## The Tractor Demonstration

(Continued from page 6.)

sented just as great a variety as the more outstanding characteristics.

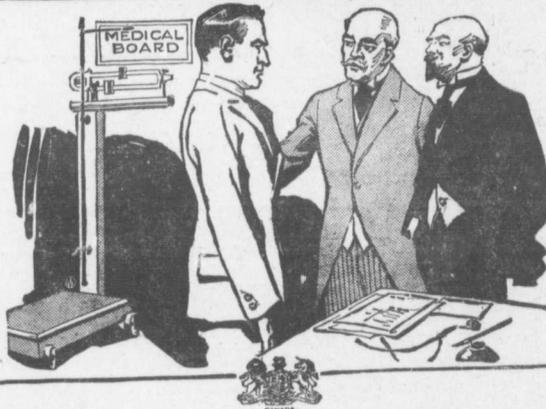

### Fuel Used.

With a single exception all of the tractors were equipped to run on either kerosene or gasoline and were demonstrating with coal oil. This alone is a long step in advance. Most of them, however, were started on gasoline. It was noticeable, too, that the wide, heavy wheels of a few years ago, are disappearing. The lugs are now in many cases being extended out beyond the wheel rim. These extension lugs do not pack the soil and actually take a firmer hold on the ground than the drum wheel of earlier days.

In one respect the demonstration was badly managed, the tractors were spread all over 1,000 acres of land and it was a full mile between tractors at the two extremes of the farm. This made comparisons difficult, as some tractors were plowing in soil that had baked hard and turned out in great slabs, while in other fields the soil was moist and plowing conditions ideal. The sensible arrangement, from the spectators' standpoint, would have been to allot a 50-foot strip to each tractor and had them all in a row and under uniform conditions. The demonstrators, too, would have welcomed such an arrangement. The object of the management, however, seemed to be to get as much land plowed as possible, irrespective of the convenience of either spectators or exhibitors.

The civic farm is ideally suited to tractor farming. The fields are fairly level and the soil a clay loam, free from stones. Many of us would like to see tractors demonstrating their ability to work on heavy grades and on stoney or gravelly soil, as are thousands of farms in Ontario who would have a vital interest in a demonstration under less favorable conditions than those found at the demonstration last week.

The tractor companies represented were: R. A. Lister Co., Toronto (Avery); Bull Tractor Co., Minneapolis; Allis-Chalmers Co., Toronto; J. T. Case, Racine, Wis.; Challenge Tractor Co., Minneapolis; Cleveland Tractor Co., Cleveland, Ohio; Rain Drive, Toronto; Hessian, Tiller, Toronto; Dauch Mfg. Co., Sandusky, Ohio; Dennison Tractor Co., Cedar Rapids, Iowa; Elgin Tractor Corporation, Elgin, Ill.; Essex Tractor Co., Essex, Ont.; Gould, Shapley & Muir, Brantford, Ont.; International Harvester Co., Hamilton, Ont.; Jno. Lawson Mfg. Co., New Holstein, Wis.; La Crosse Tractor Co., La Crosse, Wis.; MacDonald Thresher Co., Stratford, Ont.; Monarch Tractor Co., Watertown, Wis.; Moline Plow Co., Moline, Ill.; Rock Island Plow Co., Rock Island, Ill.; Sawyer-Massey Co., Hamilton, Ont.; Waterloo Gasoline Engine Co., Waterloo, Iowa. A small tractor for garden work, developing just four horsepower, was exhibited by the Beeman Garden Tractor Co., Minneapolis.

## These Men Will Help You Decide

Are you liable to be selected for service under the Military Service Act?

The answer to this question is being made readily available for you. Remember that the first class to be called includes only men between the ages of 20 and 34, both inclusive, who are unmarried or widowers without children, those married after July 6, 1917, being deemed single for the purposes of the Act.

Medical Boards are now being established throughout Canada. These Boards will examine, free of charge and obligation, all men who wish to be examined as to their physical fitness for military service. They will tell you in a very short time whether your physical condition absolves you from the call or makes you liable for selection.

It is important that you obtain this information as soon as possible. A certificate of unfitness from a Medical Board will secure for you freedom from responsibility under the Military Service Act from any Exemption Tribunal. A certificate of fitness will not preclude an appeal for exemption on any ground.

In order that you may be able to plan your future with certainty, visit a Medical Board as soon as possible and find out if you are liable to be selected. Your family and your employer are interested as well as yourself.

Issued by  
The Military Service Council.
