

A BIG THING

LOOK
INTO
IT

ATLANTIC REFINING COMPANY,
Foot of Jarvis Street, TORONTO, ONT.

NOW IS THE TIME

And the only time to do anything worth doing. If you have consistently studied the situation you know you need a combined churn in your creamery.

The Victor Combined Churn and Butter Worker

Is the machine that will get you in line to compete with other creameries employing modern apparatus. It will increase your yield, improve the quality of your output and save your labor. All this means more money in the treasury and larger dividends to the patrons. Let us quote you prices. Rollers and Engines, Australian Boxes, Refrigerating Machines, Hansen's Butter and Cheese Color and Rennet Extracts, Wella, Richardson & Co.'s Improved Butter Color, Spruce Tubs, Stearn's Style Spruce Tubs, Victor Combined Churn and Worker, Ideal Skim Milk Weigher.
