CANNOT BE DISCREDITED.

From the mass of evidence in our possession we select the following:
From L. J. RACINE, Esq.,
of La Motte, Montreal. "Having experienced the most gratifying results from the use of Dr. Wistar's Balsam of Wild Cherry, I am induced to express the great confidence which I have in its efficacy. For some months I was most cruelly afflicted with a severe and obstinate cough, accompanied with acute pain in the chest, which did not leave me, summer or winter. The cough increased alarmingly, and so reduced was I that I could walk but a few steps without resting, and from the want of sleep and fatigue I was at a severe exertion. At this juncture I commenced taking the Balsam, from which I derived immediate relief, and after having used four bottles I was completely cured. I have used the Balsam in many cases of cough, and administered it to my children, with the happiest results. I am sure that each case of this kind can be cured in the same manner. It is a preventative, which has only to be tried to be acknowledged as the remedy for all such cases."

A CURE FOR WHOOPING COUGH.

St. Hyacinthe, C.E., Aug. 21, 1886.
Messrs. Wm. W. Fowle & Son,
Gentlemen—Several months since a little daughter of five years of age, was taken with Whooping Cough in a very aggravated form, and nothing would do for her but to try a bottle of Dr. Wistar's Balsam of Wild Cherry. In three hours after she had taken three doses it was as if a new era had begun. The cough was entirely cured, and in two weeks she was as healthy as ever. I have used the Balsam in many cases of cough, and administered it to my children, with the happiest results. I am sure that each case of this kind can be cured in the same manner. It is a preventative, which has only to be tried to be acknowledged as the remedy for all such cases."
