1) Statement by Accused: "Sir, I, as a son of an old man of sixty-nine, was granted furlough on the 17th day of May, 1944. Finding my dad in ill health, awaiting necessary help so as to receive an ulcer operation, but Dr. Potoski admitted a medical treatment was more suitable for his strength; therefore, I asked for an extension of furlough and was granted fourteen days. This was investigated by RCMP

and found most necessary. By this time my leave was ended and his ailment was just as bad. So, I sent a plea and health certificate to the unit--the Commanding Officer-but could not be granted more leave. I worked on the farm all this time and had intended to report to No. 12
