## MARKS A NEW ERA.

Paris, Feb. 13 .- The Temps declares that the alliance between England and Japan marks a new era. Mr. Chamberlain had tried all other powers as an alternative to abusing them. The alliance, it considers, is a defiance to Russia, but must also have an important effect in Germany, which is dis-placed by England in Japan's favor, for the control of China. An indirect but clear invitation is held out to the United States to join in the alliance

## Narcolepsy.

Narcolepsy is a curious and some what rare disease, whose most prominent symptom is irresistible attacks of sleep. These may come on suddenly at any time and place, and the patient is absolutely unable to stay awake. The sleep, Lowever, is usually of short duration, from ten to thirty minutes.

The disease was described and named by Gelineau, a French physician, in 1880. It is thought by some specialists to be closely allied to epilepsy. But as the attacks resemble healthy sleepthe muscles are relaxed, the heart and respiration are slowed down, the patient on awakening is refreshed as after an ordinary nap, and there is none of the lassitude and sense of exhaustion which follows the epileptic fitit is certainly very different in orig from the latter. Robin and Paul Sainton have recorded cases which show a close association between obesity and

the tendency to narcolepsy. It seems probable, however, as Dutil thinks, that its closest ally is simple

## Cat Versus Trout. A member of the Sullivan County club caught half a dozen trout one day last summer and carried them alive to cottage, intending to take them to the city. He turned the water into his bathtub, and the trout seemed to thrive as well there as they had done in the

streams. That afternoon one of the fish disappeared. The man, thinking it had jumped out, looked all around the room, but no trout was to be seen.

Next morning two more were gone, and the servant was closely question ed. Then two more disappeared, and the fisherman was so much concerned that he took a place outside the bathroom window and proceeded to watch.

Pretty soon the family cat entered, perched on the edge of the tub and waiting its chance, struck viciously into the water with one paw and brought up the remaining trout.

Sunshine Society. Motto-Good cheer. Have you had a kindness shown! Twas not given for you alone-

Pass it on. Let it travel down the years, wipe another's tears, Till in heaven the deed appears-

The last week has been taken up with preparations for the "At Home" held in the I. O. O. F. Auditorium last evening. As is usual with enternents given by this Society, a good time was provided, and those who attended no doubt experienced a double pleasure in the thought that many lives would be made brighter through their effort to encourage the Sunshiners. The club colors, yellow and white, were used in the decoration of the Auditorium, which presented a very attractive appearance Several young men of the city paid Sunshine dues by providing the orchestra that gave such sweet music last evening. Many donations were sent in by those not able to attend, and these will be distributed among the poor of the city during the rest of the winter. The proceeds of evening's entertainment will known later.

"This past week one poor family was supplied with warm clothing-Sunshine members paying their dues by taking it. Already, then Sunshine known and blessed in several homes in Chatham. But Sunshine is not for Chatham alone. We hope that soon all Kent will feel its rays, and in time, other branches will organize to take up the work. The idea of 'passing on' can be carried out in the country as well as in town, A supply of good books or magazines would often be appreciated in a country home, there is surely a child somewhere who would enjoy those toys that are only taking up room in your house. Some invalid would spend several pleasant hours over a piece of fancy work 'passed on.' Some of the pro-ceeds from the 'At Home' will be used in forwarding such 'good cheer,' if the giver does not care to do so. There is the one central idea running throughout Sunshine work-to make others happy-and even in the own life will be the happier. Try it.

Enquiries addressed to 'Sunshine Box 258, Chatham, will be answered in this column, or an individual answer given if a stamp is enclosed for Any suggestions or reports from Sunshiners will be recorded each

Satlors' Rations. A recent writer has this to say of sailors' rations: "A sailor has dishes, and loves them, that are little appreciated ashore. He likes 'Fanny Adams' and has a great fancy for 'plum duff,' which consists of suet pudding with raisins in it. Vegetables, though they are in the official harbor menu, are not served out to the messes every day, but on certain days some groups of men get all and the others none, on a sys-

tem of which Jack quite approves. "The messes whose turn it is to have vegetables indulge in a 'pot mess,' as it is styled, perhaps not inappropriately. The messes in their turn receive the shins, scrag ends, neck pieces and other odds and ends of the meat ration -some sailors aver that every animal has at least six shins-and this miscellaneous assortment of remmanta is thrown into a pot with as many vegetables as can be got. The result is a

# :----- OSHAWA MIRACLE INVESTIGATED.

A Eworn Statement of Facts Almost Beyond Belief.

The Toronto Mail and Empire Sends Reporter to Oshawa-His Inquiries Result in Complete Verification of

Original Story. Very many startling stories of won-derful cures by Dodd's Kidney Pills have been published in these columns,

and in other newspapers all over the country from time to time.

Every case has been so well authenticated and in the country from time to time. ticated as to leave little room for doubt, and yet the statements made and the cures reported, have, in many cases, been so nearly miraculous as to be almost beyond belief.

Recently, The Mail and Empire of

Toronto, and other papers, published a despatch from Oshawa, in which it was said that a mechanic in the Oshawa Malleable Iron Works, had been cured of paralysis by Dodd's Kidney Pills, and that, after he had been ab-solutely helpless for four months, and had been given up by the physicians at the Hospital in Toronto.

This was too much for many peo-ple to believe, and numerous demands were made on the paper in question for a verification or correction. One correspondent signing himself "Medicus" in a letter to the Mail and Empire openly disputed the possibility of such a cure.

To get at the real facts a reporter was sent to Oshawa, and the result was a complete, and very satisfac-tory confirmation of the original despatch. To put the matter absolutely beyond question the following

sworn statement was secured: THE STATEMENT OF MR. BROWN In the fall of 1897 I was taken ill with what most of the doctors called paralysis, and other nervous prostra-tion. It commenced with a stiffness and soreness in the calves of my legs and gradually increased till I could not move either my arms or legs, having lost all power in them. I could not have raised my arms to my head to save my life. For over four months I could not stand or walk alone a single step. I doctored with all the local doctors, and then with a Bowmanville doctor. Each one gave me some different medicine, but the more I took the worse I got At last the Bowmanville doctor told me that nothing could be done for me unless I went to the hospital in Toronto where they might perhaps

have some later treatment for paralysis which would fit my case.
went there toward the end of January, 1898, and remained under treat ment in that institution for a little over four weeks. All was in vain. I got worse. Twelve doctors told me I could not recover, and that nothing could be done for me, so as I was getting worse every day, and there was no hope of their being able to help me in the least, I was removed to my home here, I was like a baby,

unable to move. At this extremity someone advised me to use Dodd's Kidney Pills, and my wife bought a box. We had not the slightest idea that they would help slightest me, but like a drowning man I grasped at every straw. After I had used the first box, the numbness began to Before the morning's dawn. leave my finger tips, and I felt a Tis better far when friends are near, little better, and kept on using the leave my finger tips, and I felt a pills. By two months' time I could walk a little, and shortly afterward was able to go short distances with-

The Holy Spirit, who fills the apos-tles with holy boldness, would make us, too, courageous. God's word at Penticost and in this council reached hearts, to one a saviour of life, but here of death. One man, with God, a majority, though all his judges con-demn him. Death must silence these men. Paul's tutor, Gamaliel, gives good advice—the work of man comes to naught, the work of God abides; every plant the Father hath not planted shall be rooted up. After being scourged and commanded not to speak in Jesus' name they are released. Such are the arguments of this religious council without the Holy Spirit, while with the Spirit-filled apostles there is joy in their sufferings and persecutions, counting it a great honor, while they continue daily in the Temple and every home to preach and teach Jesus Christ.
