GRAIN GROWERS! We have now in course of construction at Calgary a large Malting Plant, and will be in the market next fall for large quantities of suitable Malting Barley. Producers of Barley tributary to Calgary are requested to communicate with us regarding any information required concerning the growing and harvesting of barley for malting purposes.

The Canada Malting Co., Ltd., Calgary, Alta.

"GOPHERCIDE"

(Registered)

Exterminates Gophers

"GOPHERCIDE" is a new poison, of which strychnine is the base. Our chemists have produced it, after months of experimenting, expressly to meet the needs of the Western Farmers, of whose crops the gophers have taken such heavy toll.

"GOPHERCIDE" has all the killing qualities of strychnine, and is far superior for these reasons:

"GOPHERCIDE" dissolves quickly and completely in warm water. Neither acids nor vinegar are necessary in its preparation. One 50c. package makes a half-gallon of solution—enough to poison a gallon of wheat and kill over 350 gophers.

EVERY particle of grain soaked in "Gophercide" solution is evenly saturated and thoroughly poisoned.

BECAUSE "Gophercide" penetrates so completely, the grain retains the poison indefinitely even when exposed to the weather at the gopher holes. This point is most important.

IN "Gophercide" the extremely bitter taste of strychnine has been overcome, so that the gophers eat it readily, and die almost instantly.

"GOPHERCIDE" has been thoroughly tested in Manitoba, Saskatchewan and Alberta, and has proved easier to handle and more effective than any other preparation.

GET a package of "Gophercide" and see for yourself how easy it is to prepare the poisoned wheat and destroy the pests. If your druggist cannot supply you, write our nearest Western branch.
