

lectures on chemistry and other scientific subjects, Professor McQuarrie has charge of mathematics and, if we remember aright, of moral philosophy. The number attending Divinity is small, not exceeding 7 or 8. There are, however, over 200 attending altogether, including Ladies' classes.

ST. MARK'S CHURCH, MONTREAL.—The Annual Report of St. Mark's shews the total revenue to be \$1,263.50—comparing favourably with former years. The Sunday collections for the year were \$600. There are 246 sittings let in the church. The number of families connected with the Church is over 100, and of communicants on the roll 138.

WE notice with pleasure the induction of our old friend and classmate, the Rev. John Fairlie, to the Pastorate of L'Orignal and Hawkesbury.

At Kingston, the students' missionary association had a most successful meeting on the evening of the 11th ult., in St. Andrew's Hall. Principal Snodgrass was chairman. Addresses were given by Dr. Jenkins, Professor Mackerras and Rev. Andrew Wilson. The collection amounted to \$77. The number of applicants for missionary appointments has increased from *four* to *twenty-one* in three years, and instead of confining their labours to vacant places, it is now proposed to undertake more purely missionary work in new fields; hence the necessity of funds as such places are not likely to be self-sustaining for a time.

THE Rev. Charles I. Cameron, graduate of Queen's College, and well known to some of our ministers, who studied in Glasgow University, expects to return to Canada in September next. He will be a decided acquisition to our brethren in the ministerial ranks. Mr. Cameron spent his last session in theology in the University of Glasgow. While there he acted as tutor in the family of the late Dr. Norman MacLeod, and was induced to take an appointment under the Indian Mission Committee of the General Assembly. For this purpose he was ordained by the Presbytery of Glasgow. After about two years' service in India, his health gave way, and he went to Australia where he has completely recovered, and has been labouring successfully.

REV. DR. BELL, formerly of Clifton, has been inducted to the pastoral charge of the congregation of Walkerton, in the Presbytery of Saugeen.

THE Rev. Mr. Smith of Fond du Lac, Wisconsin, has come after all to fill the "Kirk," which has been vacant for some years. We are much pleased that the pulpit of the Collegiate Church is to be filled by an alumnus of Queen's College. May every success attend him.

Scotland.

THE LATE DR. NORMAN MACLEOD. —The parish church of Crathie, Balmoral, is being enriched with a fine monument of the late Dr. Norman MacLeod. It is a two-light window, each light 9 feet 6 inches by 2 feet 5 inches. The nimbus of the left-hand figure is inscribed "David Rex." The Psalmist is clad in blood-red garments, relieved by a cloud of lace. The background is of rich antique blue, with green and variegated foliage. "Sanctus Paulus" is the name upon the nimbus of the right-hand figure. The apostle is clad in rich blue, soft green studded with stars, and greenish yellow, and stands out against a white-bordered background of ruby on blue. The following is the inscription:

In Memoriam.
NORMAN MACLEOD, S.T.D.
Viri in Ecclesia illustris,
In Republica honorati,
Populo dilecti.
Laboribus domi forisque benignis indefessus,
Catus, comis, egregie cordatus homo,
"Bona Verba" administravit,
Unde ubique gentium
"Volitat vivus per ora virum."
Mortem viri magnanimi inopinatam
Regina populusque
Una mœrebant.
Natus est anno Salutis MDCCCXII.
Obiit MDCCCLXXII.

ORDINATION OF THE REV. J. G. STOBBS, GREENOCK.—At the meeting of the Greenock Presbytery on Monday, the rev. court proceeded to the ordination of the Rev. J. G. Stobbs, M.A., for a number of years assistant to Dr. McCulloch, West Parish Church, the rev. gentleman having been appointed to the pastorate of the Scotch Church, Melbourne. Dr. McCulloch ordained, and at the close, in addressing Mr. Stobbs, said a few words of counsel to a minister in such circumstances, but consider-
