## TAKE A REST.

Sir Wilfrid Laurier is Considerably Indisposed.  
He Will Drop Affairs of State and Take a Rest for Some Time.

(Special to the Star.)  
TORONTO, Nov. 11.—The Globe's Ottawa correspondent writes: "The prime minister will probably drop the affairs of state for a few weeks and take a good rest. His official duties and many engagements monopolized nearly the whole of his time during his absence in Europe and although he was able to snatch a few days of repose in Switzerland the holiday was not so extended as it should have been. Since his return to Canada he has been constantly occupied with government matters which induced a slight return of indisposition. In consequence of this Sir Wilfrid was obliged to excuse himself from attendance at the state dinner tonight. He expects to be at his office tomorrow, but doubtless the solicitations of his colleagues and friends to enjoy a vacation which he has so well earned before entering upon the work of preparing for the session, will be accepted to."

Believes Canada Will Become Part of the American Union.

The transition, he said, would come without conquest, without war. After telling of the growth of America in comparison with other great nations, the archbishop said:  
"I do not want to be bellicose, but I say this for myself: 'As sure as fate, although you and I may not see it, the starry banner will wave mistress over all the territory from the gulf to the bay. There will be no conquest, no war. The hearts across the border are already beating with love for us, and commerce and agriculture are calling for espousals.'"

## BOLIVIA.

The Whole Country Declared in State of Siege.  
One of the Generals Forced to Capitulate—The People Greatly Mystified.

NEW YORK, Nov. 11.—Citizens of this city were astonished Saturday evening, says a Herald despatch from La Paz, Bolivia, via Taona, Chili, when government officials posted throughout the town placards which declare the whole republic of Bolivia in a state of siege, owing to the country being threatened. The decree caused intense excitement because of the unexpectedness of the announcement and ignorance of the reason for the government adopting such a step. Two rumors were heard. One was that the Bolivians had been completely defeated in Acre. The other report was that 2,000 Peruvians were on the frontier, near the Madre de Dios river.  
El Comercio El Bolivia prints these official despatches:—"MANAOS, Nov. 7.—Rojas surrendered at Empress for lack of ammunition. (Signed) Monteiro, vice-consul."  
"FETOPOLIS, Nov. 8th.—Advices October 16 confirmed Rojas capitulated. Returns Bolivia via Manaus. (Signed) Pinilla, minister of Bolivia in Brazil. El Comercio, in commenting on the situation, says: "The exact seriousness of the news from Acre is unknown, but the government must be in possession of grave news to take such measures and declare a state of siege which appears unnecessary as the entire country without distinction of party of class will stand by the government. Some persons attribute the government's action to a desire to obtain popularity and to put an end to the senate's opposition to concluding arrangements with Chili. These charges we regard as unfounded, and we recommend government make public all news from Acre immediately after being received."  
Col. Rojas, to whom reference is made in the official despatches to the Bolivian government, was the commander of the Bolivian forces in Acre.

## MASON FREE.

And the Negro Charged With Murder of Clara A. Morton.

CAMBRIDGE, Mass., Nov. 9.—There are two central figures now in the mystery surrounding the murder of Miss Clara A. Morton and Miss Agnes McPhee. One is Alan Gregory Mason, a member of a well known family of Boston, and the other is George L. O. Perry, the negro, who accuses Mason of having given him the watches taken from both Miss Morton and Miss McPhee. Contrary to plans, Perry was not arraigned today on the charge of being accessory after the fact. The state police decided that the institution of such a charge against the negro would mean that he would not have to testify against himself and, therefore, much that should be brought out to lift the mystery might be hidden. As a result Perry was held merely as a witness, with the understanding that a criminal charge will be made against him later should the evidence warrant such a move. Perry is now in jail.

## CAMBRIDGE, Mass., Nov. 11.

George L. O. Perry, the negro held as a witness in the Waverley murder case, was today charged with the murder of Miss Clara A. Morton.

## CAMBRIDGE, Mass., Nov. 11.

Alan G. Mason, held for the murder of Miss Clara A. Morton at Waverley, Nov. 1, was discharged from custody at a hearing today. The discharge was ordered by Judge Charles A. Murray of the third district court of eastern Middlesex today. The government lawyer announced that investigation did not disclose evidence sufficient to hold the accused man, and the court at once announced the failure to find probable cause and ordered the discharge of Mason. Almost immediately after, in the same court, George L. O. Perry, the young negro who was held as a witness against Mason, was charged with the murder of Miss Morton. He pleaded not guilty, and was remanded without bail for a hearing Nov. 18.

## KILLED HIM.

Handsome Kitty Byron Stabbed Her Lover to Death.  
Sensational Tragedy on the Streets of London on Lord Mayor's Day.

NEW YORK, Nov. 11.—A sensational love tragedy has been enacted in this city, in full view of hundreds of people, cables the London correspondent of the Herald.  
A young woman named Kitty Byron, stabbed to death her lover, Arthur Reginald Baker, a well known member of the stock exchange. Before the woman could move she was seized by several witnesses of the deed and given into custody.  
The crime, which had every element of sensationalism, took place just outside the Lombard street post office. Although the city was generally making merry over the lord mayor's procession, there was the usual press of business at this ever busy office. Score of men and boys were passing the spot every few moments.  
Shortly after two o'clock a young woman of attractive appearance, with slight figure, dark eyebrows, black hair and handsome features, went into the post office and sent an express letter to the stock exchange. She waited a few moments, when she was joined by Mr. Baker, to whom the letter had been addressed. For several minutes the couple engaged in conversation near the counter. And then their voices rose and the clerks noticed they were quarreling.  
Finally the man turned toward the street with a gesture intimating that he wished to end the interview. He passed through the door, the woman followed, nervously handling her muff. Suddenly she pulled a knife from the muff and dealt the man a terrible blow on the back. As he half staggered and then partially turned around with one foot on the lower step, the woman withdrew the weapon and struck again, this time plunging it into his left breast. The man gasped and fell heavily forward, his head striking the stone pavement.  
Two clerks seized the woman, who was leaning over the prostrate form as though preparing to strike again. Mr. Baker died on the way to the hospital.  
The young woman was taken to the police court, where she gave her name as Kitty Byron, aged 23, but refused to say anything further. Baker's wife lately instituted divorce proceedings.

## A HIGH FIRE

That May Cost Brooklyn Bridge Contractors \$600,000.

NEW YORK, Nov. 11.—All the men who it was feared perished in the fire which swept the great tower of the New East River bridge last night, have been accounted for. Today careful estimate of the damage is being made. This is difficult to approximate from a monetary standpoint until experts have ascertained the condition of the great cables, three of which may have to be repaired. If this has to be done a loss of at least \$600,000 will fall upon the contractors and there will be much delay in the completion of the bridge, which is one of the crying needs of the city.  
The contractors who will be forced to meet the losses are: John A. Roobings Sons & Co., the Penia, Steel Company of Scranton, Pa., the N. J. Steel Company and Terry and Tronch. The proportion of each has not been figured out, but it is believed that the Roobings will suffer most.  
Engineer Hildebrand said to day he did not know how badly damaged the cables were as yet. All four were damaged, he said, but to what extent he could not say, except that they were certainly so much injured for twenty feet each side of New York tower that it will be necessary to have that much of them replaced.  
"The footpaths were destroyed," Mr. Hildebrand added. "The fire was caused by the carelessness of a workman. It was about grinding time when the fire started. The men grind their tools on the N. Y. tower, and one of them there carelessly threw a match into oily rags. Maybe we can find out who the man was. I do not know at present."
