AINSWORTH PROPERTY
MAY BE RE-OPENED

Shipments From Southeastern
B. C. Mines Pass 750,000
Tons Mark

Nelson, April 20.—A report that ap-
parently has good foundation states
that the Highland-United silver-lead
property at Ainsworth is about to re-
sume operations. The mines and mill
closed down about the middle of Janu-
ary, after being operated since last
July under the present manage-
ment. In that period over 300 tons of
concentrates was shipped to the Con-
solidated smelter at Trail. The High-
land is an old property, and the ore for
the mill was chiefly its output. At the
same time extensive development work
was carried on in the United mine, a
good lead of ore being struck at a low
level. Extensive improvements in the
shape of pumps, aerial tram, and com-
pressed air pipe line were being planned
just before the property closed
down. On January 15th J. S. Airheart,
manager of the Highland-United mines,
Ld., took a three months' option on
the property, and the present report
credits him with being successful in
interesting capital. It is stated that
he has availed himself of the option,
and is swinging a deal. Mr. Airheart
is expected in Nelson this week.

The Highland mine is nearly a
straight silver-lead proposition, but the
United ore has a heavy percentage of
zinc. If the experiments in the treat-
ment of zinc ore, to be carried out here
this summer, prove successful, that
portion of the property may experience
an enhancement in value.

The ore production of the Slokan-
Kootenay last week passes the 100,000
mark in tonnage, and the total ore pro-
duction of the interior passes the 750,-
000 mark.

A new American shipper to the Con-
solidated company's smelter at Trail is
the insurgent tonnage which made the
shipment this week of fifty-three tons.

The figures of ore production and
movements for the week, the milling
being estimated, are given below:

Boundary.		Week.	Year.
Granby	23,376	379,261	
Mother Lode	8,000	123,805	
Snowshoe	4,133	56,905	
On Denore	350	4,900	
Other mines	183	183	
Total	34,539	574,612	

Rossland.		Week.	Year.
Centre Star	2,973	57,590	
Le Roi No. 2	790	9,228	
Le Roi No. 2, milled	300	4,500	
Other mines	183	248	
Total	4,235	75,711	

Slokan-Kootenay.		Week.	Year.
St. Eugene, milled	2,775	41,625	
Van Rai, milled	800	12,000	
Whitewater, milled	600	9,000	
Queen, milled	420	6,200	
Granite-Poorman, milled	250	3,750	
Nugget, milled	110	1,650	
Kootenay Belle, milled	70	1,050	
Richmond-Eureka	20	300	
Rambler-Cariboo	22	330	
Yankee Girl	127	2,098	
Mollie Hughes	35	525	
Sullivan	457	2,198	
Other mines	183	183	
Total	5,771	100,535	

The total shipments for the week,
including the amount milled, were 44,-
835 tons, and for the year to date, 750,-
835 tons.

Smelter receipts for the week and
year follow:

Week.	Year.
B.C. Copper Co., Greenwood	3,350 138,255
Granby, Grand Forks	23,376 379,261
Consolidated Co., Trail	9,793 151,108

The total receipts at the smelter, in-
cluding concentrates, were for the week
41,513 tons, and for the year to date,
668,774.

CONVENTION MAY
BE HELD IN JULY

Meeting at Kamloops of Local
Officials of Irrigation As-
sociation

Kamloops, April 20.—Local officials of
the Irrigation association held a meet-
ing preparatory to the convention to be
held here this year.

It was decided to suggest the last
Wednesday in July for the convention,
which will last two, perhaps three days.
The local committee will suggest that
a banquet be held on the evening of the
first day. They further suggested that
an invitation be extended to Mr.
Newell, head engineer of the United
States reclamation department, and
Hon. Clifford Sifton, chairman of the
conservation commission; R. B. Ash-
croft, of Vernon, and A. E. Melgren,
of Kamloops, to attend and read pa-
pers or deliver addresses to the con-
vention. It was recommended that His
Excellency the Governor-General, who
will be coming to this province about
that time, be asked to preside at the
banquet and that the premiers of the
three provinces of Saskatchewan, Al-
berta and British Columbia, and the
premiers of Canada be asked to attend.

