The Hon A. Meighen K.C.M.G.  
Ottawa.

Dear Sir,

It will probably be still within your recollection, that when your esteemed self, was Premier, I sent you some M.S. entitled, "The establishment of a Cooperative Commonwealth between Great Britain, the whole of her Colonies, Protectorates"

There will be a meeting of the Imperial Conference, this summer in London, & it is highly desirable that the Commonwealth ideal should be the prime feature to the exclusion of everything else.

It is beyond doubt the most urgent problem which confronts the British Race today. When I last approached your esteemed self, I was fighting for the problem everywhere, but happily there is today in existence a Society the League of the British Commonwealth, of which I am a member
