Agricultural College. About 125 veterans will benefit by this act of the government.
