MEN STOLE A LOCOMOTIVE, TUBA LOOSE THE WHISTLE

Engine Was Discovered Ten Miles from Where it Had Been Taken-The Stereeching Had Not Stopped

NEWBURG, N. Y., Nov. 20-Two men entered the round house at Hopewell Junction, on the New Haven road, last night and, tying down the whistle of a locomotive, opened the throttle and proceeded down the road at a mile a minute clip, with the whistle screech-

It was a daring ride, for they were without lights, had no orders and did not know what was ahead of them. Soon after the departure of the locomotive its absence was discovered and the station agent in Hopewell Junction telephoned to Fishkill Landing, Matteawan and Durchess Junction, asking the police and station agents at these places to be on the lookout for engine No. 48, which had been stolen by two men.

A few minutes later the police of Fishkill Landing heard the whistle of the aproaching locomotive, and after waiting for some time they discovered tts din A man went out to investigate and found the stolen engine on the trestle a short distance from Fishkill Landing. The men had abandoned it and made good their escape. About two o'clock this morning a train went to the place and took the locomotive back to the roundhouse at Hopewell

The culprits have not been apprehended, and no cause has been assigned for their daring adventure. The men rode ten miles in the stolen locomotive

Produce Exchange Clerk Accused of Swindling Customers of Large Amounts of Money.

NEW YORK, Nov. 21-The Press today says: Charged with using the letterheads of the Fruit and Produce Trade Association in Warren street to lure thousands of dollars from investers in fictitious stock, George Dillon 18 years old, an \$8 a week clerk, waived examination in the Tombs court yesterday and was held in \$2,500 by Magistrate Walsh to await the action of the grand jury. The complainant against Dillion was Ward W. Smith, manager of the Association and attorney for the American Copper and Gold

Assistant District Attorney Krotel said Dillon used the Asociation's stationery to induce its customers to invest in the Eastern Trust Company at \$100 a share. Dillon, it is charged, signed himself assistant attorney of the fruit and produce concern, but also in other letters signed the name of C. H. Adams. President of the Eastern Union Trust Co. Dillon cashed a \$200 draft on the Union Bank of Brooklyn drawn by Francis Vandresser of Hoiland Patent, New York, and also one for \$300 from a man in Wisconsin, Krotel said that he had evidence showing that Dillon had received more than \$10,000 from unsuspecting customers of the Fruit and Produce Trade Association and that it came no nearer, but kept up from those of the American Copper and

ANOTHER DONALDSON LINER. About nine o'clock this morning the Donaldson Liner Orthia which is the last steamer on the summer schedule, passed Brier Island bound to St. John from Glasgow. The Orthia sailed from Glasgow on the 7th inst and has a good general cargo which includes 23,571 pags of coal. After discharging here the ship will sail for Glasgow via Baltimore. With the above arrivals and the big C. P. R. Liner Empress of Ireland due here the last of the week from Liverpool via Halifax, the winter port business will once more be under way. It promises this season to be the larg-

MAILS AND PASSENGERS.

The Empress of Ireland on landing the mails for Canada at Halifax will hasten to this port where she will land her passengers and the China mail. The mail which is carried from Liverpool to Hong Kong via the C. P. R. will be sent west by special train with the saloon passengers, and there will be little or no delay on the ship's arrival here. If the Empress is obliged to remain outside the harbor the mails and passengers will be landed at Sand Point by tender. As soon as the ship arrives this will be rushed through. The Empress of Ireland has a couple of car loads of China mail to be transferred here on this voyage.

THE TUG CRUIZER.

The majority of C. P. R. officials and about every shipping man and others along the harbor front were given a big surprise this morning about nine o'clock, when they saw a large British ocean going tug steam into the harbor with flags flying. She was in charge of Pilot Richard Cline, jr., and dropped anchor off Sand Point. The news of her arrival spread quickly, and the report followed that she was a new purchase by the C. P. R. The officials at present in St. John

not know just where the new tow boat or tender will be used, but that it is possible she will be sent to Halifax to act as a tender for the landing of the mails. It is learned, however, from good authority that the tug will remain right here in St. John harbor where she will have the most work to do. In Halifax there will be only the mails and baggage, and she will also assist in the docking and other towing for the C. P. R. steamers. Local tug and do not discuss further the matter

The new purchase of the C. P. R. is one of the finest and most powerful tow boats that has ever visited the port. At eleven o'clock she docked at the new McLeod wharf and is the centre of interest along the harbor front. When a Star reporter climited on board he was kindly met by Captain Richard J. Walter, who is in command, and Captain John Edward Hicks, who was the navigator of the steamer on her voyage to this port.

