NTOXICATION .- The Gloucester Jourfined for the first offence, three dollars; for the second, six; for the third and

The thrushes, bluebirds, jays and crown fourth, a still further sum; and is also deprived of the right of soling at elections, and of being appointed a representative. He is, besides, publicly exposed in the parish church on the following.

The thrushes, bluebirds, jays and crows prey upon butterflies, grasshoppers, crickets, locusts and large beetles. A single family of jays will consume 20,000 of these in a season of three months.

The woodpeckers are armed with a stout long bill, to penetrate the wood of he is shut up in the house of correction, and condemned to six months? hard labor If he is again guilty, to a twelve months' punishment of a similar description. If
the offense has been committed in public,
such as at a fair, an auction, &c., the
fine is doubled; and if the offender has
made his appearance at church, the punishment is will more severe. Whoever
is convicted of eaving induced another to intoxicate himsex, is fined three dollars, which sum is doubled, if the person is a minor. An eccessastic who

Drunkenness is never admitted as an excuse for any crime, and whoever dies when drunk, is buried ignominiously, and degrived of the prayers of the church. It is forbidden to give, and more expliitely to sell any spiritous houors to students, workmen, servants, apprentices and private soldiers. Whoever is obut his enlargement. Twice a year these ordinances are read aloud from the pulpit by the clergy, and the tavern-keeper up is the principal rooms of bis

UTILITY OF COCKROACHES, -Nothing s made in vain-the caluminated cockoach, the pest and the destation of a writer who has discovered that, like water, and outling more, sold at almost every other animal and insect, it has its natural enemy. He says as people keep cats to clear their houses of pice ; as hedgehogs are converted into lomestic pets, that they may munch up the black beetles that swarm by night; so sometimes it may be expedient to greater puisance than themselves, namely nugs: Webster's " Voyage of the er made their appearance than the bugs entirely disappeared. The conkroach press upon them, leaving no sign or vestigs where they have been; and is, so Flourfar, a most valuable and praiseworthy wheat—Fall per Spring, do the London Entamological Society with the fact (discovered in a boarding house) that the cockronel seeks with dilligence,

SPARE THE BIRDS.

Summer is at hand, and with its plea-Mr. Editor: I have a few words to sures will come the daily numerice to at the say relating to my own experience.

Last fall I had the fever and agae very hard, for a long time, and tried many hard, for a long time, and tried many hard, for a long time, and tried many time matter, knows that even crows and different medicines, all of which were blackbirds are productive of more good said to be infallible. Most of them did than harm, and that the vast increase in me no good; some would break the ague late years in destructive insects, is owing for a few days. At length I adopted a almost entirely to the wanton destruction of birds, which are not even legi-

wystem that cured me in a few days, and my health has been excellent ever since. Many others have tried it by my advice, and been cured in the same way. It is a secret, and never under any pretence are they permitted to be destroyed. During the stay of the expedition at Japan, a number of officers started on a gunning excursion. No sooner did the medicine than cold water should enter the favorites, than a number waited on their favorites, than a number waited on the commondate. the stomach for twelve hours previous to the chills coming on, as the stomach at that time is incapable of digesting any thing; nor should any food or other drink than cold water be taken until after the fever has passed away; then eat as little as possible of bread in cold water, or something very plans. The the less you eat the better; there is no fear of starving anything to death except the fever. Do not let any one persuade you that because you were so sick vessions the commodore, and remonstrated accountable to the officers. There was no more bird-shooting in Japan by American officers after that; and when the treaty between the two countries was concluded, one express condition of it was, that the birds should always be protected. What a commentary upon the inhuman practice of our shooting gentry, who are as eager in the pursuit of a tomtit as of an eagle, and indiscriminately shoot everything in the shape of a bird, which has the misfortune to come within the reach of their

must have something more to-day, for it will eurely feed the fever. When the chill comes on, just gratify nature to the full extent, and drink all the cold water you want, and try to drink a little more. In addition to this, take a cold writer, at least by protecting them

sweet and very likely get so warm to fruit-growing. A thousand plans have to fruit-growing. A thousand plans have been suggested for the destruction of the curculio, all of which have proved is now

way, is thoroughly cured, and has none of the bad effects of drug medicines to combat with, and no doctor's bills to pay. The moral of this is, that the husbandman should cultivate the society of swalows and martins about his land and

The sparrows and wrens feed upon the crawling insects which lurk within the buds, foliage, and flowers of plants. The says that the laws against intoxica-in a cherry tree will soon be appropriatsweden. Whoever is seen drunk is other birds that feed upon the fruit—a
