Victory Loan 1919 Is Bridge Between War and Peace.

Agricultural and Industrial Prosperity of Canada Depends on Success of the Loan.

Why is it necessary to have another Victory Loan? Have you heard this query? Or have you asked it?

The Victory Loan of this year stands out as the bridge between war and peace. The war is over, Our boys won that. The reconstruction period is dawning and we at home

must win that.

Much of the money that Canada is asking for will be needed to clean up the war debt. The expenses of that we repudiated the debt for bringing them back.

The sick and wounded soldlers start

in hospitals are expecting that Canpendents until they have been re-turned to health and strength. The hospital services must be maintained at full strength as long as there are

soldiers in trades and professions that they can earn a living at, and is following up the training and see-ing that they obtain reminerative employment. The maintaining of this branch of reconstructive service calls for much funds, and the Victory Loan will be used to pay for it as well as the other purposes. Under the Soldiers' Land Settle-

ment Act, enough money is lent to ment Act, enough money is lent to returned soldiers to enable them to buy and stock a farm. This money will be repaid at a low rate of interest. The soldier is thus given a chance to re-instate himself in civil life, and production is given a boost. Of the total amount of the forthcoming loan, \$24,000,000 has been apportioned to finance these soldier-farmers.

coming loan, \$24,00,000 has been apportioned to finance these soldier-farmers.

Pensions to the disabled and dependents of our glorious dead, as well as the authorized gratuities will be other frems on the expense sheet. These are some of the obligations owing to the returned soldier who is now in health.

The maintaining of Canada's prosperity is an important reason why the Victory Loan should be a smashing success. The money is needed to inance the credits to overseas countries so that they may continue their trade relations with us. If Canada cannot give these credits other countries will, and their Canada will lose aff that great overseas trade that has been the mainstay of our agricultural and industrial life for so long.

As an investment victory Bonds are eminent. Paying 5 ½ per cent., selling shove par on the open market, and guaranteed by the Dominion—what further reason can you have for hesitating? The Victory Loan (319 ought to be oversubscribed, and all right-thinking citizens will detheir umost to see that such a result is obtained.

TO CARE FOR WOUNDED

Our soldiers in France faced perils other than those of shell and gas and machine-gun fire. There was the peril of tuberchlosis. Up to Aurust last 3,509 soldiers suffering from this disease has been seturned to Canada. These were placed in santoriums under the direction of the Department of Soldiers' Civil Recentablishment; and they are one of the departments of that branch that must be maintained and come under the lead of capital was outlay.

All of these man and some 20,000 others, disabled or ill, will be fooked after with money raised through the Victory Loan 1918. It is the sacred duty of Canadians that the money is forthcoming.