The Cruizer flew to the breeze from her foremast a white flag with her name in green letters, bordered with Shamrocks. In answer to the reporter's inquiry if the ship was an Irish boat, Captain Walter laughed and Thomas Lipton, "and," said the Capt., Thomas ipton, "and," said the captain, 'we have Sir Thomas' own house flag A Nashville lady found a way to on board, which is 26 feet long." Marconi and De Forrest Com panies Declare There Will Be No Amalgamation

London Offices are Without Information Concerning the Source of the Statement Issued in America.

LONDON, Nov. 20-A cable despatch received in London to the effect that an apparently authorized statement had been made regarding an amalgamation of the De Forrest Wireless Telegraph Company with the Marconi Company is rather puzzling to those in London who are interested in the matter.

I called today at the Marconi office, and though I did not see Mr. Hall, the managing director, who is out of town, I was told by the official in charge of the publicity department that nothing was known whatever in that office regarding the reported amalgamation Had such a thing taken place, he said he would have known. Signor Mar-coni, who is in Rome, telegraphed that he had never heard of such a proposal, and he didn't think the directors of his company would agree to any such

amalgamation. The cable despatch from New York said that the management of the Marconi company there denied all know-ledge of the proposed amalgamation and had telegraphed to London for information. No one in London of the Marconi company knew anything about any such a cable having been received. The managing director of the De Forrest company in London, which owns the rights of the system in Europe, Great Britain and the colonies, said they were not concerned in the matter at all and would never agree to any amalgamation which the American company might propose with the Marconi company.

The story became known today when Sergeant Dietrich, tons of rails which were piled on the Hartford police force, went to Meriden to restore the recovered jewels to the family of the woman who threw them away.

When the organ grinder played her tunes before the sanitarium one of the patients, whose identity is determined to reward her. The patient had no money, but she grabbed up the corsets and threw them, diamonds and all, to the girl in the street. The latter was overjoyed with the silk corsets and carried them away. Young Men's Society of St. Dunstan's is the name under which a society formed yesterday by the young men of the congregation of St. Dunstan's Catholic Church will be known. The so-ciety is formed principally for furthermen of the congregation. Debates will be engaged in and a gymnasium may be fitted up. The society will likely become prominent in local athletic circles, as similar organizations have in other cities. The officers of the society are as follows: President, John O'Neill; vice president, J. L. Pheeney; secretary, Joseph McCarthy; treasurer, Ernest Hanlon. Another meeting for the purpose of completing organization will be held on Sunday next. James Hughes, principal of St. Dunstan's school, is spoken of as likely to become honorary president of the society, and the members feel that the society will soon take the place of the Young Catholic Boys, which organization flourished in the city a number

JAPAN'S NEXT WAR DECREED BY FATE

French Paper Says it Will be With Uncle Sam.

Geographical Position of Two Countries and Commercial Rivalry Render This Imperative.

PARIS, Nov. 20 .- Although the Paris newspapers, even those that are un-willing to recognize beneficence toward the world in general in the Anglo-French alliance, speak in a friendly manner toward America, there are some journals that believe Japan and America are bound to fight soon, and that appear eager to keep the subject before their readers.

Today the Echo de Paris says that Japan's next war will be with the United States, and while the governments desire peace, it is impossible to eradicate America's aversion to the yellow race, which, the Echo says, is both instinctive and rational. To show Japan's feelings and with the possible implication that war is not so far off as some think, the Echo digs up a Japanese review which says that the Panama Canal will quadruple the danto Japan.

The Echo says that fate has decreed a war, and that the geographi-cal positions of the two countries and their commercial rivalry can only result in a clash of arms.
