## TIME IS INOPPORTUNE FOR TAKING OVER GRAND TRUNK

Liberal Opposition Feels it is no Time to Burden Country Further

Ottawa, Oct. 14.—In the expectation that the Government might take advantage of its privilege of going on with the Grand Trunk legislation today there was a Liberal caucus held this morning which was but thinly attended owing to so many members not having had time to return from the week-end holiday. The policy which the opposition was to adopt towards the Grand Trunk proposal was discussed. While some of the leading members present expressed themselves as being opposed to nationalization they also pointed out that there was at the present time a very strong sentiment in favor of it which would probably have to run its course. Disastrous as it might be, it was urged that what Canada should do would be to accept whatever responsibility had been cast upon them in regard to the Grand Trunk Pacific, even if that responsibility by right rested on the shoulders of the Grand Trunk, and leave that road to carry on as best it can for the present years at least when the commitments of Canada are so heavy.

Hon. W. S. Fielding, P. D. McKenzie, Hon. W. L. Mackenzie King and Hon. Charles Murphy were appointed to draw up a resolution to be presented today in case the Government went on with the matter. Its general effect would be that while the opposition would not say we should not take the Grand Trunk over at some future time conditions at present were such as not to permit of parliament putting such an addition on the debt of the country. The matter did not come up in the house as the resolution remained in the pocket of the leader of the opposition, but it gives an idea of the course the opposition will likely pursue.

## ANOTHER NURSE IS REQUIRED IN ANTI-TUBERCULOSIS WORK

The St. John Association for the Prevention of Tuberculosis met yesterday afternoon in the dispensary with president Joseph A. Lively, in the chair. The reports of the doctors and nurses were adopted as read. It was reported that thirty-five adults and nine children had been in attendance at the dispensary. Dr. Farris examined twenty patients, recommending three to River Glade sanatorium and nine to the county hospital. Dr. Logie examined seven patients, recommending two to River Glade. It was decided that the association should purchase a table and a revolving chair for the dispensary. Heartly thanks were extended the Red Cross Society for a gift of clothing. Mrs. A. W. Adams was appointed visitor for the coming month, replacing Mrs. Richard O'Brien. The date for the annual meeting was fixed for next month. It is hoped that speakers can be secured for this meeting which will be held in the board of trade rooms. The association stands in great need of another nurse and it was suggested that a committee should approach the board of health in the matter. It was noted that the pamphlets on "What You Should Know About Tuberculosis" would soon be ready for distribution in the schools.

## LIBERALS RETURNED IN WESTMORLAND COUNTY ELECTIONS

Moncton, N. B., Oct. 14.—Municipal elections were held in Westmorland county today. In Moncton parish there was much interest in the contest. Charles B. Keith, of Berry Mills, and Ferdinand E. Bourgeois, of Fox Creek, ran as a ticket and were opposed by Albert J. Wilson and Job Henton, Messrs. Keith and Bourgeois, who are Liberals, have had previous experience at the council board. Their friends rallied to their support in large numbers, electing them by a big majority. In Shediac parish, William Murray, of Scotch Settlement and Maxime Richard of Aboussagan, were elected. The result of polling in that parish follows: M. Richard 528, William Murray 484, Alphonse T. LeBlanc 428, John Hodgson 376. The successful candidates in Shediac claim to be farmers' candidates and independent in politics. In Dorchester parish the candidates were Simon Melanson, Hazen Farrer, Lieut. H. Palmer and Eloi LeGer, Melanson and Farrer who are both Liberals were elected with a majority of about

## Weak Women

Nothing will build you up and make you strong and robust like Vinol

The Well-Known Cod Liver and Iron Tonic Without Oil. If you are tired, over-worked, run-down, Vinol will help you. Your money back if it fails. Get Vinol at leading drug stores.

CHESTER BENT & CO., WINDSOR, ONT. THE ARTHUR SALES CO., TORONTO.

## Abbey's EFFERESCENT SALT

Regulates the Stomach

Yes, Cold All Gone—Not A Bit of Cough Left

Feel great this morning. As soon as I felt it coming on yesterday I used Gray's Syrup and nipped it in the bud. Just couldn't miss an hour at the office. I was so busy and absorbed. Gray's Syrup is a habit in our family. The folks have used it for sixty years.

*Aches by the Large Size.*

## GRAY'S SYRUP OF RED SPRUCE GUM

Prepared by Dr. W. D. Watson & Co., New York

## Home Complexion Peeler Works Wonders

To keep the face, neck, arms and hands truly beautiful and youthful in appearance the treatment which seems most sensible is one which will actually remove the skin itself immediately as it begins to age, fade, coarsen or discolor. The only known treatment which will do this, aside from a painful, expensive surgical operation, is the application of ordinary mercurized wax, which is as harmless as it is effective. The wax is put on at night, just as you apply cold cream, and washed off in the morning. It absorbs the dead, half-dead surface skin in almost invisible flaky particles, a little each day, no discomfort being experienced. With the disappearance of the old, cuticle the newer, healthier skin underneath gradually appears, richly beautiful with the flush of youth. This mercurized wax, which you can get at any drug store in original package, is indeed a veritable wonder-worker.

