

Order Your SPRING SUIT To-day--

Save \$2.50 to \$5.00, Besides Getting Better Goods and Better Work and Finish

Absolutely guarantee all Blacks and Blues. Our standard maintained throughout, despite increased cost.

Even the man least acquainted with the technical details of woolen manufacture knows that the available supply of high-grade dye-ware is almost negligible. We may reasonably assume that every one of our customers knows that the lasting quality of the color in a piece of cloth dyed today is a matter of uncertainty. It is open to question and we must be in a position to set his or her mind right on this point if we would retain that necessary confidence.

VICKERMAN'S SERGES AND SUITINGS are guaranteed absolutely fast colors. Will stand salt water or acid test.

Buying in such quantities and placing orders for spring months ago gives this store great advantages over stores buying from hand to mouth.

Choice of tailors, and suits made up to your measure with best linings and trimmings and fit and workmanship guaranteed. You will be dollars ahead by buying today. You are assured of the old reliable dye and you avoid the rush later on when things have to be hurried through.

Paris and New York say **SILKS AND VOILES**

Outstanding features in fabrics are printed and woven—in stripes on white ground, alpaca with jersey cloths—cotton voile and organdie for summer dresses.

For evening dresses, afternoon dresses and for blouses crepe de chine, crepe georgette, odette and yvette will continue to have the same vogue and success.

Drop in and look over the splendid silks, voiles and other desirable materials, and arrange for your dressmaking early.

Large shipments this week of more Spring Goods. Increasing our stocks and keeping pace with the demands.

RESERVISTS AT KIEL.

Seventy Thousand Teutons Preparing for Active Service.

LONDON, Feb. 22.—The Copenhagen correspondent of The Daily Mail telegraphs: A message from Berlin says the co-operative action between the German and Austrian fleets has been stepped up in accordance with proposals of Archduke Charles Stephen and Prince Henry of Prussia. It is reported that Grand Admiral von Tirpitz strongly objected to the German fleet going on the high seas, and preferred submarine and Zeppelin activities. Nevertheless, the greatest naval activity prevails at Kiel and Heligoland, where more than 70,000 naval reservists are ready for duty on the auxiliary boats and cruisers of newly-formed squadrons of various types.

Gen. Leckie Wounded.

OTTAWA, Feb. 22.—Another Canadian brigadier-general is reported wounded in the recent fighting in France. The officer is General Leckie of Vancouver, formerly of the Seaforth Highlanders. The report is that his wound is not serious. The other Canadian General reported wounded is Brig-General Macdonell, formerly of the Strathcona Horse, and some speculation has been occasioned here by the fact that with so few casualties in the Canadian ranks in what is reported as an unusually fierce engagement, two officers of high rank should have been wounded. Generals Leckie and Macdonell are the first two Canadian generals reported wounded in a year and a half of fighting.

SATURDAY.

The Hungarian Minister of Finance has concluded arrangements with a group of German banks for a loan of 150,000,000 marks.

Take a dose in time!

Don't let your system become lowered by the attacks of a cough or cold. "Safety First"—take a dose of Chamberlain's Cough Remedy at once. It loosens the cough so that it soon disappears; it heals the soreness; and it strengthens the throat and lungs so they are unaffected by changes of temperature. Chamberlain's contains no narcotics or harmful drugs. While it gives relief from the first dose it may be safely used with the youngest. All druggists 25c. & 50c.

THURSDAY, FEBRUARY 24, 1916.

The farmer's duty is to take an interest in politics, but not to be married to any political party.

German women are demanding food and the return of their husbands. It is worth noting that food comes first.

If there is any unemployment among able-bodied men in Canada this year, there is something wrong with the men.

Men who have risen from the ranks are becoming increasingly popular the world over, and generally they are most efficient.

The man that is too busy to make hay when the sun shines nearly always has to borrow an umbrella when it rains.

Don't get the idea that the farm will not be worked without you. Let those who are unable to pass the medical examination do your work.

Would it not be a good idea to adopt conscription and apply it only to those war grafters? The danger would be some of them might sell out to the enemy for a consideration.

That a conscription Act is on the Statute Book of Canada and is needed to be put in force will be a surprise to a great many. But such is the case.

The law on the subject is found in the Militia and Defence Act Chapter 11 of the revised Statute of Canada, in Sec. 26, in which it is provided that when men are required to organize or complete a corps at any time, either for training or an emergency, and enough men do not volunteer to complete the quota required the men liable to serve shall be drafted by ballot.

The first to be liable for service are men from 18 to 30, unmarried, or widowers without children, the second class, unmarried or childless widowers between 30 and 45 years; the third class married men or widowers with children between 18 and 45 years and the fourth class all men between 45 and 60 years. Those who are drafted are liable for overseas service.

Thinks Farmers are Confused.

Speaking of rural recruiting, I am glad that the United Farmers of Ontario and that the ploughmen have taken a definite stand. If five hundred thousand men are to be recruited it will be necessary to adopt a properly considered plan for the purpose.

The only light and leading the authorities have given farmers is to tell them that they are expected to produce more, but the recruiting officers are going about everywhere saying that every one who is fit should enlist, even if the farms are left idle. And the way some of them say it is not pleasant to listen to. Apparently their idea is that men must go even if the productive work of the country should come to a standstill.

While this is going on the Department of Finance is calling for greater production so that the credit of the country may be maintained. I believe that the farmers are as willing as any one else to do their bit, but they are confused by the different calls that are made on them.—Peter McArthur, in The Farmer's Advocate.
