Regina, Wednesday, March 20, 1907

REGINA AND THE HUDSON BAY large Capital . Truos

Laurier in connection with the Hudson Bay railway proposal ginewhich

with regard to the matter, recent de-

routeoas an outlet for the produce of such an outlet to the people of the west is now disputed by few. In the past the idea has to a very considerable extent been looked at suspiciously, by the people of the East, who were undoubtedly somewhat adversely influenced towards it by the fear alest such at failway swould be be wearing down and today several of the most influential eastern papers

to Liverpool and railway connection with Hudson Bay April 3 from the west and from the East embodied in succint form a good deal of valuable data. He pointed out that there are fessibility of the Hudson Ben route excuse to explain his abstention from this connection it may be mentioned and expert from Winnipeg to advise succint form a good deal of valuable data. He pointed out that there are two ports on that great inland sea, ground of justification. [3] not rival ports, and that the railways would approach from opposite directions. From Erwood, a point on the sibility of the press, he did not, how main line of the Canadian Northern ever touch upon the responsibility Manitoba, a line has been constructed to the mouth of the Saskatchewan to say that the press moulds public River. The first proposition is to ex-tend this line to Fort Churchill, the Thest harbon on Hudson Bayen The true—but to a certain extent only. become the chief grain carrying route from the western wheat-fields for ocean shipment via Hulson bay to Ocean simplified The distance from of the public itself 5110.50 Saskatchewan briver to Fort Churc-Saskatchewan river to Fort Churc-hill is some four d hundred ornites. The recent Manitoba elections Messic Mackenzie and Mann are now nord in interesting instance as seeking a Federal subsidy for this proposed railways tine of Itobecomes proposed Panways states in the idea of ic and the pressure one of the m transportation of Western approduce disgraceful incidents in that el for shipment wision Hudson Bay into Europe its retaking stronger and stronger hold on the West in Indeed, fon. Robte-Rogers upon the Rev. the line is practically assured The W. Gordon on attack repropated amount of sabsidy or the extent of the strongest possible terms by two the land grant, which the the Ottawa out of three Winnings dailies as we Government will give the promoters.

The value of the Hudson, Bay a large section of the provi route to the West, for shipment of tial press outside the capital. Wh

"as a convenient centre for these was endorsed by the electors of "northwestern farming, lands, the "distance from there by the way of "Soo miles or the same distance as the province as he did previously. "from Regina to Fort William on "Lake Superior and a thousand "miles shorter than the distance from "Regina to Montreal at the head of "sea navigation on the St. Lawrence. "The distance from Churchill to Liverpool is almost the same as the same as that the head of "wan Valley Land Company from both of particular in the very men whom in the very men whom in the very men whom that the head of the land included the same as the would like to see engaged in publication Montreal to Liverpool, it life. The honest emoluments of the railway company and the Government to the fact interegard to Mr. Siften the fact inter

itude to a daylight is clasted in the profit that at the bart or any other profession of the Government that at the bart or any other profession of the West, would mean a devote his severely and advantages of the region. The expectations of the Government that at the bart or any other profession of the West, would mean a devote his severely and subject to the would become in a stiffed and unproductive country would become in a stiffed and productive country would become in a stiffed and productive, has been amply and satisfact and advantages of the region. The expectations of the Government that at the bart or any other profession to write he would be a productive country would become in a stiffed and unproductive. It having been demonstrated in the profession of the country would be a productive and the productive country would be a productive and advantages of the region. The expectations of the Government that at the productive country would be a pr produce of the West, would mean a devote his energies he would have a saving of about one thousand miles, and avoiding the dangers which still continue the sto Lawrence route. This theans a saving in freight and a great lessening of the pressure upon the delinquincies of Canada's political black sheep, while ignoring the opening of navigation period to the devoted service five in the crease of price corresponding to the devoted service five in the crease of price corresponding to the devoted service five in the crease of price corresponding to the devoted service five in the crease of price corresponding to the devoted service five in the crease of price corresponding to the devoted service five in the crease of price corresponding to the devoted service five in the crease of price corresponding to the devoted service five in the devoted service five in the crease of price corresponding to the devoted service five in the crease of price corresponding to the devoted service five in the devoted service f

made a huge fortune.

distance by rail from the centre of the wheat growing district.

Indications coint to an early arrangement to the Covernment and some arm or way builders for the construction of chis line to Fort the construction of this line to Fort hurchill, and it is quite possible that within two or three years the Hudson Bay route will be an accom-plished fact.

THE PRESS AND PUBLIC LIFE.

of inestimable value to the country. in like quantity was sold at the same of Patrick blames the press, claiming time and to the same persons.