## To Relieve Catarrhal Deafness and Head Noises

If you have Catarrhal Deafness or ear noise or have had noises go to your ears and get out of your ears, use our Ear Drops (double strength), and add to it 1-4 pint of hot water and a little granulated sugar. Take one tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dripping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or ear noises should give this prescription a trial.

## VALCARTIER CHAPTER

Members of Valcartier chapter brought to last night's chapter meeting the tall money which they had earned during the summer and it was found that the total reached the sum of \$175. Shows that the members had been most active in the interests of the order. The meeting was held at the residence of Miss Campbell in Leinster street with Miss Edith Miller occupying the chair. The chapter voted \$10 as its monthly contribution to the expense of maintaining a child welfare nurse to work under the direction of the board of health. The city chapters are together pledged to give \$80 monthly for this purpose. Arrangements were made for holding a rummage sale at the Marsh Bridge this month. The executive was given power to act for the chapter in co-operation with the other chapters in St. John in the matter of sending relief supplies to the fire sufferers at Oromocto. The meeting was an enthusiastic one and the chapter is entering on its winter work with confidence of accomplishing great things.

# 5 WELLS---5 WELLS 50% FOR DIVIDENDS

\$10 May Earn You \$1,000 \$100 May Earn You \$10,000  
Five Chances for Gusher Wells--Five Shots for a Fortune

# ROYAL OIL WELLS COMPANY

(Incorporated under Delaware Laws)

A limited issue of \$100,000 of the Royal Oil Wells. Every share of this issue is first preferred stock. Preferred as to assets, preferred as to dividends, and in addition participates fully and equally in all profits and all properties as outlined in this announcement. Why invest hundreds or thousands in an ordinary oil company when \$10 invested in Royal Oil Wells may be the means of starting you on the road to fortune?

Royal Oil Wells offer the small investor a golden opportunity to share in the wonder profits of the greatest wealth producing industry known to modern civilization—with the absolute assurance of minimum risk, maximum profit and a square deal from start to finish.

**NO GAMBLING  
NO GUESSING  
NO EXPERIMENTING**  
**Royal Oil Wells Company**  
Is organized under an iron-clad guarantee to produce oil and pay dividends!

Charles W. Barton, New York Publisher, has personally visited the great Texas Oil Fields. Read his article re-published here from the New York Telegraph.

**UNDREAMED-OF RICHES COME TO MEN, WOMEN AND CHILDREN IN WONDERFUL OIL FIELDS IN LONE STAR STATE.**  
(By Charles W. Barton.)  
(Assistant Publisher of The Morning Telegraph.)

When I boarded the train for Texas about a month ago I was somewhat skeptical about the reports of the fabulous wealth which was coming to oil investors in Texas. I was prepared to meet a lot of smooth-talking, silver-tongued oil stock salesmen. To say the least, I expected that the oil men that I was to meet would show me the bright side of the oil business and put their best foot forward. They were prepared to discount about 80 per cent. of what they told me and take what I saw with a grain of salt. I am told that in the town of Ranger a year ago there was hardly a man in the town who had a bank account of \$5,000. Today there are probably twenty-five who have a bank account of \$5,000,000. Millionaires are so common that nobody thinks anything about them. Everybody seems to have plenty of money, even drillers making \$12 and \$15 per day. Men and women have gone to sleep at night only to wake in the morning to find themselves millionaires, because they have struck oil.

With modern machinery consuming an ever increasing amount of oil, and with England, France and Italy and all foreign nations calling upon us for more and more oil, the demand is sure to exceed the supply for a long time to come. Texas today is the Mecca of the world and opportunities there are greater than ever before.

Frankly, I must confess, that I expected to find a lot of crooks in the oil business. All my early training had taught me to shun an oil investment as I would a snake. However, I must say that in my opinion the great majority of Western companies are absolutely on the level. I never met a finer class of people in my life than the men who are producing oil in Texas. There is no need for an oil company to be crooked. There is an inexhaustible supply of oil in Texas and there is so much money to be made by simply being fair and square that it is not worth while to be dishonest.

**5 LEASES**  
In Texas and Oklahoma the world's greatest oil territories.  
Five wells to be drilled, every well, absolutely without exception, within 250 yards of proven producing oil property.  
This pledge is your guarantee and the first assurance of its kind ever offered to the investor.

Jump on a train and go down and see for yourself, as I did, the wonderful opportunities which are open in every line of business in Texas towns adjoining the oil fields. Talk with the farmer boy of a month ago, who today is a multi-millionaire. Talk with the immigrant woman who invested \$300 and today is worth over a million and owns her own oil well and is getting richer every minute.

A man goes out and buys a lease in territory in which geologists have told him he should strike oil. He needs twenty-five to fifty thousand dollars to erect a derrick and drill a well, depending on the depth to which he must dig before he strikes oil. In some sections the oil lies in shallow fields, and in other sections he must dig much deeper. Barring accidents, such as drilling a crooked hole and having a cyclone destroy the derrick, delay in getting materials because of lack of transportation, within about thirty to sixty days he knows whether he strikes oil or has a dry hole. It doesn't take much brains to drill a well right next to another well which is a producer, and strike oil, and if the company's holdings are in a producing territory where geologists state there is oil, the investor has more than an even chance to make a fortune.—From The New York Telegraph.

