COVER SOIL WITH STRAW.
Here is a tip for the gardener who wants extra early and tender radishes, lettuce, mustard and cress. It is a popular practice in France and Great Britain but one that is little indulged in on this side of the Atlantic. All the salad crops can be induced to be more sprightly in their growth if the row or patch is covered with straw for three or four days after the seed has been sown. The straw shades the ground, keeps in the moisture and rapidly draws up the young seedlings.
The crop gets a good start if this is done and the tenderness of radishes, lettuce and onions shoot up and are ready for use at least a week earlier than they would otherwise be.

While a week's illness on the part of the boss causes much talk and apprehension, the real demoralization of the office comes when the office boy gets the measles.—Kansas City Star.

Desperate Is Need of Belgians

To the Editor of the Times,
St. John, N. B.
Sir:—We enclose herewith, copy of cable just received from Washington, which will show you how desperate the position of our gallant Allies in Belgium is. It is, as a matter of fact, worse than had been imagined so far.
Struck by the necessity of coming at once to the rescue of Belgium, in her now desperate plight, the Belgian Relief Committee in Canada have decided that the best way to help is to take under their care the children of Belgium; for this purpose the following two courses will be followed.

1.—Establishment of a Canadian bureau in Brussels. This bureau will be administered by Mr. Baetens, a member of the Commission for Relief in Belgium, who will look specially after the numerous orphans of Belgium, whose condition beggars description. Charity will be given in the name of Canada and in this way Canadian donations will not lose their identity.
2.—Active help to the thousands of little Belgian children who have so suffered from privations as to have their health critically impaired. These children are taken out of Belgium into Holland, Switzerland and France, where they are looked after under the supervision of Mr. Berryer, minister of the Interior of Belgium to whom the Canadian donations will be sent direct.
We need not dwell on how urgently funds are required to save these little ones from death, the cry "twenty days without bread" is eloquent enough.
May we ask you to be so good as to insert this appeal in your valuable columns so that your readers may be made aware of the seriousness of things on the realization of which they will no doubt give with a generous heart to the poor children of Belgium.
Thanking you in anticipation as also for your past support of our fund,
Yours very truly,
L. S. COLWELL,
Hon. Sec. Treas.

U. S. TO SEND THREE MILLION BUSHELS WHEAT TO BELGIANS
(Extract from Free Press, April 22, 1918)
Washington, April 22.—Food shipments to the civilian populations of the

allied countries will be suspended for ten days to move three million bushels of grain to the Belgians, who are declared to be in desperate straits.
A part of the wheat will go to the populations in the German occupied territory of Northern France. The decision to concentrate on the shipment of this grain was made following the receipt of urgent cablegrams from the Belgian Relief Commission's representative in Brussels. One of the cables said: "Provided all shipments now en route arrive, and provided an equal distribution between all parts of the country, Belgium and Northern France will be without bread from exotic grains for twenty days."
WIDE APPLICATION OF THE ANTI-LOAFING ACT
Men Doing Work Women Can Do May Be Liable.
Winnipeg, May 14.—Sir Hugh John Macdonald, police magistrate, has ordered wholesale arrests of men engaged in various employments under the Anti-loafing Act.
Men doing work which can be equally

well done by women, Sir Hugh in effect ruled, are not engaged in useful occupation.
The judgment affects men employed in conducting confectionery stores, clerking in grocery stores, and the same principle extended to dozens of similar activities.
The majority of the false conductors apparently view the proposed innovation with amused interest.
"The public is hard to handle," said one experienced conductor, "but the right sort of girl will manage all right, and if any difficulty arose there would be some one to take her part."
"And if the girls stand by us, we'll stand by them," said a supporter.
"The work is pretty hard, especially at first, as the hours are more irregular, and things will have to be changed for the girls. But if we are all in the union together we will all profit by the change. Eight hours steady work would be too heavy for a girl, and the men would appreciate a shift system, too."
They will have to be a healthy crowd to stand the night work and the rush hours, yet they will have to take their share of them if they intend to work with us."
Must Be Quick Workers.
"The girls will have to be quick workers, and it is not an easy proposition to collect the fares from the hundreds of people who pile on to the cars," said one man.
The men claim that the position of motorman would be too nerve racking for women. The cars make from ten to twelve miles an hour and carry from

ARE MAKING READY FOR FAIR EMPLOYES

Rest-Rooms for Women Conductors on Toronto Street Railway; Men Believe Work Will Prove Too Severe

Toronto, May 24.—The Toronto Street Railway Company is making preparations for the employment of women motormen and conductors. Comfortable rest rooms for their use are being outfitted in the bars, partitioned off from the general waiting room. The uniforms have not yet been placed on order, and the women will not be employed until arrangements are completed. Working hours, pay, etc., will be definitely scheduled, but it is expected that they will receive the same pay as the men for equal work.
Although no women are being actually taken on yet or promised positions, many have applied at the employment office. Men in nearby offices say that over one hundred women of all ages and classes have already come to the office.
Viewed with Amusement.
The majority of the false conductors apparently view the proposed innovation with amused interest.

price for the flour he must send back, which is something under \$6 a hundred, this being the penalty for his attempt at hoarding.
It was also learned that a dealer in a village not far from Guelph recently sold large quantities of flour to farmers in his vicinity, many of them purchasing enough flour to last them over a year.

UNDER-MUSLINS FOR THE TROUSSEAU!

The most critical bride-to-be will find our showing of "Dove" Under-muslins a source of endless surprise and delight. The girl who foregoes many weary days of embroidering will save her strength and eyesight by the purchase of our exquisite embroidered models. The materials are sheer and dainty, but of the excellent quality which insures satisfactory service.

Such exclusive little details as reinforced arm-holes help to make women prefer the "Dove" Under-muslins.
