MORRISY NOT SCULLY
Mr. Scully, M. L. A. of St. John is said to be putting in vigorously a claim for the vacant seat for New Brunswick. If it is so that the seat should in equity go to an Irishman it will be generally conceded that Mr. Scully has yet many years to go before his name and his services in the public life take precedence of the name and the public services of Hon. John Morrissey of Northumberland-Downer.

The careful housekeeper studies the question of values in all her purchases. She insists on having MORSE'S Tea not only because it has the flavor she likes but because it goes so much farther—because it makes so many more cups of the pound. From the standpoint of economy as well as from the standpoint of quality MORSE'S has become a favorite with thrifty housewives.

There was some discussion at the Sewing Circle this week about the time when coffee tastes best. The preponderance of opinion was that coffee tasted best at breakfast-time; which is probably right. A poll of the members was also taken as to which is the richest-tasting coffee on the market, to-day. The vote was unanimously in favor of LUXOR ORIENTAL COFFEE which is sold by all first-class grocers in half and one pound tins.

Following the receipt of the news of the Canadian Premier's plea in England for British investment in Canada comes the announcement of the purchase by Canadian Vickers Ltd. of the stock; plant and business of the Phoenix Bridge and Iron Works Ltd. Lumber companies are making haste to complete preparations for stream driving with the rapid approach of spring conditions as a result of mild weather during the past few days. Fraser Companies Ltd. during the week-end were rushing supplies for their drive on the Nashwaakiss the expectation being that the Nashwaakiss and the Rusagornis will be two of the streams on which the earliest driving operations will occur. Estimated quantities of logs to come on the river to Springhill this year place the total at about six million feet.

RED CROSS SOCIETY
A meeting of the Newcastle branch of the Red Cross Society was held yesterday at the residence of Mrs. W.A. Park. THE VARIATION IN BULK TEA
The quality of bulk tea is unreliable for several reasons. In the first place its origin and age is unknown to the housewife so that it does not carry any responsibility. In the second place it is exposed to the air while offered for sale and therefore very quickly loses its flavor and freshness. Even if it were as good as "SALADA" in the first place it would rapidly deteriorate for this reason and in any case it would be impossible for any dealer to follow consistently the same quality throughout the year. "SALADA" always maintains an unvarying high standard possible through skillful blending and careful preservation in sealed aluminum packets.

Fifty Men Dismissed From C. N. R. Shops

Further reduction in the working forces of the C. N. R. Shops in Moncton took place Saturday when some fifty employees were dismissed. The majority of those dismissed were car shop employes while a small number of Machinists and Machinists' Helpers were also included in the dismissals. In the absence of the higher Regional Operating Officials from the city, the reason of the reduction in shop employees could not be ascertained. It is reported, however, that a cut in the appropriations for the running of the Moncton Shops has been ordered, brought about possibly through the letting out of repair contracts to private car companies located elsewhere.

"King Cole" Preferred
A growing preference is expressed for KING COLE TEA. What other explanation could there be for its persistently increasing sale? Every year of the twelve that it has been before the public has marked its strong steady advance. A good long testing time—long enough to prove the merits or reveal the weakness of any article. Public confidence has been demonstrated in no uncertain way. The testing stage has been passed with honour.
"You'll like the flavor."
