Funny Testimonials.

Advertisers get some very funny testimonials. Here are a couple which a stove company has received: "Having used the steel range I bought of you about six or seven week ago, I find that it proves to be the best stove I ever had in my possession for all domestic purposes, and the thermometer on the oven door is a corker. No doubt you would laugh at me if I were to tell you that it has saved my wife many dollars, she being knee-sprung. Now when she stands in front of the oven door she is so afraid of breaking the oven clock, as she calls it, that she is now free of any deformity of the knees, and walks as straight as any young girl of sixteen, though in her fifty-fifth year of age.

W. W. Wrate.

"We received the base burner all right except one knob. There were 17 in the envelope, there should have been eighteen. You can put one in a letter when you write. I will tell you how it works. I belong to the Methodist Church and don't tell any lies. We set up the stove the same day we got it and started a good

pediment by always speaking in the American style?" asked the friend. "I'd a j-j-jolly s-s-sight soo-soo-sooner stutter," answered Mr. Kingswell.

Her Explanation.

A tiny girl of seven gave a dinner party the other day, for which twelve covers were laid, and that number of small maidens sat down to dine. It was a real little girl's dinner, and the hostess herself presided, sitting at the head of the table. She had been very anxious in looking forward to it, to do everything as it should be done.

"Mamma," she asked, "shall we say grace?"
"No," said mamma; "it will be a very informal dinner, and I think you need not do that."

That meant one ceremony the less to go through, and was a relief. But the little lady was anxious to have all her guests understand it.

So, as they gathered about the table she explained:—

"Mamma says that this is such an infernal dinner that we need not have grace today."

Given Up To Die

No. 100 George St., Sorel, Quebec.
"I suffered from womb disease for seven years, with dreadful pains over the front of the body, over the back and down the legs. I had indigestion and chronic constipation and the constipation was so bad that I went sometimes for ten to fifteen days without any action of the bowels. I was ill in bed for one whole year. At one time I was so low that everyone thought I was going to die, and the last Rites of the Church were administered to me. I was treated by six different doctors without any benefit.

Then I got a sample of "Fruit-a-tives," but I had no faith in them at all, and I would not have taken them only my husband begged so hard for me to try them. As soon as I began to take "Fruit-a-tives" I grew better, the bloating was relieved, the sleeplessness was cured, my stomach acted, and the bowels were moved, but above all the fearful womb pains were made easier. I have taken eighteen boxes in all and I am now perfectly well again."

fire. She went off like a duck to water.

The next day the girl put some biscuits in the cook stove in the kitchen and forgot to build a fire, and, thinking of the biscuits at noon opened the oven and found them all baked nice and brown from the heat of the new base burner from the sitting room. How is that for heat? Our chickens were on strike, and when we got our base burner going they got so warm from the house, four rods away, that they commenced to cackle, and that day they laid 15 eggs, yesterday 27. Expect 30 today.

"My neighbor came down today to see the new stove. He says there is a warm current of air coming from our place that must come from the new stove. He says the stove is a dandy. He thinks he can save coal when the wind is in the south.

"Now, we are four in the family and all thank you for your kind dealing, and if we can help you we will be glad to do so by praising your stoves.

"Jacob Hake."

Choice of Evils.

Mr. G. H. Kingswell, part owner of the Rand Daily Mail, is the first South African delegate to the Imperial Press Conference to arrive in London, and his many friends have been delighted to meet him again. Although Mr. Kingswell has something of an impediment in his speech, he tells many a good story. A friend once observed that, when he was relating yarns containing American dialogue, his stammering left him. "Why don't you get rid of your im-

Ninety-five per cent. of the cases of deafness brought to our attention are the result of chronic catarrh of the throat and middle ear. The air passages become clogged by catarrhal deposits, stopping the action of the vibratory bones. Until these deposits are removed, relief is impossible.

The inner ear cannot be reached by probing or spraying hence the inability of specialists to always effect a cure. Neither can ear drums cure deafness. But there is a scientific treatment for deafness and catarrh which is demonstrated every day by the use of Actina. The vapor generated in the Actina passes through the Eustachian tubes into the middle ear, removing the catarrhal obstructions and loosens up the bones (hammer, anvil and stirrup) in the inner ear, making them respond to the vibration of sound. Actina is also very successful in relieving ringing noises in the head. We have known people afflicted with this distressing trouble for years to be entirely relieved by a few weeks' use. Actina has also been very successful in the treatment of hay fever, asthma, bronchitis, sore throat, weak lungs, colds, headache and other troubles that are directly or indirectly due to catarrh. Actina will be sent on trial post-paid. Write us about your case. Our advice will be free as well as a valuable book—Prof. Wilson's Treatise on Disease.
