Paris Report That No Heavy WAR TIME BREAD **Indemnities Will Be Exacted**

Rev. Dr. Hillis, in Ontario Speech Says 15th Point Should be Added to Wilson's List or Germany Will Have Advantage in Peace

London, Jan. 30-The peace conference has settled one important point with regard to the indemnity question, so the Paris correspondent of the Evening Standard says he has reasons for reporting. The conference, he declares, has minated any intention of calling upon Germany and her associates to pay the lied countries the cost of the war, or to impose heavy indemnities upon the

"But the minds of the conference," the correspondent adds, "are fixed that there shall be full and ample reparation for unjustifiable damage done. A very mate warfare and damage which was wanton.'

The corerspondent says that Serbia and Belgium have formulated claims for reparation in detail. Serbia's bill is the largest, but as Belgium suffered

in 1871 has been abandoned, says the Evening Standard's correspondent. British claims, he adds, are for damages done in air raids, and through the sinking of merchant ships. In the case of ships, reparation to Great Britain will be in kind.

St. Catherines, Ont., Jan. 30—Even if Gormany has conceded President Wilson's famous fourteen points, they still beat us ninety per cent. Germany has prepared for peace far more carefully than she did for war, declared Rev. Newell Dwight Hillis, pastor of Pilgrim church, Brooklyn, in an address on "German atrocities" here last night.

He declared that Germany had massed all her banking deposits in one system

all her banking deposits in one system and converted the funds to Juy control of the water powers of Switzerland, the coal mins of Poland, the platinum and petroleum deposits of Russia and the vast timber tracts of Siberia. "Unless we bring in a fifteenth point forcing Germany to release her industrial strangle hold on the smaller nations of Europe, we have failed hands down," Dr. Hillis declared. "Germany herself values her stock and bond holdings at \$165,000,000,000. OO. I would place that figure nearer \$250,000,000,000. She can afford to pay back all the great industrials required of her and still have tions of the plan of the federal food administration for the government to buy and sell 1918 and 1919 wheat crops was put under way in Chicago yesterday under auspices of leaders of the board of trade who decided to have a committee ask congress to refuse to adopt the great industrials are considered. Bolivian Claim. Paris, Jan. 30—(By the Associated Press)—That Bolivia intends to set up a claim for the provinces of Tacna and Arica, under the doctrine of President Wilson that nations are entitled to an outlet to the sea, was indicated yesterday by General Montes, Bolivian minis-

ter to France.

Havana, Jan. 30—A resolution presented yesterday in the senate by Senator Morales and unanimously adopted authorizes the chief executive in the name of the republic, to propose to all the Allied powers and all nations which severed relations with the Central Powers, that plenipotentiaries be named by each with the purpose of organizing an international association for their protection.

Paris, Jan. 30—A resolution presultant present the washington, Jan. 30—Nearly 500,000 railway employes, or one-fourth of the entire number of railroad men, have effected some sort of an organization in recent months, according to reports reaching labor leaders here. Most of these men had been wholly unorganized which were only partially organized. Many local organizations, it was said, now exist secretly and are known to railroad executives only through committees which claim to represent the
