MISSIONARY MEETING

On Wednesday Feb. 7th, Miss Flora Clark, returned missionary from Bimlipatam, India, addressed a meeting in the Baptist church. The Women's Missionary Societies of the Presbyterian and Methodist churches were present by invitation of the Baptist W. M. S., under whose auspices the meeting was held. Rev. Mr. Dean read from the scriptures and engaged in prayer.

Mr. W. G. Clark of Fredericton occupied the chair in the absence of Rev. Dr. Cousins, and in emphasizing the value and need of missions quoted Sir Andrew Fraser who after 37 years in India said that missions were a wonderful success, also Mr. Hamilton of Toronto who visited the South in order to view an investment and as a result doubled his investment and later made a tour of the world and visited the mission fields and as a result quadrupled his investment.

Miss Clark was then introduced and spoke from an experience of nine years among the Telegus. There were seated on the platform young people dressed to represent the Telegus, Burmese, hill tribes, high caste ladies when allowed on the street, etc. She also showed models of the Indian plow, stove, Brahmin drinking vessel, Telegu cup, strainers, snake skins, and some of the household gods of India. She spoke strongly of the dreadful degradation and need and emphasized the great honor that Christians have in being allowed to work with Christ for the millions of India as well as those in other lands.

Mr. Clark conveyed the thanks of the meeting to Miss Clark and Mrs. Nicholson voiced the thanks of the Presbyterian society.

During the evening several duets and appropriate hymns were sung. A collection was taken in aid of mission work.

LABOR MEN INTERVIEW PREMIER

St. John Labor men have asked the Local Government to create a commission of Labor with portfolio. They want the workman's Compensation Act amended so as to do away with the necessity of litigation and make it possible to secure a speedy settlement of claims arising under the act. They also want the amounts of the benefits increased and the awards for the loss of an arm or a leg fixed in accordance with the principles adopted by the accident liability insurance companies. They asked too that the act be extended so as to include the granite workers and certain other trades in its provisions. The amendment asked for in connection with the Factory Act had to do principally with the provision of better sanitary arrangements in factories.
