Trading Again Hits
The Toboggan On
Montreal MarketThere Was Heavy Balance of
Losses Over Gains—Atlantic
Sugar More Active.

Montreal, Nov. 16.—Trading was again in a downward direction on the local stock exchange today with a fairly heavy balance of losses over gains. Renewed activity in Atlantic sugar made that stock the most active. It opened unchanged at 53 and on buying, which included one or two fairly large lot blocks moved up a point to 54 and finally closed half a point up at 54 1/2. An active movement was apparent in British Empire Steel second preferred and the stock was well supported closing unchanged at 31 1/2. The common closed 1/4 at 3 1/2. The other stocks were steady.

Montreal Cottons, preferred, made the most impressive gain of the day selling six points up at 106 and reaching a new high for the year. No special significance is attached to the movement which is regarded as largely due to the scarcity of the stock. The next most important gain was in Canadian Car preferred which sold up 1 1/4 points to 49 1/4 while the common lost 1 1/2 to 19 1/2.

Milling Issues Down

The milling issues moved downward, Galtie selling a point lower at 185 and Lake of the Woods declining 3 1/2 to 145. Preferred of the latter, however, advanced 1/2 to 168 1/2.

Detroit United continued to decline with another 1 1/2 points drop to 58. Lead was off a point to 65 and Ottawa Light Heat and Power sold 1 1/2 lower at 65 1/2. National Breweries on fairly heavy trading lost 3/8 to 66 7/8. Montreal Power was a gainer by a point to 84.

The papers were inactive, Laurentide led the group and declined 1/2 to 13 1/2 while Abitibi gained 1/2 to 15 1/2. Prices from 10 1/2 to 35 1/2. Spanish River was unchanged.

Toronto Railway selling in small lots only showed weakness.

Bond business was good and prices firm.

Total sales, listed 7,360, bonds \$517,930.
