Questions and Answers.

Miscellaneous.

Sugar Beet Pulp.—Blister.

1. Which has the more feeding value, sugar-beet pulp or turnips?

2. My mare has a sprained chord in one of her hind legs. The veterinarian says a blister would be the best thing. What would be a good blister?

M. J.

Ans.—1. Turnips.

2. Try two drams each of biniodide of mercury and cantharides, mixed with two ounces of vaseline. Tie so she cannot bite the parts. Clip the hair off around the parts. Apply the blister once daily for two days, rubbing in well. On the third day wash off and apply sweet oil. Let loose now and oil daily until the scale comes off. Repeat in a month if necessary.

Roup.

I have a fine flock of Brown Leghorns. They have been in fine condition all along, but the last few days I find that they have a swelling around the head, their eyes swell shut, and soon die. Tell me what you think the trouble is, and what you would do for them.

Ans.—The hens are likely suffering from roup. With all those which have reached the advanced stage, killing and destroying should be resorted to. Disinfect and clean up the pens. Put some potassiun permanganate in the drinking water of the rest of the fowls. Use about what can be placed on a five-cent piece to a gallon of water. This disease is very contagious, and is caused by drafts. Bith

Horse Stable.

I am going to baild a barn 21 x 30, to accommodate team and rigs below. I want to tile to main drain so as to have surroundings dry. I can get choice gravel, sand, and large or small boulders for the drawing of about one infe. I am within one and a half miles of a lumber-yard.

1. Which one of the three would you consider best to build, cement basement, stone basement, or one thickness of lumber full height, suitable for painting, and stable double - boarded, with paper

between, on scantling inside?

2. Would 2 x 4 scantling do for aprights full height, 14 feet?

rights full height, 14 feet?

3. Which, a tile drain from main under barn and beyond, or one each side of barn?

W. D.

Ans.—1. The double - holfrided and papered basement would be dry and warm, and, all things considered, preferable. However, either stone or cement is good, and if proper ventilating systems are installed, would be satisfactory. Horses generally do better in a frame table.

2. This depends upon the overhead storage. Heavier would be better.

3. Tile all around the outside of the wall at the base, and leading away into one drain

Sale of Farm etc.

1. In the sale of a form, what is removable by the former owner; in the house, in the barn, and on the form, such as troughs, and the bought for a dealn which was started by not constituted.

2. Is the railway conspelled to care many water 9 \
3. When will remove the gross caused

Ans.—1. Nothing considered as a permanent fixture in Fouse or barn many be peroved. He cannot take away advisions which is removing will depart the core or barn. Regular watering theories specially decided. The tree smooth have been

Basic Slag

If you are a user of fertilizers it will pay you to get an experience of **Basic Slag** this season. This fertilizer will cost you \$10 to \$15 per ton less than anything you have hitherto used, and will give at least as good results.

Basic Slag is no Untried Fertilizer

Fifteen thousand tons were used in Nova Scotia in 1914, and 6,000 tons in Quebec. What is good for the Nova Scotia and Quebec farmer will be found equally profitable in Ontario. If you are in doubt, ask any man who has farmed in the Old Country during recent years as to the merits of **Basic Slag**.

Where we have no local agent, we will supply you' direct from the factory in ton lots at \$20 per ton, delivered free at any station in Ontario. Cash with order. Descriptive pamphlets and all particulars on application to
