For the Information of Travellers between Windsor and Parrsborough, &c.

THE Parrsborough Packet sails regularly between Windsor and Parrsborough every week, from the first of April to Christmas, viz. leaves Parrsborough on Monday, wind and weather permitting, to arrive at Windsor on Tuesday; and will sail from thence the first high water that happens at or after eight o'clock in the morning of that day.—The Packet frequently goes twice or three times a week, when business requires it.

Directions for Halifax Harbour, taken from the Printed Directions in the Custom House at Halifax.

Sambro Island and light house is in latitude 44 deg. 30 min. N. and longitude 63 deg. 32 min. W.

From the westward, bring the light to bear N. E.; if it bears more easterly, stretch to the southward till it bears N. E. and as much more northerly as you please, there being no shoal or ledge to the southward; then keep it open on your larboard bow: give it more than a mile and a half bith, as much more as you please.

Note—The western ledges lie from the light S. W. distant two miles, the other W. S. W. about one league; the eastern ledges lie in a range nearly, some above water; the outermost one mile and a half from the light, bearing from it E. N. E.

When the light bears north, distant about 2 miles, run N. E. 4 miles, then north will carry you to Chedabucto Head, at a proper distance clear of all danger.

When a-breast of Chedabucto Head, run N. $\frac{1}{2}$ W. for the south point of George's Island.

When within $\frac{1}{2}$ a mile of George's Island you may enter the harbour west of it in 12 fathoms, or east of it in 15.

In passing between Sandwich point and Meagher's beach, run nearest the point, to shun a shoal which runs off S. W. from the beach.

There is also a shoal lying one mile south of Sandwich point.

Coming from the eastward, run for the light, and you cannot fail seeing Chedabucto Head as you open Halifax harbour; the light being 4 miles distant from the Head to S. W.