**FACTS AND FIGURES. WHAT THE DRILLING RECORDS SHOW.**  
When an oil man decides to change operations into a field that is new to him, the first thing he does is to study the drilling records, the averages as supplied to the new field. When you put your money into the oil business you should know the drilling records, the percentages of the business are—for and against you. Records for the entire United States for the month of March show that there were 2,884 wells drilled. In April there were 2,900 drilled—only 467 were dry. In the Mid-Continent fields, including Kansas, Oklahoma and North Texas, a well is drilled in May, 1,204 wells were drilled—279 only were dry. In June, 1,417 were drilled with only 262 dry. In North Central Texas alone, 401 wells were drilled in the month of June. Of these 70 were dry. In May there were 983 wells drilled in North Texas with only 57 dry holes. Do you call that a gamble? Yet one good oil well will pay for a dozen dry holes. What matter if you do get one dry hole to every four oil wells?

# MILLIONS IN OIL---GET YOUR SHARE NOW

**FIVE WELLS TO BE DRILLED—FIVE CHANCES FOR A GUSHER IN THE HEART OF THE PROVEN OIL FIELDS.**  
ROYAL OIL WELLS WILL DRILL FIVE WELLS IN THE DEEP SAND PROVEN OIL FIELDS.  
EVERY WELL WILL BE DRILLED RIGHT UP AMONG THE LARGEST PRODUCERS IN THE FIELD.  
NO WILD-CATTING, NO EXPERIMENTING, NO GAMBLING ON TRENDS OR STRUCTURES.  
NO OIL-CATTING, NO EXPERIMENTING, NO GAMBLING ON TRENDS OR STRUCTURES.  
EVERY WELL, ABSOLUTELY WITHOUT EXCEPTION, WILL BE DRILLED WITHIN 250 YARDS OF A PROVEN, PRODUCING OIL PROPERTY.  
THIS POLICY IS AN IRON-CLAD GUARANTEE FOR YOUR PROTECTION, AND THE FIRST ASSURANCE OF ITS KIND EVER OFFERED INVESTORS.

# 50% FOR DIVIDENDS

Royal Oil Wells is permanently pledged to the policy of substantial dividends—not 5 p. c. or 4 p. c. or 10 p. c., but a full half—50 p. c. of every dollar's worth of oil produced. Do you realize what this means to you? Oil companies frequently earn a full 80 p. c. on the capital invested in the short period of 30 days, many of them have earned 100 p. c. in 30 days. But the stockholder does not get it. Royal Oil Wells will be conducted on a different basis. When the money is earned it is yours. Royal Oil Wells proposes to give it to you and give it to you promptly. Thirty days after a well is drilled to you will begin receiving dividends from the oil produced. If our first well is a thousand-barrel well, 500 barrels a day or \$1,000 a day, will go to our stockholders. There will be no set dividend rate. The earnings of each month will be split, 50-50, 50 p. c. for dividends—50 p. c. for expenses and additional wells. On the basis of one-half of our stock outstanding a daily production of 1,000 barrels would net you approximately 12 p. c. monthly, 36 p. c. quarterly or 144 p. c. a year on every dollar invested. We can't guarantee you that you will make a million dollars overnight, but we can, and do, guarantee you that you will get every penny to which you are honestly entitled, and that every possible net dollar invested by you will go directly into oil operations—the purchase and drilling of the very choicest locations to be had in THE HEART OF THE PROVEN, PRODUCING OIL FIELDS OF TEXAS AND OKLAHOMA.

If you want to be an inside partner instead of a mere owner of stock, if you appreciate the kind of company that will pay the profits to you instead of to your estate, if you want to share in the great oil wealth that is enriching others, fill in the coupon, write your check for what you can afford to invest and mail it along at once. The coupon means money to you, and to every stockholder who buys into Royal Oil Wells. \$10 is not too little—\$10,000 is not too much. Remember, the more you put in the more you take out. But fill in the coupon now and mail it today. If you don't happen to have a check around, mail the coupon anyway and you can send your money in later.

**A FORTUNE IN ONE WELL; HOW MANY FORTUNES IN FIVE WELLS?**

**FORTUNES IN OIL.**

There is an inclination on the part of a certain class to question the fabulous fortune reports that are constantly coming to light. However, no one will question the above statements by Charles W. Barton, who is one of the most respected and able journalists in the newspaper business.

As a matter of fact, this page could be filled with condensed accounts of the unbelievable fortunes made in oil. Such stories come to light every hour of the day, and yet not the half of them have been told. It is said of Tulsa, Oklahoma, that every member of the Chamber of Commerce is an oil millionaire, and that there are more than one hundred millionaires whose fortunes were made entirely through oil.

The oil business alone is open to the small investor as a possible fortune on a few hundred dollars invested. It has been for years, and is today the poor man's chance to accumulate large sums through moderate investments.