These suggestions have been for-
warded by Mr. Calloway to John T.
Hall, Edmonton, permanent secretary
of the association.

SCOTTISH RITE TEMPLE.

Washington, D. C., April 21.—The
contract for the erection in this city
of the \$100,000-dollar temple of the Scot-
tish Rite Masons was yesterday award-
ed to John Russell Pope, of New York
city.

PILES

Dr. Chase's Ointment is a certain
and guaranteed cure for all
forms of piles, hemorrhoids,
and protruding piles. See testimonials in the press and ask
your neighbors. It can be used by all
and dealers of 25¢ each. 10¢ each. 5¢ each.
DR. CHASE'S OINTMENT.

ROOT'S VISIT TO EUROPE.

It is Believed He Will Confer With
Roosevelt on United States
Political Affairs.

Washington, D. C., April 20.—Senat-
or Theodore Roosevelt, after a conference
with the White House yesterday, announced
that he will start for The Hague on
May 21st. The ostensible purpose of
his visit is an investigation in connec-
tion with the hospital days and dis-
pute, it is generally believed here
that the real object of the trip is a
conference with Theodore Roosevelt,
and that he will present the adminis-
tration's side of the various disputes
that have taken place in Washington
since Taft was inaugurated.

OFFER TO PURCHASE
SITE OF HOSPITAL

Directors of New Westminster
Institution Consider
Proposal

New Westminster, April 20.—An offer
of \$75,000 has been made to the board
of directors of the Royal Columbian
hospital for the ground now occupied
by the hospital building at Sapperton.
The offer is being considered by a com-
mittee appointed for that purpose, but
the acceptance of the offer is a matter
of doubt. The expense which would be
incurred in the change of location is
considerable. Within the past couple
of years the nurses' home, the mater-
nity cottage and the isolation hospital
have been erected at a cost of \$45,000,
and the management feels that it would
be a sacrifice to abandon these build-
ings at the present time.

In the event of the sale being con-
summated, the hospital would be
moved to a quieter location somewhere
in Sapperton.

Plans for the new hospital building
were finally accepted at a meeting of
the board of directors, several altera-
tions and changes having been made
since the design submitted was ac-
cepted some weeks ago.

The new building will cost \$150,000,
and will have accommodation for 148
patients, this being an increase of
forty-three over the provision made
in the original plans. The present
building is only built to house twenty-
five patients, but owing to the in-
crease of population, it has been over-
crowded for some time, seventy-eight
patients being now under treatment
within its walls.

WILL RESUME WORK.

Ymir, April 20.—S. S. Fowler and Mr.
Hedderley spent several days looking
over the proposed site for the resump-
tion of work on the Ymir mines. In-
formation as to just what the company
intends to do in the way of further
work will be given soon. The mine
sustained severe damages last winter by
snow slides. The different buildings
will have to be repaired and some of
them rebuilt.

NEW COURT HOUSE
AT NAKUP COMPLETED

Another Sawmill is Being
Erected—Ohio Lumbermen
May Also Build

Nakusp, April 20.—The court house
which has been under consideration on
Broadway for some time has been
completed by W. G. Gillet, of Nelson.
It is two stories, having constables'
quarters and prisoners' kitchen as well
as two steel cells in the basement,
which, by the way, is constructed of
concrete. The upper floor is of frame
and consists of mining recorder's office
and private office behind, with a large
hall in the centre, leading below to the
hall in the court room, which will be
used by the public bodies such as the
board of trade, etc., when required. It
is exceedingly well finished and is a
credit to the contractor and his work-
men. It is now hoped that the govern-
ment will have the grounds graded
and generally beautified.

Building operations in other quarters
are active. Messrs. Quance and com-
pany have started their new sawmill,
the frame being up and several carloads
of machinery and incidental material
are arriving.

There is every prospect of Nakup
securing a new additional sawmill
this summer and a party of explorers
are expected from Cleveland, Ohio, to
look over the situation at the end of
the present month. The capacity is
falling into line to make it a thorough
world, regulating aerial traffic, will
be the one now under discussion. Here
are some of the regulations:

Aeroplane must pass each other to
the right, must not fly lower than 150
feet when over gardens or buildings;
beginners should not be allowed flight
without certificate "outside specified
bounds; when passing one over another
signals should be exchanged by sirens,
horns, bells or otherwise; must give
over towns or cities; must give dir-
ectly right-of-way and a wide berth at
that; aeroplanes must be registered in
home districts and numbers must be
painted on their sides in big letters, etc.

