

"Jaeger" Golf Coats**ARE IN DEMAND**

If you golf you should wear Jaeger Coats.

They are very elastic, you can get a good swing in them, and they do not hamper any of your movements. Besides that, they look well and wear well throughout the season.

Jaeger's Golfing Coats are made to meet the exacting requirements of golfers everywhere, and they fill the bill in every particular.

All material used is passed upon by our Scientific analyst and adviser.

**Editor's Talk**

THE contents of this issue are, to say the least, not monotonous. The illustrated article by Rev. Austin L. Budge, on the Presbyterian General Assembly and Moderator McQueen, goes to print just as the Assembly meets in Toronto, and as Synods and Church Conferences are coming together all over Canada. The Monocle Man, with his usual discerning aptitude, discusses the folly of "Bib" censorship of plays, as evidenced by the recent fate of "Deborah" in Canada. There are pictures of public men at the races, and other men who have received senatorships. The article by Dr. J. O. Miller is a serious, constructive note on civic government, as seen in Germany. "Mercenary Marriages," as discussed by M. J. T., in the Woman's Supplement, is very appropriate to the month of many marriages. The story, "People on the Wall," is a strongly imaginative piece of work.

On June 28th we shall publish our regular Educational Number, which, we hope, will deal with educational problems as interestingly as the Tourist Number last week pictured the places of travel interest in Canada. Further announcement of the leading features in this Educational Number will be made next week.

**BECK'S****Imported
GERMAN
LAGER**

Brewed and Bottled in
Bremen, Germany

BECK'S LAGER

has a much finer flavor than other
so-called German Lagers.

For sale at all Hotels and
Liquor Stores.

**PEASE
"ECONOMY"
FURNACE****Burns Air**

The ingenious air blast placed above the firepot, draws air in over the coal and burns it in combination with the coal gas.

This aids in the combustion of the coal—gases are consumed which would otherwise escape up the chimney.

This adds to the heat—prevents waste of coal and helps bring true the statement that a PEASE FURNACE "Pays for itself by the coal it saves."
