Facts You Can't Rub Out

If rents were lower, and light, advertising and other modern business necessities were cheaper in the city stores they would not have to add more profit to the cost of their goods than we do. If they did enough business to control the production of all the makers of good goods in this broad land they would have a monopoly on style and quality. But, fortunately for us, it costs them a whole lot more to do business than it does us, and the makers who supply them are just as anxious to supply us, hence

"HOME NEWS FROM ABROAD."

It will probably come as a surprising piece of news to the people of St. John, and particularly to the directors of the Exhibition association to know that according to a lengthy article in the "Bill-board," a prominent United States the atrical weekly, "The St. John Exhibition for 1911, will be formally opened on the afternoon of September 2, and will remain open until the evening of September 9. Then follows a description of St. John's advantages as a commercial centreand a few complimentary words for the winter port city. The writer in the magazine meant well, but he was somewhat astray in his information as to an 1911 fair.

SON OF ALD. RUSSELL VERY BADLY HURT

Kicked by Horse Yesterday at Fair Vale and Condition Causes Apprehension—Brought to City and Operation Necessary

day, occurred yesterday afternoon at Fairville, on the Gondola Point road, when Master David Russell, the popular young son of Ald. and Mrs. J. V. Russell, was kicked in the stomach by a horse in the stable attachel to the hotel of Thomas B Roberts, at that place. The lad is in th General Public Hospital today, and was reported at noon to be resting as comfortably as could be expected, but an operation was thought imperative.

Keen sympathy was expressed for the parents of the lad, who is a bright boy of about thirteen years, a favorite with all who know him. It is not known how the accident happened. After the boy had been in the stable a few ministes he was found by Mr. Roberts lying in the barn and suffering greatly. He was not unconscious for his first words were "Don't let mother know I'm hurt." His father and some others were nearby and had been waiting to go for an automobile drive. The machine had been late in arviving, but when it came, the injured lad was placed in it, and hurried at once to

A large number of suburbanites from Ketepec, Grand Bay, Martinon, and surrounding summer resorts, greatly enjoyed a dance held on Saturday evening on A. H. Bonnell's new pavilion at Ketepec. A good programme of dances was carried out successfully, and all present had a good time. Another dance is to be held on Wednesday evening next on the pavilion.

The number of dog licenses issued this year for St. John was 348 less than was the case last year, when 196 tags were disposed of. It is believed that there are not quite so many dogs in the city as there were last year, but it is not thought that difference is so marked as to have reached the 300 mark. Mayor Frink has requested the police authorities to furnish him with a return of the cases disposed of on "dog day" in the police court, in order to determine what has become of the other 348.

Naturally the revenue is considerably less than last year on this account, there being a difference of more than \$300. Some of those who took out licenses for their pets this year took alvantage of the earlier rates, but others had to pay louble price.