Owners of buildings more than 150
feet high may be compelled to place
lights on the tops of them as warn-
ings to aviators. Dirigibles must not
let out gas near residences, nor drop
ballast over habitations.

WEEKLY WEATHER SUMMARY.

Victoria Meteorological Office,
April 13th to 19th, 1910.

At Victoria there were registered 64
hours and 36 minutes of bright sunshine;
the highest temperature was 64 on the
18th, and the lowest 32.2 on the 14th and
17th; rain, .02 inch.

At Vancouver—Bright sunshine, 82 hours
and 15 minutes; highest, 66 on the 15th; low-
est, 34 on the 18th; rain, .02 inch.

At New Westminster—Highest, 68 on the
18th; lowest, 32 on the 15th; no precipitation.

At Kamloops—Highest, 82 on the 18th and
19th; lowest, 32 on the 15th; no precipitation.

At Barkerville—Highest, 54 on the 18th and
19th; lowest, 16 on the 14th; precipitation, .20
inch.

At Port Simpson—Highest, 50 on the 15th;
lowest, 30 on the 14th; rain, .22 inches.

At Atlin—Highest, 38 on the 15th; lowest, 30
on the 14th; precipitation, .22 inch.

At Dawson—Highest, 40 on the 18th and
19th; lowest, zero on the 15th; precipitation,
.47 inch.

SEVERE STORM
AT PRINCE RUPERT

Number of Buildings Unroofed
—Fish Curing Plant to
Be Erected

(Special Correspondence.)
Prince Rupert, April 20.—The provin-
cial police received a large number of
convictions in the police court recently.
Fines of illicit sales of liquor amount-
ed to \$6,000.

A miniature hurricane struck Prince
Rupert on the 14th inst., continuing for
48 hours. Buildings were unroofed and
boat-houses torn from their moorings.
Fortunately no serious accidents oc-
curred.

A stamp mill has been installed on
Moresby Island, on the McLennan prop-
erty. The ledge of free-milling ore
has been erected at a cost of \$45,000,
and is expected to give
favorable results.

The new townsite of Graham City is
being cleared and streets laid out.
Stewart City is growing rapidly and
will soon have a population of one
thousand people.

A petition is in circulation in Prince
Rupert asking the government to con-
tinue the construction of sewers until
the \$25,000 appropriation has been ex-
pended.

The first license to dispense intoxi-
cants has been granted the Prince Rup-
ert Club by the provincial govern-
ment. The club will erect a \$10,000
building on Second avenue.

The rail-laden steamer Germanicus,
with 5,400 tons of staves, reached Prince
Rupert on the 13th inst. The vessel was
brought from the south by the cap-
tain and was the first ocean-going boat
to arrive without a pilot.

Tenders have been called for the erec-
tion of a general hospital.

Thomas Deasy, formerly of Victoria,
has been recommended by the Prince
Rupert Liberal committee to fill the
position of Indian agent at Massey. The
Optimist says: "Thomas Deasy has been
recommended by the Liberal ex-
ecutive for the position of Indian agent
at Massey. Mr. Deasy is well qualified
for the position. He knows the country
and he understands the natives. It is
now some thirty odd years since he
settled in British Columbia, having
come over from Portsmouth. For sev-
eral years he was chief of the fire de-
partment at Victoria, and later organ-
ized and commanded the Nelson fire
department, which he held for three
years. Afterwards he was chief con-
stable in the Indian department of the
province. A better choice could not
have been made."

Blake Wilson, manager for P. Burns
& Co., is in Prince Rupert to select a
site for a refrigerating plant. The build-
ing will be three stories in height and
modern in every detail.

San of bridge, wagon roads and tra-
velled in every detail. The building will
be of concrete. The different buildings
will have to be repaired and some of
them rebuilt.

A fish-curing and refrigerating plant,
to cost \$120,000, will be erected at Mas-
sey, a waterfront location in the north-
end of the city.

