Planet Office, Tuesday evening, November 4. GRAINS.

Ald. Waddell, of the firm of J. B. Stringer & Co., gives The Planet the following market quotations:-Wheat-Receipts run small these days, partly owing to the heavy and pressing work claiming the farmer's attention. The price rules steady at

70c standard. The coarse grains are moving moderately, the demand very good and market steady to firm.

Best white oats make 30c now; best barley 85c per 100 lbs., and new corn, (ears) brings 40c per 60 lbs, the hauling being from the field,

Beans-This market has quieted down considerably of late and from the high point shows a decline of 20c to 25c a bushel. A good sample is worth \$150 to-day. Offerings since the decline very small and as demand is small this suits the dealers very Samples shown of the new crop so far generally show very poor. Good ones will be the exception this

HENRY CLEWS' REPORT.

Henry Clews in his weekly letter to the Planet, says-

The immediate outlook for a good traders' market. Quite a bearish following has been created, but it lacks leaders, and no aggressive policy can be looked for in that quarter while stocks are so strongly concentrated and well backed as they now are. The big holders being in a very conservative mood appear quite willing to permit a downward drift, and no change seems likely until the new year or anticipation of January disburseat hand. An oversold condition of the market, on the other hand might easily tempt punishment to over-ventursome bears. A rather severe strain has been imposed in some quarters by the recent decline, and it not certain that liquidation is complete. The failure of the market to respond to rising bank averages and easier money is significant. There is no real distrust, but caution is still observed in high circles. Throughout the west business prosperity appears uninterrupted. There the benefits of large crops are being already experienced. Unfortunately prices of agricultural products are held so high as to delay exports and thus increase the possibility of gold shipments. It seems impossible, however, for the outward movement of produce to be restrained indefinitely when Europe is ready to buy our corn, cotton, or wheat at moderate concessions. The excessively low outward freights now ruling (the result of many inward coal cargoes ordered on account of the strike) cannot last very long, and this opportunity is not likely to be lost sight of. The coming week promises to be a quiet one, and largely influenced by the election.

"Last spring, early, I wrote you my feelings and condition," says Mr. A. J. Vanderwater, of 873 West Division Street, Chicago, Ill., "and you advised me to take Dr. Pierce's Golden Medical Discovery, and then write how I felt. I am happy to say I am getting to feel fine. In all I have taken six bottles of the 'Discovery' and four or five vials of the little 'Pellets.' They have done me worlds of good. All my friends say: 'Vanderwater, how well you are looking.' The medicines have made the great change in me: from the slow mope of a man that could hardly crawl, tired and sick all the time, could do no work, to a man who can work, steep, eat, and feel fine, and that tired feeling all gone away. I am very thankful that I wrote to Br. Pierce. His 'Golden Medical Discovery' and his little liver 'Pellets' have almost made a new man of me. I feel young as I did at thirty years."

HAVE YOU ANY OF THESE

Symptoms of a Very Common 1 rouble There is no disease so common in he United States as Catarrh, because

appears in so many forms and atcks so many different organs. It is a common mistake to suppose that catarrh is confined to the nose and throat. Any inflammation of the mucous membrane wherever located encouragement by their Reverend accompanied by abnormal secretions, is catarrh. Catarrh of stomach of bladder, or intestines is nearly as common as nasal catarrh and much more serious, although it is true that stomach catarrh and catarrh of other in ternal organs is the result of neglect-

ed nasal catarrh. A new remedy has recently appear d which, so far as tested, seems to be emarkably effective in promptly curing catarrh wherever located. The preparation is sold by druggists generally under name of Stuart's Catarrh lablets, and in addition to being very palatable and convenient, possesses exraordinary merit, in many cases giving immediate relief from the coughing, having and constant clearing of the throat and head, those symptoms with which everyone is familiar who has ever suffered from colds in the

head and throat. Catarrh is simply a continuation of hese symptoms until the trouble becomes chronic and grows gradually

worse from year to year. Stuart's Catarrh Tablets are composed of Hydrastin, Red Gum and similar antiseptics and catarrh specifics, from which it will be seen that no secret is made of the ingredients and al- in the A. O. U.
