

## Simplicity in Rock Crushers

### THE MITCHELL IMPROVED CRUSHER No 1-B

New 1914 Model, Mounted  
on Trucks with Power  
Attached

and has jaw opening of 7 to 12 inches, which will receive rock 5x11 and crush to any size. It will reduce 3-inch rock and ore to sand in one operation. Instantly adjustable to any size. Means more work and larger profits. Have your own power with the Crusher. This will amount to Dollars for you. This Crusher forms a portable plant, that would greatly increase the capacity of any contractor's or road-builder's equipment. This outfit is especially designed, and it is adaptable to all conditions.

## Wettlaufer Mixers

### Start the Season Right !

Use Wettlaufer mixers from the very start. In the spring, when you are rushed, you will have no time to investigate, compare and watch demonstrations of concrete mixers.

**Do it Now !**

### Wettlaufer No. 1 Heart-Shaped Mixer

**300 used in the  
City of Toronto**

Visit one of our showrooms now and carefully investigate our claims for the Heart-Shaped Mixers. The **Wettlaufer Heart-Shaped Mixers** save time and money every day—they mix faster and more thoroughly than any other mixer on the market.