J. M. McPherson left Prince Rupert for
Stewart to superintend the construc-
tion of bridges, wagon roads and tra-
velled in every detail. The building will
be of concrete. The different buildings
will have to be repaired and some of
them rebuilt.

Persons intending to vote at the com-
ing municipal elections must register
at the provincial government buildings.
Six months' residence is necessary to
qualify.

The first shipment from Prince Rupert
to New York will consist of a sixty-foot
totem pole consigned to the Natural
History Society.

RESCUE APPARATUS.

Nanaimo, April 20.—H. M. Wolf, of
the United States geological survey,
gave instructions to a class of about 25
in the use of the Dreager oxygen res-
cue apparatus at the Western Fuel
Company's store yesterday. This is the
first apparatus of this kind ever seen
on the island. Mr. Wolf is superin-
tendent in charge of the oxygen mine
rescue station at Seattle.

PROPOSED RULES
OF AIR IN FRANCE

Regulations for Airships Now
Before Minister of Pub-
lic Works

Paris, April 21.—Owing to the con-
stantly growing danger of aeroplane
collisions the Aero Club of France has
asked the minister of public works to
hurry up with his decision on the
"aerial code," or the "rules of the air,"
submitted to him recently. There were
certain rules laid down at the last
Rhinus meet, but the "aerial code" of
the world, regulating aerial traffic, will
be the one now under discussion. Here
are some of the regulations:

Aeroplane must pass each other to
the right, must not fly lower than 150
feet when over gardens or buildings;
beginners should not be allowed flight
without certificate "outside specified
bounds; when passing one over another
signals should be exchanged by sirens,
horns, bells or otherwise; must give
over towns or cities; must give dir-
ectly right-of-way and a wide berth at
that; aeroplanes must be registered in
home districts and numbers must be
painted on their sides in big letters, etc.

Owners of buildings more than 150
feet high may be compelled to place
lights on the tops of them as warn-
ings to aviators. Dirigibles must not
let out gas near residences, nor drop
ballast over habitations.

STRIKE AVERTED.

Pittsburg, Pa., April 21.—All differ-
ences between the local street car
company and its employees were adjusted
at a conference last night. There will
be no strike.

In Italy no ancient monument can be
restored or old building altered without
special permission from the government.

Admiral Sir William May recently stated
that when he entered the navy the big-
gest gun was a 22-pounder of 26 cwt.
and now it is an 800-pounder of 56 tons.

LOSERS THREE OF CREW.

St. John, N. S., April 21.—Reporting
the loss of three of her crew, her 315-
boom, foremast and main topsails
gone the three-masted schooner Arthur
D. Gibson, Capt. Howard, bound from
New York to this port, was towed into
the harbor last night by two tugs. The
men lost were: Arthur Torrey, aged
18, from Rockland, Maine, who joined
the schooner in New York only a few
days ago; Claude Shaffner, aged 33, un-
married, of Annapolis, N. S.; James
Collier, aged 29, unmarried, of St.
John's, Nfld. All were able seamen.

PUBLICITY EXPERT FOR
NEW WESTMINSTER

Council Decides to Advertise
City—Contribution to May
Day Festivities

New Westminster, April 20.—The
city council at its last meeting, decided
to appoint a publicity commissioner
to advertise the city. The salary to
be paid him amounts to \$75 per
month, but he is to act in conjunction
with the publicity department of the
board of trade, and that body may pay
the man an additional sum. The salary
paid to the man selected will be taken
out of the \$4,000 which was set aside
for the purpose of advertising pur-
poses some time ago.

The dog question made its weekly
appearance. "I move that the police
committee be given permission to pur-
sue the dog for the capture of dogs
without tags," said Ald. Smith.

"Hear, hear!" heartily echoed the
balance of the board.

"And also that permission be given
to hire an express wagon to carry
the captured dogs," continued the
heartless alderman.

"Hear, hear!" shouted the council
with one accord, and the motion
passed accompanied by happy smiles
and sighs of satisfaction.

D. E. Mackenzie and Gowan Mac-
Gowan were present at the May Day
committee on the evening of the 19th.
