BELLOWS FALLS, VT.

Sixteen years' use has conclusively proved the durability of the U.S., and it makes dairying more profitable than other machines because it **GETS ALL THE CREAM**

The reliability of the U.S. is indorsed by leading Agricultural Colleges and Experiment Stations throughout the country. For example:—"April 29, 1907.—Your separators continue to give us perfect satisfaction. Since our last report we have tried two more machines, and of all the nine machines tried up to the present, none have skimmed closer than the U.S." Can send you 20 letters from them if you want. The U.S. is acknowledged THE standard cream separator.

Columbia River Fruit Lands, Kootenay, B.C.

Improved ranches and wild land sold direct to settlers without brokers' intermediate profit. Locations made for settlers. Reports on land and general land surveying.

J. D. ANDERSON, British Columbia Government Surveyor
TRAIL, B. C.

Baron's Pride, a big upstanding two-year-old, with lots of quality and with a good back, well muscled and straight. Roals were coming along at the time of our visit, Lady Kenmuir having just dropped a fine filly to the embrace of McBain. One of the good points about the Rankins' system of breeding is that their breeding animals are not pampered; the mares are worked continuously and regularly.

In the Shorthorns, the stud bulls are worthy of note, such being General, a roan aged bull got by the noted Stanley, a mellow, well-covered fellow and a very valuable sire, for he gets no culls, giving his progeny his easy keeping, good fleshing, strong constitution qualities, and the old time show-yard veteran Sir Colin Campbell (imp.). At the present time there is a good opportunity at Melrose Stock Farm, Hamiota, to secure a good herd header, at the time of our visit eight splendid bulls from one year to two years old being on hand, good colors, reds and roans. Included in the lot is Jim Hill 51587, red and little white, a growthy, strong two-year-old, a full brother to the W. H. English's show cow, being by General out of Lady Alice 4th. Good ones are, the three-year-old cow Highland Mary, a level fleshed thing, and the three-year-old red roan Rosebud, extra strong through the heart, she has a fine white heiter call at foot. In the herd is Rose Flower (imp.) 48596, bred by Alex. Watson, Auchronie, Skene. This cow is practically the same breeding as Gardhouse's Scottish Prince (imp.), the senior champion Shorthorn bull at Toronto last year. Rose Flower has proved a breeder, for Red Rose 72120, a red two-year-old by Sir Colin Campbell, Red Rose 2nd 79422, a yearling, and Rosebud are out of her. A very square heiter with show-yard quality is a red three-year-old, full sister to Jim Hill, and another is the low down heiter Violet, a red with a little white. The herd numbers sixty head, so that plenty of choice is offered prospective buyers. Prices are right and as the intention is to reduce the numbers owing to lack of stabling and help, people wishing Shorthorns or Clydesdales should communicate with Messrs. Rankin. They have the bell phone.

JOHN GRAHAM IMPORTS MORE HORSES.

Carberry show is noted for the horses brought out. Horses from that bazaar have annexed prizes at Winnipeg and other Western shows, the cause being largely the importation of first class stallions and mares into the district. John Graham has contributed quite largely to the beneficial results referred to and a recent importation shows that he is still at the work of aiding in the improvement of the horse stock of Western Canada. The last shipment included ten Clydesdale fillies, two and three-year-olds, six Shetland stallions and one filly. The two-year-old fillies are large, with lots of quality, and kits and feet of the best, but after the long trip are thin but in good shape for discerning horsemen to pick good brood mares or future winners. The stallions include a big Baronson two-year-old bay with white foreshins and feet, Baron Venture by name, a horse with a lot of come to him, and a three-year-old bay with some roan hairs and a white face by the noted horse Up-to-Time. Among the mares is the three-year-old Gallant Lady, a dark brown, three white legs, got by Gallant Pride; Zilla, and by Lord Stewart out of an Orlandomare, her great grandsire being Flashwood. This three-year-old is a brown with a white spot in the forehead. Another is Kate of Ardwall, a brown three-year-old mare with ratch on face by Carberry out of a Mains of Airies mare; then there is Cardian Lady, a bay by Mercutio out of a Moncrieffe Marquis mare. Extra good mares are Beau Parc Queen (Vol. 28, p. 68), a black, white striped face, by King Tom, out of a Money mare, and Culhorn Maid (Vol. 28, p. 12), Mercutio. This brown filly, with a white face and third legs white, is out of a William the Conqueror mare. Ardwall Susie, a bay by Mercutio, Glasgow premium horse out of a Moncrieffe Marquis mare; Lily Brandy (Vol. 28, p. 15), a bay two-year-old; Baronson, out of a Prince of Cam.

Ideal Fence is Made to Last

Any farmer who knows fence knows Ideal is his kind as soon as he sees it. He sees the big, strong wires and how they are put together and that pretty nearly settles it.

When he wants particulars, he gets them straight. He finds Ideal wires are all No. 9 wires, the heaviest that are used for fencing in Canada. ALL No. 9, mind you; not big at top and bottom with some flimsy light ones in between.

He finds they are all of hard steel. Just about twice the strength that you get in soft wire fences. He sees that the upright stays are substantial (they are No. 9, too) and he knows they help do the work of the posts. When he examines into the way the big, strong horizontals and uprights are locked together at every crossing, he knows that when he puts up Ideal fence it's there to stay.

Take a look at the lock shown below.

There's no getting away from it, it's the best thing of the kind used on any fence—grips the wires at five bearing points. It makes every part, strengthen every other part. There are no weak places. The fence is one complete whole. Extremes of heat and cold don't make it sag. Climbing nor anything else won't loosen it.

Don't you want that kind of a fence? It is the Standard railroad fence of Canada. More of it sold for farm use than any other. Just write and let us mail you our book on fencing, giving particulars.

It's free for the asking if you say you saw our ad in this paper.

THE IDEAL FENCE CO. Ltd.
Dept. B. Winnipeg, Manitoba.

Consumption Book FREE

This valuable medical book tells in plain, simple language how Consumption can be cured in your own home. If you know of any one suffering from Consumption, Catarrh, Bronchitis, Asthma or any throat or lung trouble, or are yourself afflicted, this book will help you to a cure. Even if you are in the advanced stage of the disease and feel there is no hope, this book will show you how others have cured themselves after all remedies they had tried failed, and they believed their case hopeless.

Write at once to the Yonkerman Consumption Remedy Co., 154 Rose Street, Easton, Mich., and they will send you from their Canadian Depot the book and a generous supply of the New Treatment, absolutely free, if they want every sufferer to have this wonderful cure before it is too late. Don't wait—write today. It may mean the saving of your life.
