# LOAD HAY

## 2 Tons in 10 minutes

No two men could ever keep up with our Champion Hay Loader. Just think of the time saved—perhaps on a day when it threatens rain: Drive to the field, attach the Loader, and in ten minutes have a great, big load on, ready to put away in the barn. How soon would it take to pay for that Loader with the hired man's time it would save?

### The Champion

will work easily in light or heavy hay. Wood parts exposed to wear are sound maple. Teeth are malleable iron, and so nicely bent at the ends that they do clean, neat work. Rollers are larger and stronger than on any Loader we know of. A strong spring under either end of tooth-bar relieves the strain and twist caused by stones or other obstructions. Slats cannot rip out because carrier-ropes pass around each and are stapled. The Champion Hay Loader has a cylinder 6 feet wide. We could go on for half a page and tell the good things about this machine. But send for our "Farmer's Ready Reckoner" and catalog *free*. Both free. There you can read of them at your leisure. We have an agent in your vicinity who will gladly answer any question you wish to ask.

PLEASE MENTION THIS PAPER.

For  
all kinds  
of  
Baking

—for Bread, Biscuits and Pan Cakes—for Pies, Cakes and Fancy Pastry—no flour, milled of a single kind of wheat, compares with a BLENDED FLOUR.

It bakes whiter and lighter—it contains more nutriment—and it yields MORE bread etc. to the barrel.

"Made in Ontario"

## Use A Blended Flour

(of Ontario and Manitoba Wheat)

and you use the perfect flour.

BLENDED FLOUR combines the splendid food properties of Manitoba wheat—with the lightness and nutty flavor of Ontario wheat.

TRY A BLENDED FLOUR—the result of your first baking will PROVE its superiority.

This trademark is on all fine BLENDED FLOURS. It is the sign of quality.

Look for it on every bag and barrel you buy.
