LETTER BOX

VICTORIA AVENUE.

The Editor of The Planet:

Dear Sir,—In the report of the Council proceedings Alderman Moun-mer reported that the valleys, ravines and canyons of Victoria Ave. were being filled up. I would like to ask the worthy alderman when, where and how the holes were filled up. I think he must have dreamed it, or, occupying the exalted position of chairman of the Board of Works, has turned his brain. Now, Mr. Chairman, the holes still exist in all their pristine beauty, and an anxious public is still looking for the oil magnate to attend a little, just a little, bit to the public affairs, and receive the dividends of a grateful public.

MAC.

WEED CUTTING.

Editor Planet:

Our aldermen have actually woken

up to the fact that there are weeds in the city that should be cut. But, as we so frequently notice in other matters, they are a little late. Of course by waiting they have assured a great crop of ripened seeds, and consequently another excellent crop of weeds next year. And our aldermen will again be able to draw the attention of the Governor-General or other visitors to those grand weed growths as indisputable evidence of a fertility of soil, and any aldermanic supervision with which no other city can possibly compete.

By the way, I might mention that if the city wishes to become permanently rid of those great burdocks all that is required is to put a handful of salt around each plant, and in a few days the top will die and the root begin to rot, and next year the city employees can attend to other things of a more permanent and profitable nature than weed cutting.

MRS. MCKEE GOES BACK.

Reply of British Postmaster-General to Mayor Drake's Proposal.

Windsor, Aug. 27.—Sergt. Barrington of the Royal Irish Constabulary arrived in Windsor Tuesday, and began his homeward journey yesterday with Mrs. Ellen McKee, the defaulting postmistress of Tubbermore, Ireland. In answer to a letter written by him to the Postmaster-General of Great Britain asking for leniency in the prisoner's behalf and stating that the citizens of Windsor were prepared to make full restitution to the postoffice department for both the delinquency and expense incurred searching for the former postmistress, Mayor Drake has received a reply, saying: "That as it is a criminal offence to receive back goods which have been stolen or to receive other amounts as a condition not to prosecute, it is not in the Postmaster-General's power to adopt the course suggested in your letter. The Postmaster-General desires to say that he fully recognizes the kindly feeling which has prompted your inquiry, and that he much regrets that he is not in a position to send you a more favorable reply."

WORLD OF SPORT

LAOCROSSE

ST. THOMAS IS DEFEATED.

St. Thomas, Ont., Aug. 26.—About one thousand people witnessed the fastest game of lacrosse of the season in St. Thomas, for the Junior C. L. A. championship of districts 5 and 6, resulting in Wallaceburg's favor, 4 to 2. Both teams played fast lacrosse and did some fine stick work. The field was very muddy and handicapped the teams. A return match will be played in Wallaceburg Friday.

Manager Frank Babcock, of the local club, saw the game at St. Thomas yesterday, and says the Chatham team is superior to either team of yesterday's match and can play faster lacrosse.

PURITY. LAGER BEER

"The Beer That is Brewed in Glass"

Ours is the only plant in Western Ontario having a glass-lined, closed tank system, which is the only system affording absolute security against pollution of the beer.

Wood rot, green wood rot faster than dry, quickly seasoned wood rot quick-est of all, and when exposed to air and water in brewers' cellars wet rot comes on rapidly, and the beer brewed in open tanks is injuriously affected by it.

Our tanks are like a bottle inside, clean, no mould, no slime, no chance for rot. Which is better, beer made in a closed, glass lined, steel tank, or in an old mouldy wooden one?

Color is no indication of strength as producers of thin, watery beer resort to coloring matter and other materials to conceal its weakness. A good beer gives a "full mouth" feeling when drank.

A heavy foam is no indication of good quality, in fact in many localities they demand less foam and more solid beer. Brewers of weak beer often try to tempt the consumer by furnishing a beer charged with Kreusgen (beer 24 hours old) and having a beautiful cream, but if used to any extent is sure to produce sickness.

Poor goods are nasty competition and the public should sustain those producing the better goods.

A pure beer is a pleasant beverage and very healthful and should always give off a delicate aroma of hops and malt only. Any other smell or taste is almost POSITIVE EVIDENCE OF AN INFECTED AND IMPURE BEER.
