There only mean to readjust the tariff.

There only mean to readjust the tariff.

This fallacy underlies every argument in

Free Traders, would be found endorsreadjustment, but what the Liberal Party favor of Protection, and cannot be too ing Sir John A. Macdonald's tariff have frequently asked, and asked always often or too fully disproved. On this principles and endeavoring to carry the in vain, is that the men who demand that point Mr. Tilley was astray in his history country with them thereon, yet such there shall be a change of Government in order that there may be a change of tariff, should state intelligibly what they mean negotiations at Washington. When it ing their eyes to the danger that threatby readjustment. We only want, Mr. was forced on Parliament under pressure Tilley said, about 18 millions from Cus- from the Government, which was itself toms and Excise, and whether this amount | forced to this action by Dr. Tupper, then e is raised in one way or another the people are not more heavily taxed, if the total of the total of the total of the total of the most vital interests of the most vital This is one of the most gross, and palpable, | can Governments, and in the year followand yet dangerous of the fallacies by ing, when the Joint High Commissioner means of which the Protectionists hope to delude the public. The tariff may be so readjusted that the taxation of the people would be made two or three times which the protection of the people would be made two or three times which the people would be made two or three times which the people would be made two or three times which the people would be made two or three times which the people would be made two or three times which the people would be made two or three times which the people would be made two or three times which the people would be made two or three times which the people would be made two or three times which the people would be made two or three times were actually in session in Washington, the National policy was repealed, the Ministers, Mr. Tilley, we believe, included, you must be people with the people will be people will be people with the people will be people with the people will be people with the people will be people will be people with the people will be peo what it now is, and yet the revenue be no larger, or be even smaller. Take the very article of sugar of which Mr. Tilley said so much. If the duty on refined will not consent to a system of differential will not consent to a system of differential in the House and I tell you now, it cannot be called a retaliatory or vindictive policy to adopt their tariff.

In the same speech Sir John plainly deliberate, studied exclusion of English manufactures, and an additional tax of one-half million to one million dollars would at once be imposed upon the people, and would be paid by them; but as the refineries would then supply our markets foreign refined sugar would be twill raise as the refineries would then supply our at Washington, and the hopes of a settlement which so strengthened the hands of the refiners and, the revenue would not be increased. So of all other articles. be increased. So of all other articles, but Mr. Tilley said we should rather ask Globe, telegraphs to this Province that ceive how much some parts of his speech clashed with others, afterwards admitted half fed operatives say. In so describing a readjustment of the tariff. With clashed with others, afterwards admitted that the direct effect of the imposition of the special that the direct effect of the special that the special that the special that the special that the that the direct effect of the imposition of protective duties is to exclude foreign manufactures and so diminish the revenue. Yet he repeatedly assetted that the amount of taxation borne by the people under any Tariff, and the amount of the public revenue, are precisely the same, and that there can be no reason to comment could control, nor all the wisdom of Macdonald and Tuley and Tuneye and Source of these Provinces he did great injustice to them and to the country. Nova Scotia as advocated by Dr. Tup-per in the east and Flour, etc., "read-justed" on the scale of the American tariff for the benefit of Sir John's friends in the west, New Brunswick stands a fine chance of being nicely Macdonald and Tuley and Tuneye and Source of these Provinces he did great injustice to them and to the country. Nova Scotia as advocated by Dr. Tup-per in the east and Flour, etc., "read-justed" on the scale of the American tariff for the benefit of Sir John's friends in the west, New Brunswick stands a fine chance of being nicely Macdonald and Tuley and Tuneye and Source of these Provinces he did great injustice to them and to the country. Nova Scotia as advocated by Dr. Tup-per in the east and Flour, etc., "read-justed" on the scale of the American tariff for the benefit of Sir John's friends in the west, New Brunswick stands a fine chance of being nicely of a Revenue Tariff. We have good reaplain of an increase of taxation if the re- Macdonald and Tilley and Tupper and squeezed. New Brunswick understands venue be not augmented. Anything more Palmer, could sensibly alleviate; but they this and will decline to elect the gentlepreposterous was never uttered. Dr. Tupper loyes to make such assertions, and Sir John A. Macdonald frequently indulges suffered at the same time, and are sufferin them, but we thought that Mr. Tilley. times our people have on the whole suffered when speaking to the business men of St. John, would not repeat such preposterous little, the condition of our operatives is immensely better than that of the operanonsense. After enunciating this extraordinary doctrine he proceeded boldly to tives in the United States, where Protecavow himself a Protectionist. The word Protection he knew is an odious word in St. John, but he said there are struggling employment and food, such as Mr. Tilley pictured, there never was a time during industries which require the fostering care the past twenty years when so few were of the Government, and these he would leaving this country for the United States, help by taking out of the 15 per cent. such articles of those engaged in the struggling States to seek employment and food in industries manufacture. He did not name Canada. any one of the industries he would protect, nor state the extent to which he would go in the way of protection. On suffer little from competition with the these points he was absolutely silent or United States, but they suffer much from utterly vague and unintelligible, but he declaimed wildly about the importance of keeping our citizens at home by finding them employment, and inducing others to dry goods, teas, &c., &c. settle here, and so to provide customers for our shopkeepers and tenants for those whose wealth is invested in real estate. and he referred to the statement once pub-Provinces will learnlished by Mr. Everett, as president of an association, of the number of operatives employed in St. John, and the amount of tionist. wages paid them, and the increase which had taken place in a few years, and the the duties on imports generally, butanticipations then indulged in, that they That he would keep the duties on gen would double in ten years, and he asked eral imports at 15 per cent., and that upon whether these anticipations have been manufactured articles which compete with he attributed the check in our manufac- place a Protective duty so high that it turing progress to the want of protection. would exclude those foreign and English Northumberland, taken from the Tele-And then he spoke of the competition our manufacturers from our markets.
