

## Business Notices.

As the design of the CANADIAN DRUGGIST is to benefit mutually all interested in the business, we would request all parties ordering goods or making purchases of any description from houses advertising with us to mention in their letter that such advertisement was noticed in the CANADIAN DRUGGIST.

The attention of Druggists and others who may be interested in the articles advertised in this journal is called to the special consideration of the Business Notices.

**BOXES.**—Boxes, boxes, boxes, all kinds, makes, and sizes, for druggists' use, are supplied by the Hemming Bros. Co., Limited, Toronto, Ont.

**FANCY GOODS.**—Attention is directed to the advertisement of H. H. Fudger, who offers to the drug trade special lines in fancy goods and novelties particularly adapted to the trade.

**PAYSON'S INK.**—By reference to our advertising columns it will be noticed that the London Drug Co., London, Ont., are, together with the parent house in Montreal, general agents for Canada for Payson's Indelible Ink.

**ARECA NUT TOOTH SOAP.**—This delightful toilet article, manufactured by the Martin, Bole & Wynne Co., of Winnipeg, Man., is advertised in this issue. If you have none in stock, include it in your next order to your jobber.

**REDUCTION IN PRICE.**—Read the advertisement of the Powell & Davis Co. in this issue, who announce a reduction in price of their well known *Fly Felts*. These goods command a ready sale, are true fly destroyers, and afford a good margin of profit.

The close proximity of the establishment of Buntin, Gillies & Co., Hamilton, to the different drug houses of that city make it a convenient source of supply for stationery, school supplies, etc. Parcels can come as enclosures, thus saving charges for carriage.

**SPECIAL LINES OFFERED.**—Elliot & Co., Front street west, Toronto, offer this month a number of special lines in their advertisement on page 74a. The popularity of some of their special package goods, which are put in handsome cartons, makes them a particularly attractive form of goods for the retail druggists. We hope in an early issue to make an extended mention of this, one of the pioneer wholesale drug houses of the country.

As will be seen by our advertising column, Dr. W. E. Hamill announces the formation of classes in Optics and Refraction, specially adapted for druggists who wish to obtain the knowledge whereby they may properly fit their patrons with spectacles. As the doctor is a well-known specialist in diseases of the eye, and has recently returned from a two years' visit to the eye hospitals of America and England, we can cordially recommend this course to our readers.

**GARFIELD TEA.**—Amongst the large number of remedies which have been placed before the public in the form of *Teas* for medicinal use none, we believe,

holds a higher place in public estimation than the celebrated Garfield Tea. Druggists who are anxious and willing to increase their sales and enhance the profits of their business can obtain a quantity of free sample packages and advertising matter, charges prepaid, on application to the manufacturers, D. Dunsmore & Co., 271 Queen street east, Toronto, Ont.

**FLY SEASON.**—As the season is approaching when the demand for fly papers will be one of the most frequent of calls on the druggist, we would just remind our readers, and we are sure a reminder is all that is necessary, of the necessity for having on hand a good supply of Wilson's Fly Pads. These pads are so universally known throughout Canada that any druggist's stock would be very incomplete, and his sales materially lessened, if he were compelled to say, "We are just out of them." Place your order early. See advertisement.

**A MANUFACTURING COMPANY ASSIGNS.**—The J. S. Carroll Manufacturing Company, makers of soda water apparatus, have made an assignment for the benefit of their creditors to Charles K. Duffield and Daniel Kornhan. The company was incorporated in 1894. The deed of assignment is dated the 4th inst., and is signed by J. S. Carroll, president, and George W. Bean, secretary. It is said the cause of the failure is numerous suits brought by big soda water apparatus corporations for alleged infringement of patents. The liabilities will be less than \$10,000.

**MAJOR'S CEMENT.**—A. Major, who started the manufacture of Major's Cement in 1876, has moved from 232 William street, New York, to 461 Pearl street, near Park Row, as the building he formerly occupied is to be taken down. It is one of the old landmarks of New York city, owned by the Rhinelander estate. This is the first time Mr. Major has been compelled to move in fifteen years. He is well recompensed, however, for his trouble, as he has moved into a more spacious building, located on a wide street with good sidewalk facilities, and has a store front where he can exhibit his goods to advantage, also the different inducements which he offers to the trade, such as thermometers of different sizes, signs, folding chairs, etc.

**THE PRINCESS OF WALES AND THE EMPRESS OF RUSSIA—RUSSIA'S EMPRESS GAINS STRENGTH.**—The producers of "Mariani Wine" (Vin Mariani) should, according to report, soon have a splendid market in Russia for their nerve and brain tonic, as the Dowager Empress has, at the suggestion of the Princess of Wales, drunk it since the death of her Consort, with the most remarkable and beneficial results. It seems that Her Majesty is one of the many delicate persons with whom stimulating drugs like quinine, iron, and Peruvian bark disagree, but such is not the case with the wine tonic referred to. It is well known that the Princess of

Wales also derived increased strength of brain and nerves from it during her last great trials. Moreover, in consequence of the benefits obtained by the Empress, a great demand for this tonic has sprung up among the ladies of Russian aristocracy suffering from "nerves." *The Court Journal*, London, Jan. 12, 1895.

## Books and Magazines.

The substantial value of "Current History" as the most convenient and concise record published of the world's doings, is becoming more and more recognized. In breadth of scope, reliability of information, clearness of statement, freedom from bias, judiciousness of treatment, and systematic arrangement for reference purposes, this publication has no competitor. Its place as a standard work of reference has long been assured, and it receives the strong endorsement of eminent men in all walks of life, and of all shades of political and religious belief. Buffalo, N.Y.: Garretson, Cox & Co., publishers. Paper, \$1.50 a year; bound in cloth, gilt stamped, \$2.00; half morocco, \$2.50. Sample copies, 10 cents. Sample pages and circulars, free.

THE April number of *Frank Leslie's Popular Monthly* contains a beautifully illustrated article, entitled "How to Become a Prima Donna," written by W. de Wagstaffe. Other pictorial and literary features of this number are: A biographical sketch of Count Yamagata, the contemporary Japanese Von Moltke, written expressly for *Frank Leslie's Popular Monthly* by Teich Yamagata, a near relative of the great Field Marshal; "The World Awheel," being a chapter on the evolution of the bicycle and *la Reine Bicyclette*, by Henry Tyrrell; "Homes in Japan," by George Donaldson; and "Taxidermy as an Art," with illustrations by W. H. Drake, written by Frank A. Chapman, of the American Museum of Natural History. There are also a number of good short stories and poems by distinctively popular writers.

### An Easter Magazine.

Probably no two words in the English language are more misused and abused than "lady" and "woman," and there is much wisdom, therefore, in a popular discussion of the proper usage of the words, such as is given in the April *Ladies' Home Journal*, by Margaret Deland, Mrs. Burton Harrison, and Sarah Orne Jewett. "The Burning Question of Domestic Service" is treated intelligently and interestingly by the Countess of Aberdeen. The cover of this April *Journal* is a reproduction of two of C. D. Gibson's most stylish and charming girls, and all through the issue is the freshness and daintiness of springtime and Easter days. This ideal magazine is sold for ten cents a number and one dollar a year by The Curtis Publishing Company, of Philadelphia.
